Re: Improvements Proposed to be Financed Using the Special Recreation Levy.

Dear Susie,

The Rolling Meadows Park District hereby notifies and requests approval of the NWSRA Board of Directors for the proposed expenditure of funds from the Districts Special Recreation levy to pay for the cost of the following improvements.

1. South Salk playground project

The renovation of South Salk Park playground was completed during the summer of 2009. The project included:

- Design, engineering and construction observation to insure ADA compliant layout and installation of play equipment and pathways,
- Demolition of existing non-compliant pathways,
- Installation of accessible paths, purchase and installation of play equipment, picnic tables, and drinking fountain.

The total cost for this project was \$264,463. Costs to meet ADA compliance totaled \$171,871.

The benefits of this project to the NWSRA are that an ADA compliant accessible playground is within walking distance to the NSWRA Day Camp program that is held at Conyers Learning Academy.

2. ADA Accessibility Assessment of Facilities and Property.

The Park Board engaged the services of Recreation Accessibility Consultants to complete an audit of the 6 facilities and 11 parks of the District. The cost for this audit is \$26,900.

The Rolling Meadows Park District respectfully requests that you review this request and present it with your approving recommendation to the NWSRA Board of Directors.

Sincerely,

Amy Charlesworth
Director

Re: Improvements Proposed to be Financed Using Special Recreation Levy

Dear Ms. Julison,

We request approval from the NWSRA Board of Directors for the proposed expenditure of funds from the River Trails Park District's Special Recreation Levy to pay for the cost of the following ADA improvements:

1) Willow Trails Park, Burning Bush Trails Park, and Rob Roy Golf Course Asphalt repairs and sealcoating of all parking lots and accessible paths; and Burning Bush Trails Park roller courts:

Out of the total bill of \$32,521.50, we are requesting \$3,965.10.

- 10% of the cost of sealcoating and repairs to paths and parking lots:
 - Repairs, sealcoating, striping, and handicap markings to Willow Trails Park, Burning Bush Trails Park, Rob Roy Golf Course: 10% of \$23,701 = \$2,370.10
- 15% of the cost of resurfacing:
 - Burning Bush Trails Park enclosed basketball and roller courts: 15% of \$8,500.00 = \$1,275.00
- 100% of the cost of additional handicap parking spaces striped: \$320.00

Totally \$3,965.10

2) The River Trails Park District has contracted with recreation accessibility consultants to conduct an Access Audit not to exceed \$11,000.

We respectfully request that you review these two proposals and present it for recommendation to the NWSRA Board of Directors.

Thank you very much for your consideration.

Sincerely,

A handwritten signature in cursive script that reads "Debbie Carlson Kudla".

RE: 2009 Elk Grove Park District Projects to be Financed Using Special Recreation Levy

Dear Ms. Julison,

The Elk Grove Park District hereby notifies and requests approval of the NWSRA Board of Directors for the expenditure of funds from the District's special recreation levy, to pay the cost of the following improvements.

Park	Total Project Budget	Total Accessible Budget	Actual Project Total	Actual Accessible Total
Bartrum-Renovation	\$215,000	43,000	\$194,989.00	\$43,000.00
Olmstead-Renovation	15,000	15,000	\$14,025.00	\$14,025.00
Osborn Renovation	162,430	5,000	\$88,454.00	\$5,000.00
Site Furniture	24,000	6,000	\$27,074.00	\$6,000.00
Fairchild walk improvements	21,000	4,000	\$17,650.00	\$4,000.00
Marshall walk improvements	3,900	3,000	\$2,840.00	\$2,840.00
Lions walk improvements	17,000	3,140	\$12,500.00	\$3,140.00
Burbank walk improvements	6,600	3,650	\$3,500.00	\$3,500.00
Handrails @ Johnson, Clark, HC	10,994	10,994	\$10,994.00	\$10,994.00
Adaptive play equip(swings)	1,433	1,433	\$1,433.00	\$1,433.00
A Hatt. Center improvements	32,000	8000	12,631.00	\$12,631.00

The estimated costs of improvements are **\$106,563.00**. The improvements are expected to be substantially completed by December 1, 2009 Anticipated benefits of the project to NWSRA are as follows:

Bartrum Park \$43,000. This park renovation included playground equipment that has either a transfer platform or ramp to access the structures. The center of the play area includes a picnic shelter for shade and accessible seating from an accessible path. Ramps into the engineered wood fiber play surface provide access to the adaptive swing and play equipment. A new 5' wide concrete path through out the park with seating areas replaces the old 4' concrete walk that was in poor condition. A new softball spectator area includes

accessible seating in the bleacher area, an accessible walk from the public sidewalk and better visibility of the field.

Olmstead Park Nature Shack \$14,025. The Nature Shack is a re-purposed ice skating warming shed that is our new outdoor education center. The existing restrooms were too small and needed to be made accessible. Staff developed a single ADA accessible restroom and upgraded all the fixtures. Signage was upgraded and installed as well. Accessible walkways and paths now lead from the public sidewalk into the building.

Osborn Park \$5,000 As part of the renovations of the park tennis and basketball courts a new accessible path was built. Accessible seating areas and appropriate site furniture were installed. A new picnic shelter, between the playground and ball field has 2 new accessible tables.

Site Furniture \$6,000 New accessible furniture was placed along accessible routes to playgrounds and ball fields. The furniture is new to these areas and includes benches and picnic tables for all. Newberry, Johnson, Audubon, Hanson, Mead, Olmstead and Fairchild parks received new furniture.

Fairchild Park \$ 7,900 A new concrete walk replaced the old broken asphalt walk and connected the accessible bleacher area with the playground and tennis courts. The walk also connects the portable toilet and tennis courts. New accessible benches were installed.

Marshall Park \$2,840 A new accessible concrete walk connects the parking and playground to the spectator area of the soccer field. Accessible spectator space is now available.

Lions Park \$3,140 Accessible path from parking to bleacher areas and accessible picnic tables along the path are available.

Burbank, Lindbergh, Huntington Chase, Johnson Parks \$3,500. The majority of the funds were used to provide an accessible path from the public sidewalk to the toilet and enclosure at Burbank Park. Accessible toilets were contracted for the additional parks during the soccer seasons.

Handrails along sidewalks, Huntington Chase, Johnson and Clark Parks \$10,994 Concrete walks were steeper than 5% slope and required handrails to meet requirements. These walks were designated as accessible routes to portable toilets, and bleacher areas near sports fields.

Adaptive play equipment \$1,433. Adaptive swings with straps for use by schools at recess and general play for Bartrum (as per public meeting) and Hattendorf preschool.

Re: Improvements proposed to be financed using special recreation levy

Dear Ms. Julison:

The Bartlett Park District hereby notifies and requests approval of the NWSRA Board of Directors for the proposed expenditure of funds from the District's special recreation levy to pay the cost of the following improvements:

Riley's Run Park project is the development of an accessible eight-acre park site with playground, tennis court, basketball court, picnic shelter, fitness equipment, dog park, parking lot and pathways.

The total cost of the improvements to the park is \$562,215. **Of this, \$96,519.00 (17% of the total project) is requested to be funded from the special recreation levy.** Please refer to the attached plan and cost summary for details. The improvements are expected to be substantially complete by October, 2009. Anticipated benefits of the project to NWSRA are as follows:

Access to the park is found via the accessible sidewalk and Village multi-use path or from the two accessible stalls in the parking lot. The path, sidewalk and the parking lot lead directly to the park's accessible asphalt pathway that connects to the ADA compliant elements of the park; picnic shelter, drinking fountain, tennis and basketball courts, fitness equipment, benches, and multiple elements in the playground. The play area surface includes a poured synthetic rubber safety surface for easy access to the play structure and accessible swing seat.

The District respectfully requests that you review this request and present it with your approving recommendation to the NWSRA Board of Directors. If you have any questions or require additional information, please do not hesitate to contact me.

Very truly yours,
BARTLETT PARK DISTRICT

Re: Improvements proposed to be financed using special recreation levy

Dear Ms. Julison:

The Bartlett Park District hereby notifies and requests approval of the NWSRA Board of Directors for the proposed expenditure of funds from the District's special recreation levy to pay the cost of the following improvements:

Bartlett Reserve Park project is the development of a one-half acre park site with an accessible playground and picnic area.

The estimated total cost of the improvements is \$80,537.00. **Of this, \$16,107.00 (20% of the total project) is requested to be funded from the special recreation levy.** The improvements are expected to be substantially complete by November 30, 2009. Anticipated benefits of the project to NWSRA are as follows:

The accessible walkway leads from the public sidewalk directly to the park's ADA compliant playground and picnic area. The play area has multiple accessible elements and the picnic area is shaded and has an accessible picnic table.

The District respectfully requests that you review this request and present it with your approving recommendation to the NWSRA Board of Directors. If you have any questions or require additional information, please do not hesitate to contact me.

Very truly yours,

Heritage Park Pathway & Bleacher Pad Improvements

This project consisted of removal and replacement of the asphalt pathway with a new 8' wide concrete pathway and the installation of new 5' wide sidewalks and bleacher pads for all of the ball fields. These improvements were completed in the summer of 2008. The benefits of this project to NWSRA are as follows: (1) provides an accessible path to the ball fields, (2) provides smooth surface condition for easier use, (3) provides an accessible path to the bleacher pads, and (4) provides an accessible path around the park. The site was not previously accessible, and the primary purpose of installation of 5' of the width can be attributed to accessibility with secondary purposes including equipment accommodation and extracurricular activities (i.e. biking) via additional width not included in the amount estimated/requested. We estimate that 63% of the improvements can be attributed to accessibility, and we are requesting 61%. This includes a percentage of the material cost, demolition, excavation, installation, and restoration of the pathway and the bleacher pads. Please reference Appendix A for additional information.

Berbecker Park- ADA Playground & Pathway

The project consisted of the removal and replacement of the existing playground with new accessible equipment, surfacing and entry walk. These improvements were completed in the summer of 2008. The benefits of this project to NWSRA are as follows: (1) provides a 5' accessible path up to and into the playground, (2) provides accessible play activities, (3) enables children to interact and play, (4) and enables children to learn social skills. The site was not previously accessible, and the primary purpose of installation of the equipment, materials, and costs associated with the accessible features utilized can be attributed to accessibility. We estimate that 42% of the playground improvements can be attributed to accessibility, and we are requesting 35%. This includes a percentage of the equipment cost, demolition, excavation, installation, and restoration of the playground, cost for the safety surfacing, and cost of the concrete work for the playground. Please see Appendix B for additional information.

Patriots Park- Playground Improvements

The project consisted of the removal and replacement of the existing playground with new accessible equipment, surfacing and entry walk. These improvements were completed in the summer of 2008. The benefits to NWSRA are as follows: (1) provides a 5' wide accessible path up to and into the playground, (2) provides accessible play activities, (3) enables children to interact and play, and (4) enables children to learn social skills. The site was not previously accessible, and the primary purpose of installation of the equipment, materials, and costs associated with the accessible features utilized can be attributed to accessibility. We estimate that 50% of the improvements can be attributed to accessibility, and we are requesting 34%. This includes a percentage of the equipment cost, demolition, excavation, installation, and restoration of the playground, cost for the safety surfacing, and cost of the concrete work for the playground. Please see appendix C for additional information.

Lake Arlington- ADA Bridge Replacement

The project consisted of the removal and replacement of the current two bridges with new pedestrian bridges. These improvements were completed in the summer of 2009. The benefits to NWSRA are as follows: (1) provides a 6' accessible path connecting the sidewalks, (2) provides a smooth surface condition for easier use, and (3) provides a continuance of the accessible path throughout the park. The site was not previously accessible, and the primary purpose of installation can be attributed to accessibility. We estimate that 83% of the bridge replacement can be attributed to accessibility, and we are requesting 42%. This includes a percentage of the equipment cost, removal, disposal, and installation of the two bridges. Please see appendix D for additional information.

North School Park- Playground Improvements

The project consisted of the removal and replacement of the existing playground with new accessible equipment, surfacing and entry walk. These improvements were completed in the summer of 2008. The benefits to NWSRA are as follows: (1) provides a 5' wide accessible path up to and into the playground, (2) provides accessible play activities, (3) enables children to interact and play, and (4) enables children to learn social skills. The site was not previously accessible, and the primary purpose of installation of the equipment, materials, and costs associated with the accessible features utilized can be attributed to accessibility. We estimate that 73% of the improvements can be attributed to accessibility, and we are requesting 50%. This includes a percentage of the equipment cost, demolition, excavation, installation, and restoration of the playground, cost for the safety surfacing, and cost of the concrete work for the playground. Please see appendix E for additional information.

Nickol Knoll Golf Club- ADA Pathway

The project consisted of the removal and replacement of the existing asphalt pathway with a new 9' path. This improvement was completed in the fall of 2008. The benefits of this project to NWSRA are as follows: (1) provides an accessible path along north side of the gold course, (2) provides smooth surface condition for easier use, and (3) provides an accessible path to the northern golf holes. The site was not previously accessible, and the primary purpose of installation of 5' of the width can be attributed to accessibility with secondary purposes including equipment accommodation and extracurricular activities (i.e. biking) via additional width not included in the amount estimated/requested. We estimate that 56% of the improvements can be attributed to accessibility, and we are requesting 56%. This includes a percentage of the material cost, demolition, excavation, installation, and restoration of the pathway. Please see appendix F for additional information.

Nickol Knoll Golf Club- ADA Sidewalk

The project consisted of the installation of a new 5' sidewalk along the entrance. These improvements were completed in the fall of 2008. The benefits of this project to NWSRA are as follows: (1) provides an accessible walk up to and into the golf course and (2) provides smooth surface condition for easier use. The site was not previously accessible, and the primary purpose of installation can be attributed to accessibility. We estimate that 100% of the improvements can be attributed to accessibility, and we are requesting 100%. This includes the material cost, demolition, excavation, installation, and restoration of the sidewalk. Please see appendix F for additional information.

Arlington Lakes Golf Club- ADA Pathway

This project consisted of removal and replacement of the asphalt pathway with a new 7' wide concrete pathway. These improvements were completed in the fall of 2008. The benefits of this project to NWSRA are as follows: (1) provides an accessible path from the parking lot to the golf course, (2) provides smooth surface condition for easier use, and (3) provides an accessible path to the southwest golf holes. The site was not previously accessible, and the primary purpose of installation of 5' of the width can be attributed to accessibility with secondary purposes including equipment accommodation and extracurricular activities (i.e. biking) via additional width not included in the amount estimated/requested. We estimate that 71% of the improvements can be attributed to accessibility, and we are requesting 12%. This includes a percentage of the material cost, demolition, excavation, installation, and restoration of the pathway. Please reference Appendix G for additional information.

Pioneer Park Sidewalk- Ball Diamond #1

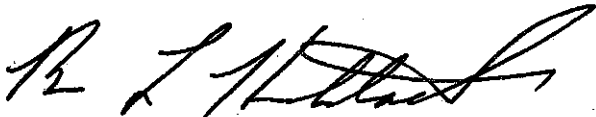

This project consisted of the installation of a new 5' wide sidewalk and bleacher pads. These improvements were completed in the fall of 2008. The benefits of this project to NWSRA are as follows: (1) provides an accessible path to ball diamond number one, (2) provides smooth surface condition for easier use, and (3) provides an accessible path to the bleacher pads. The site was not previously accessible, and the primary purpose of installation can be attributed to accessibility. We estimate that 100% of the sidewalk and bleacher pads can be attributed to accessibility, and we are requesting 19%. This includes the material cost, demolition, excavation, installation, and restoration of the pathway and bleacher pads. Please note that the capital project total also accounted for ball field fencing. Please refer to Appendix H for additional information.

Carefree Park- New ADA Sidewalk

This project consisted of the installation of a new 5' wide concrete sidewalk. This improvement was completed in the summer of 2008 upon receipt of a registered complaint by a resident. The benefits of this project to NWSRA are as follows: (1) provides an accessible path to the tennis courts, (2) provides smooth surface condition for easier use, and (3) provides an accessible path into the park from the street and existing sidewalk. The site was not previously accessible, and the primary purpose of installation can be attributed to accessibility. We estimate that 100% of the improvements can be attributed to accessibility, and we are requesting 100%. This includes the material cost, demolition, excavation, installation, and restoration of the sidewalk. Please reference Appendix I for additional information.

The Arlington Heights Park District respectfully asks that you review this request and present it with your approving recommendation to the NWSRA Board of Directors. If you have any questions or require additional information, please do not hesitate to contact me at (847) 506-7145

Sincerely,

Brian Huckstadt
Director of Parks & Planning
Arlington Heights Park District

Hanover Park

Park District

.....
hpparks.org 630.837.2468

1919 Walnut Ave. Hanover Park, IL 60133

September 21, 2009

Susie K. Julison
Executive Director
Northwest Special Recreation Association
3000 Central Road-Suite 205
Rolling Meadows, IL 60008

Re: Improvements proposed to be financed using special recreation levy

Dear Ms. Julison:

The Hanover Park Park District hereby notifies and requests approval of the NWSRA Board of Directors for the proposed expenditure of funds from the District's special recreation levy, to pay the cost of the following improvement(s).

The Hanover Park Park District owns and operates the Centre Court Athletic Club. The Club's fitness area currently owns thirty-one (31) pieces of exercise equipment that are not rated as inclusive / accessible for disabled individuals.

Staff has formulated a listing of members / users with disabilities composed of fifteen (15) individuals with varying degrees of disabilities, one of which is wheelchair bound. Due to HIPA restrictions, staff is unable to extensively survey our membership.

The Hanover Park Park District proposes the purchase of ten (10) replacement pieces of fitness equipment to realize a one third (1/3) ratio of total pieces of fitness equipment rated as inclusive / accessible.

The estimated cost of the improvements is \$46,715.22. The improvements are expected to be substantially complete by January 31, 2010. Anticipated benefits of the project to NWSRA are as follows:

The addition of this equipment will provide accessible equipment for utilization of NWSRA programs.

The District respectfully requests that you review this request and present it with your approving recommendation to the NWSRA Board of Directors. If you have any questions or require additional information, please do not hesitate to contact me.

Very truly yours,

Jeffrey Acks
Director of Park and Recreation
HANOVER PARK PARK DISTRICT

The district proposes to purchase the following equipment:

Strength: CYBEX Total Access

Leg Curl \$2661.75

Specifications

Model: #14061

Standard Stack: 165lbs. (75kg)

Heavy Stack: 205lbs. (93kg)

Dimensions: 56"L (142 cm) x 39"W (99 cm) x 64"H (162 cm)

Features

- Five Position Adjustable Calf Pad accommodates different lower leg lengths.
- Large Seat Base facilitates easy transfer from a wheelchair.
- Thigh Pad Hold-Down Mechanism allows the thighs to be secured above the knee for reduced shear force on the knee joint while keeping it in a stable position.
- Raised Numbers and Large Font on ROM. Start positions are easy to adjust/identify for visually impaired and older users.
- Start ROM on Cam Synchronised with User. Regardless of the starting position, the CYBEX Patent Pending ROM adjustment ensures the cam moves to maintain the correct strength profile for the user.
- User Accessible Weight Stack offers ease of weight selection from seated exercise position.
- Weight Stack with Low Start Weight and Integral Three-Position Twist Select systems offering 2.5 kg increments is suitable for inexperienced and older users.

Leg Press \$3604.25

Specifications

Model: #14040

Standard Stack: 405lbs. (184kg)

Heavy Stack: 505lbs. (229kg)

Dimensions: 99"L (252 cm) x 41"W (104 cm) x 78"H (198 cm)

Features

- Centrally Mounted Seat Adjustment with lever which can be easily operated with either right or left hand. No grip is required.
- Instructions at Seated User Height ensures ease of reading from a seated position by all users including those in wheelchairs.
- Large Foot Plate for stability when exercising.
- Laser Cut Numbering for seat adjustments, which can be viewed while seated. The large numbers are easily identified by visually impaired users.
- Side Handles below seat height for ease of transfer.
- Large Backrest and Seat Base offer more stability and confidence for older users as well as those with reduced balance.
- User Accessible Weight Stack offers ease of weight selection from seated exercise position.

- Weight Stack with Low Start Weight and Integral Three-Position Twist Select systems offering 2.5 kg increments is suitable for inexperienced and older users.

Row \$2596.75

Specifications

Model: #14030

Standard Stack: 245lbs. (111kg)

Heavy Stack: 305lbs. (138kg)

Dimensions: 51.25"L (130 cm) x 45.5"W (116 cm) x 76"H (193 cm)

Features

- Choice of Upper and Lower Handle Positions caters for wheelchair users who cannot adjust seat height, shorter users and those with reduced balance, who can then maintain full foot contact with the floor.
- Eight Position Reversible Chest Pad ensures a full range of movement is achieved by both tall and short users.
- Large Seat Base offers more stability and confidence for older users as well as those with reduced trunk stability.
- Top Mounted Input Arm Pivot position maintains the natural body movement of a gradually descending hand position during the movement.
- User Accessible Weight Stack offers ease of weight selection from seated exercise position.
- Weight Stack with Low Start Weight and Integral Three-Position Twist Select systems offering 2.5 kg increments is suitable for inexperienced and older users.

Chest Press \$2661.75

Specifications

Model: #14000

Standard Stack: 245lbs. (111kg)

Heavy Stack: 305lbs. (138kg)

Dimensions: 59.5"L (151 cm) x 43.25"W (110 cm) x 68.63"H (174 cm)

Features

- Locking Plunger Adjustment on swing away seat allows easy access for wheelchair users and one-handed seat adjustment for users with limited mobility.
- Adjustable Input Arm enables a non-stressed start position for users with limited shoulder flexibility and wheelchair users.
- Upright Seat Back Support (10°) allows wheelchair users to maintain stability with heavier weights.
- User Accessible Weight Stack offers ease of weight selection from seated exercise position.
- Weight Stack with Low Start Weight and Integral Three-Position Twist Select systems offering 2.5 kg increments is suitable for inexperienced and older users.
- Top Mounted Exercise Pivot Position ensures correct biomechanical chest press movement from the hinged lever arm pivoting at the top.

- Choice of Upper and Lower Handle Positions caters for wheelchair users, shorter users and those with reduced balance.

Overhead Press \$2596.75

Specifications

Model: #14010

Standard Stack: 165 lbs. (75 kg)

Heavy Stack: 205 lbs. (93 kg)

Dimensions: 63.75"L (162 cm) x 59.38"W (151 cm) x 63.88"H (162 cm)

Features

- Swing Away Seat with locking plunger adjustment allows easy access for wheelchair users and one-handed seat adjustment for users with limited mobility.
- Choice of Upper and Lower Handle Positions caters for wheelchair users, shorter users and those with reduced balance.
- Counterbalanced Input Arm with 2.5 kg start weight. This allows all users a light start weight for single arm (unilateral) use benefiting inexperienced and disabled users, including amputees and people who have had a stroke.
- Large Type Instructions with clear fonts, including written and graphic instructions, to suit all users.
- User Accessible Weight Stack offers ease of weight selection from seated exercise position.
- Weight Stack with Low Start Weight and Integral Three-Position Twist Select systems offering 2.5 kg increments is suitable for inexperienced and older users.
- Raised Weight Stack iconography for visually impaired users to identify weight stack positions.

Cardio: CYBEX Total Access

Treadmill \$9954 (total for two)

Specifications

Model: #445Ti

Speed Range: 0.5 mph – 11 mph (0.8 kph – 17.6 kph)

Elevation Range: 0% - 15%

Running Surface: 20" x 60" (51 cm x 152 cm)

Dimensions: 72" L (183 cm) x 32" W (81 cm) x 61" (155 cm)

Maximum User Weight: 350 lbs. (181 kg)

Features

- Multiple Belt Logos ensure that one logo is always completely visible at all times so that visually impaired and other users can recognize if the belt is moving.
- Raised Console Iconography and Colour allows easy identification of the main controls both by colour, large buttons and text for older users, plus raised iconography for visually impaired users.
- Emergency Stop Lanyard provides safe emergency stop for users with limited upper limb function.
- Running Deck and Belt Colour Contrast. This allows users to safely

differentiate between the moving and non moving parts of the treadmill from the static side rails.

ArcTrainer \$8394 (total for two)

Specifications Model: #630AI

Resistance: Up to 900 watts

Stride Length: 24" (61 cm)

Incline Levels: 11

Dimensions: 81" L (206 cm) x 60" H (153 cm) x 38" (96 cm)

at upper hand grips; 28.5" (72 cm) at base

Maximum User Weight: 400 lbs. (181 kg)

Features

- Locking Mechanism for Foot Pedals provides complete stability for users when stepping on and off the equipment.
- Static side Handles offer added stability when mounting, dismounting and exercising.
- Raised Console Iconography and Colour allows easy identification of the main controls both by colour, large buttons and text for older users, plus raised iconography for visually impaired users.
- Large Colour Contrasted Foot Pedals ensure easy identification when mounting and dismounting.

Cardio: Technogym

Upper Body Ergometer \$ 5745

Specifications

Model: Top 700 - Powered

Total no. of programs: 18 *Quick Start, Goals (Time-Distance- Calories), CPR, Profiles (6), Training Zone, Warm-up, Constant Power, Constant Speed, Tests (3)*

Resistance (watt): 25 – 1000

Difficulty Levels: 1 - 30

Dimensions: 26" W x 61" L x 61" H (650 x 1550 x 1540 mm)

Weight: 290 lbs. (130 kg)

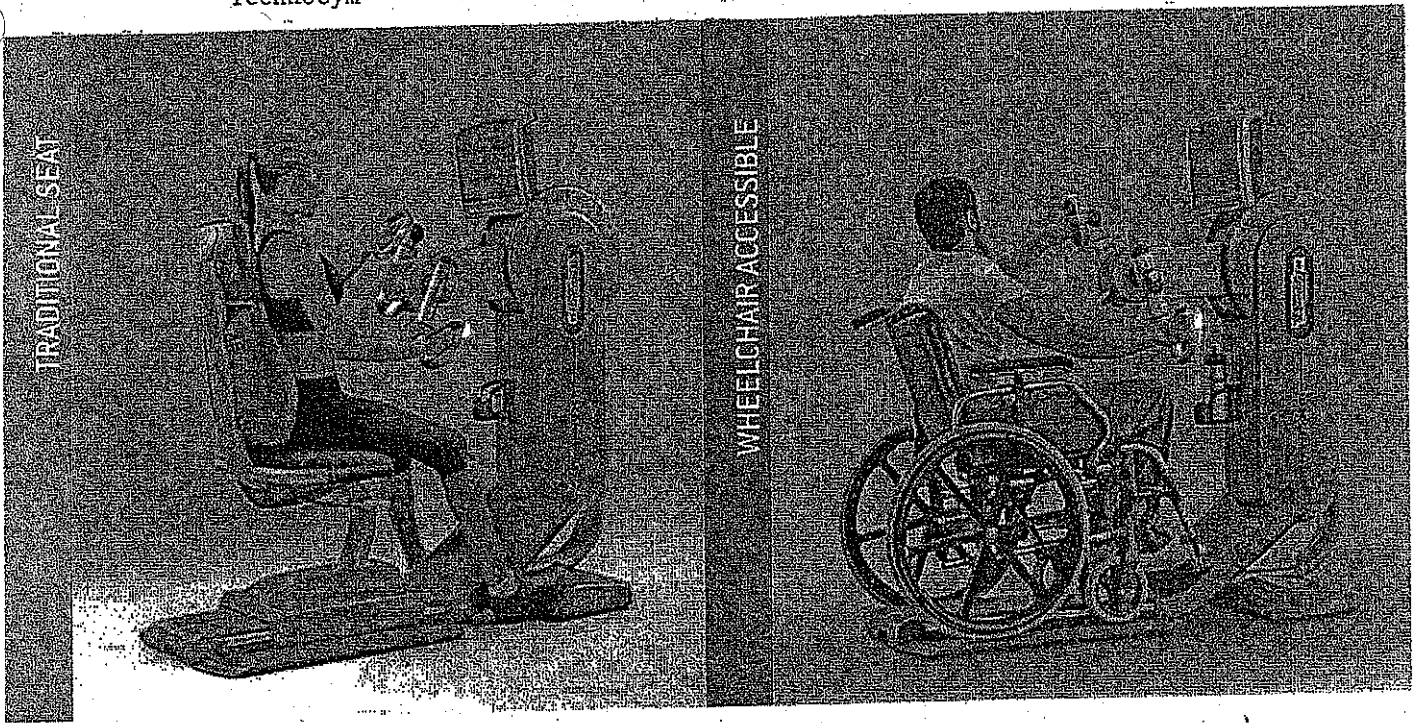

Features

- Optimal Warm-up – Improve training effectiveness and prevent injuries by preparing arms and shoulders for resistance training.
- In just 4 minutes, by selecting the Warm-Up function on the display, users will be taken through an exercise routine that prepares for safe and effective training. The progressive resistance increase first lubricates the joints and then progressively engages and warms up all upper body muscles using a forward and backward rotation.
- Rotating Handles to vary the involvement of different muscle groups,

distributing load according to needs and preferences.

- Telescopic Arms for use in all positions and at different heights. This feature enables the user to select the length of the arms and therefore determine the level of involvement of the torso.
- Forward-backward resistance to enable users to achieve a more balanced workout and the total involvement of all shoulder and torso muscles.
- Adjustable Hand Crank height for user comfort and precise fit, as well as a diversified involvement of the different muscle groups.
- Custom Training: The Constant Speed program matches effort at all times by accommodating resistance to variations of force output. Most effectively applied to rehabilitation.
- The only Upper Body Ergometer that provides an extensive library of tests for assessment and evaluation purposes. Tests include Submaximal and Maximal, for the assessment of both aerobic and anaerobic (Wingate Test) levels.
- Fast & Safe Recovery – Perform optimal shoulder and elbow rehabilitation, by carrying out a concentric workout.
- Improve Posture – Develop muscular balance around the spine, shoulder, torso and core stabilizer muscles. The innovative seat angle helps improve stabilization, through promoting a slightly opened pelvis angle.
- Aerobic Conditioning For All – Provide an accessible cardiovascular exercise to temporarily or permanently impaired users.
- Save Time – Perform a complete workout that combines aerobic, toning and strengthening exercises.
- Improve Your Sports Performance – Achieve superior results in those sports that require upper body stamina, strength, power, endurance, speed.

RE: ADA Improvements Associated with the Construction of Black Bear Park

Dear Ms. Julison:

The Hoffman Estates Park District is currently constructing a new park to be known as Black Bear Park located west of Essex Drive in Hoffman Estates. Numerous ADA improvements have been planned for this park in an effort to make this facility accessible to everyone. At this time, the Hoffman Estates Park District hereby requests approval from the NWSRA Board of Directors for the following expenditures to be paid from the park district's Special Recreation levy. The proposed improvements will provide direct benefits to the partnership that the park district has with NWSRA and the participants that are served through our joint agreement.

Concrete Surfaces

Remove Curbs and Install Depressed Sections	\$820.00
Install Tactile Plates (3)	297.00
Excavate 5 ft walk	5,500.00
Stone for 5 ft walk	3,400.00
5 ft wide sidewalks (2,200 lin ft)	49,500.00
SUBTOTAL	59,517.00

Asphalt Surfaces

Excavate for 10 ft paths (5 ft ADA portion)	1,250.00
Stone (5 ft ADA portion)	7,000.00
Asphalt 10 ft path (300 lin ft – 5ft wide ADA portion)	2,145.00
Excavate for 8 ft paths (5 ft wide ADA portion)	2,750.00
Stone (5 ft wide ADA portion)	29,500.00
Asphalt 8 ft path (3,900 lin ft – 5 ft wide ADA portion)	27,885.00
SUBTOTAL	70,530.00

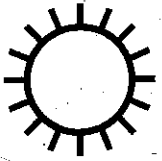

Playground	
Supply Equipment (13% of 36,666.)	4,766.58
Spring Toys (100%)	3,700.00
Install Equipment (13% of 17,560.)	2,282.00
ADA Soft Tiles	26,449.20
ADA Mulch Surface	7,081.00
SUBTOTAL	44,278.78
Disc Golf Walking Surface (8) ADA Woodchip Surface	10,360.00
Disc Golf Tees 6 ft x 16 ft	16,640.00
Nature Path ADA Woodchip Surface	2,883.00
SUBTOTAL	29,883.00
TOTAL	204,208.78

The above number reflects actual prices based on unit costs provided by the low bid contractors for this project. Should you or the board have any questions regarding the above numbers, please feel free to contact me at 847-561-2172. In the meantime, the Hoffman Estates Park District appreciates your consideration of this request.

Sincerely,

Gary Buczkowski
 Director of Planning and Development

**RE: ADA Improvements Associated with High Point 2-5 Year Playground
Replacement**

Dear Ms. Julison:

High Point Park's 2-5 year-old playground was identified in the park district's ADA audit and conformance plan adopted in January 2009 as one of the priority projects within the plan. With this in mind, the Hoffman Estates Park District is currently renovating the parking lot at High Point Park located on Glenlake. As part of those improvements, the existing non-accessible playground is being replaced with a playground that utilizes a transfer point as the means for ADA access. In addition, new ADA compliant loose fill wood chip material is being installed as part of the project.

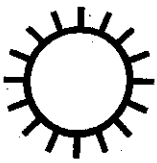

At this time, the Hoffman Estates Park District hereby requests approval from the NWSRA Board of Directors for the following expenditures to be paid from the park district's Special Recreation levy. The proposed improvements will provide direct benefits to the partnership that the park district has with NWSRA and the participants that are served through our joint agreement.

Playground Equipment costs (13% of 13,903.)	\$1,807.00
Install playground equipment (13% of 3,570.)	464.00
Purchase and install ADA compliant woodchip fall surface (106 cu yd)	2,888.00
TOTAL	5,159.00

The above numbers represent actual unit costs provided by the low bid contractor for this project. Should you or the board have any questions regarding the above numbers, please feel free to contact me at 847-561-2172. In the meantime, the Hoffman Estates Park District appreciates your consideration of this request.

Sincerely,

Gary Buczkowski
Director of Planning and Development

RE: ADA Improvements Associated with Pine Park Gate

Dear Ms. Julison:

Pine Park's Dasher Board players accessible gate was identified in the park district's ADA audit and conformance plan adopted in January 2009 as one of the priority projects within the plan. With this in mind, the Hoffman Estates Park District recently replaced the Accessible Gate at Pine Park located on Charleston in Hoffman Estates. The existing gate was 8" above the playing surface and did not allow ADA access to the playing area. The new gate is flush with no obstructions.

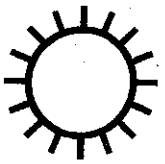

At this time, the Hoffman Estates Park District hereby requests approval from the NWSRA Board of Directors for the following expenditures to be paid from the park district's Special Recreation levy. The proposed improvements will provide direct benefits to the partnership that the park district has with NWSRA and the participants that are served through our joint agreement.

Becker ice Arena Products (Gate)	\$1,725.00
Concrete	186.00
In-House Labor	450.00
TOTAL	\$2,361.00

The above numbers represent actual costs expended by the park district for this project. Should you or the board have any questions regarding the above numbers, please feel free to contact me at 847-561-2172. In the meantime, the Hoffman Estates Park District appreciates your consideration of this request.

Sincerely,

Gary Buczkowski

RE: ADA Improvements Associated with Canterbury Fields

Dear Ms. Julison:

The Hoffman Estates Park District is currently constructing a new parking lot at Canterbury Fields Park located north of Maureen Drive in Hoffman Estates. As part of those improvements, new ADA accessible spaces and ADA accessible walkways will be created according to the specified ADA guidelines. I want to call your attention to the fact that the Village of Hoffman Estates has a unique detail associated with ADA parking spaces whereby concrete curb planters are required at the front of each ADA parking space. This special requirement necessitates the installation of a 6" x 12" barrier curb.

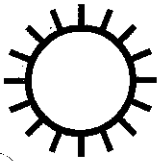

At this time, the Hoffman Estates Park District hereby requests approval from the NWSRA Board of Directors for the following expenditures to be paid from the park district's Special Recreation levy. The proposed improvements will provide direct benefits to the partnership that the park district has with NWSRA and the participants that are served through our joint agreement.

6 x 12 curbing (84 lin ft)	\$1,239.00
5 ft-wide sidewalk (1544 sq ft)	7,334.00
Tactile Plates (14)	1,386.00
Handicapped signs and posts (6)	510.00
Base Stone and Asphalt work for Van Drop-Off Spaces Adjacent to ADA Parking Spaces (6)	2,983.60
Handicapped Stall Painting (6)	450.00
TOTAL	13,902.60

Should you or the board have any questions regarding the above numbers, please feel free to contact me at 847-561-2172. In the meantime, the Hoffman Estates Park District appreciates your consideration of this request.

Sincerely,

Gary Buczkowski
Director of Planning and Development

RE: ADA Improvements Associated with High Point Park Parking Lot Improvements

Dear Ms. Julison:

High Point Park parking lot was identified in the park district's ADA audit and conformance plan adopted in January 2009 as one of the priority projects within the plan. With this in mind, the Hoffman Estates Park District is currently renovating the parking lot at High Point Park located on Glenlake. As part of those improvements, new ADA accessible spaces will be created according to the specified ADA guidelines. In addition, all walkways leading to the park from Glenlake with cross slopes greater than 2% were replaced with concrete. Also, a ramp from the existing parking lot leading to the playground was replaced so as to eliminate the existing 7.35% running slope.

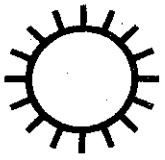

At this time, the Hoffman Estates Park District hereby requests approval from the NWSRA Board of Directors for the following expenditures to be paid from the park district's Special Recreation levy. The proposed improvements will provide direct benefits to the partnership that the park district has with NWSRA and the participants that are served through our joint agreement.

6" x 12" barrier curb around parking stall planters (92 lin ft)	\$1,472.00
5 ft-wide thickened curb sidewalk (296 lin ft)	8,080.00
Concrete flat work (850 sq ft) behind the handicapped Parking stall planters	5,100.00
Asphalt work for 2 van drop-off spaces adjacent to ADA Parking spaces	259.00
Handicapped painted spaces (2)	40.00
Handicapped signs with posts (2)	170.00
Tactile insert plates (13)	1,287.00
Total	16,408.00

The above numbers represent actual unit costs provided by the low bid contractor for this project. Should you or the board have any questions regarding the above numbers, please feel free to contact me at 847-561-2172. The 95Ti Treadmills the district is purchasing this year are the same models that were purchased for PSS&WC last year with the moneys received from the Special Recreation Levy. These updated models offer a smoother walking surface and larger display for greater ease of use. The treadmills purchased this year will be sent to CCIA replacing several of the older, out-dated and potentially unsafe treadmills that have been prone to frequent break down. The strength pieces the district is looking to obtain will be replacing many of the LifeFitness strength equipment which was originally purchased in 2000 for PSS&WC. The updated Signature Series from Lifefitness will be better able to meet the needs and/or physical requirements of this facility's users with varying disabilities. These machines utilize a diverging/converging arced motion that provides a more natural path that works with the body and puts less stress on joints. Many of the pieces in the Signature line have independent arms for iso-lateral training giving options for those with strength imbalances between right and left sides. The Signature Strength equipment also uses a turn-dial system for ease in adjustment as well as more gradual weight increases. The weight stacks in this series are easily accessible from a seated position which is helpful to those with movement difficulties. The Signature Series is a line of equipment from LifeFitness' selectorized strength group. Selectorized pieces, as opposed to the FreeMotion pieces that were purchased in recent years, are typically easier to learn to use and as a set, provide a balanced and structured program, which is helpful for beginners. There is generally more back support offered in the design of these pieces and each machine tends to work a single muscle/joint in a single plane of motion which makes it more likely that a given exercises will be performed correctly and safely.

The joint agreement that the Hoffman Estates Park District enjoys with NWSRA has allowed for groups from your organization to utilize our pools, the climbing wall and gyms. We would like to be able to expand upon the programming that is currently available and offer a chance for some of your program participants to learn new leisure skills (i.e., fitness/strength training activities), or perform at a higher level in their current sport. It is very common for individuals within the population served by NWSRA to become de-conditioned due to the lack ease in which facilities or equipment is made accessible. Being able to provide equipment that is user-friendly to those with varying types of disabilities is one way that we can provide additional opportunities for people participating in your organization to exercise in a safe, structured environment.

Jan Redding, a member at PSS&WC, was originally referred to our facility from Athletico Physical Therapy following a hip replacement. Jan's ability to exercise was also greatly effected by an injury to the knee and limited range of motion through the spine. Providing Jan with an exercise program she could perform on her own was challenging, but she has made great gains in her strength, mobility and balance. The Signature Strength series will provide Jan and others like her with similar limitations, a means of exercising with greater ease and efficiency and, subsequently, obtaining better results.

The Hoffman Estates Park District respectfully requests your approval of the purchase of the equipment described above.

If you have any questions, please feel free to contact me.

Sincerely,
Michael R. Kies
Director of Facilities
Hoffman Estates Park District

July 17, 2009

Ms. Susie K. Julison
Executive Director
Northwest Special Education Association
300 N. Central Road #205
Rolling Meadows, IL 60008

RE: Equipment for Mt. Prospect Park District Fitness Center Financed
Using Special Recreation Levy.

Dear Ms. Julison:

The Mt. Prospect Park District hereby requests approval from the Northwest Special Recreation Association Board of Directors for RecPlex Fitness Center fitness equipment.

The Mt. Prospect Park District's membership demographic includes many individuals with special needs, and an increasingly aging population. Over the last several years, this demographic has sought expanded wellness and fitness opportunities that this equipment will provide.

In July, Park District staff will solicit bids from qualified vendors for the following equipment:

Abdominal
Biceps Curl
Back Extension
Chest Press
Hip Abduction
Hip Adduction
Leg Extension
Pulldown
Pectoral Fly
Row/Rear Delt

Seated Leg Curl
Seated Leg Press
Shoulder Press
Triceps Press
Torso Rotation
Assist Dip Chin
Dual Adjustable Pulley
Crunch Bench
Leg Raise
Back Extension
Cross Trainer

Total Request not to exceed \$80,000.

This request is part of a renovation to the Center that is anticipated to be completed in 2009. With each new addition to the Fitness Center, staff carefully considers the benefits provided to those with special needs.

The current inventory of the fitness equipment at the Mt. Prospect Park District is aging and in need of replacement. The District offset its request by those items that it was able to trade in.

The Mt. Prospect Park District requests approval by the NWSRA Board to provide support for purchasing this equipment to better serve those individuals with special needs. The equipment will benefit NWSRA by providing and enhancing the facilities for their use. The requested equipment provides a safe way for members with disabilities to improve their fitness level, strength and balance thus improving their quality of life.

Some of the additional individual equipment features that can benefit our special needs users:

- The visually enhanced instructional placards are clearly marked, located in the most visible position, and provide simple instructions for correctly performing each exercise.
- A unique increment weight system, which is integrated into the weight stack, allows users to simply turn a dial for small, gradual increases in their resistance training program.
- Front shrouds and pulley covers make the equipment more approachable, less intimidating, and safe to all users. The shrouds cover the weight stack and protect the users fingers.
- Converging and diverging axes that correctly align with the user's joint movement, provide a natural, comfortable feel throughout the range of motion. Many of the Signature Series machines have the range of motion control to accommodate a range of users/capabilities.
- A low and consistent profile allows for easy entry and exit.
- The Cable Motion Dual Adjustable Pulley is wheel chair accessible and has low resistance cabling and small incremental increases.

Very truly yours,

MT. PROSPECT PARK DISTRICT

Re: Improvements Proposed to be Financed using Special Recreation Levy

Dear Ms. Julison:

The Bartlett Park District hereby requests approval from the NWSRA Board of Directors for the proposed expenditure of funds from the District's special recreation levy to pay for the cost of the following ADA improvements:

1. Leiseberg Park is a 12-acre park that was renovated in 2008. The project included the installation of new asphalt walking paths, play equipment, splash pad, drinking fountain, picnic shelter, and the renovation of the existing parking lot.

DESCRIPTION	COST	ADA PORTION	SUBMITTED
Drinking fountain	\$2,660.00	25%	\$665.00
Playground surfacing	\$7,128.50	50%	\$3,564.25
Playground ramp	\$3,050.00	100%	\$3,050.00
Sand play table	\$3,365.00	100%	\$3,365.00
Spray park equipment and installation	\$87,785.00	25%	\$21,946.25
Concrete paving – shelter and water park	\$46,189.10	25%	\$11,547.28
Asphalt paving – path	\$26,779.50	50%	\$13,389.75
Parking lot renovation	\$128,339.60	10%	\$12,833.96
ADA picnic tables	\$1,293.16	100%	\$1,293.16
Total ADA Compliance			\$71,654.65

2. Added 665 cubic yards of engineered wood fiber safety surface to 13 playground areas.
 - a. \$14,662.50 (total engineered wood fiber installation cost) x 0.5 (one half of safety surface installation cost) = \$7,331.25 (accessible portion of safety surface)
 - b. **ADA Portion: \$7,331.25**
3. 15-Passenger Bus with Accessible Lift – the cost for the bus is **\$44,521.00**

Total costs for park improvements and for the bus equals **\$123,506.90**.

The Bartlett Park District respectfully requests that you review this proposal and present it with your approving recommendation to the NWSRA Board of Directors. If you have any questions or require additional information please contact me.

Sincerely,

Rita Fletcher

Re: Prospect Meadows Park Improvements Proposed To Be Financed Using
Special Recreation Levy

Dear Ms. Julison:

The Mt. Prospect Park District hereby notifies and requests approval of the NWSRA Board of Director for the proposed expenditure of funds from the District's special recreation levy, to pay the cost of the following improvements at Prospect Meadows Park.

See Attachment 'A'.

Note: Where the cost of accessible paths are used to calculate their worth, only three feet (3') of width is calculated, regardless of the actual path width.

The total estimated cost of the improvements including consultants is \$185,989.00. Of that total, \$78,674.00 is estimated to be the cost for accessible improvements. These improvements are scheduled to be completed by October 2009. The benefits of this project to NWSRA are as follows:

- Provides accessible paths from the proposed parking, basketball courts and T-Ball fields to the new play area.
- Provides accessible paths within the new playground.
- Provides accessible play to 67% of the older kids play structure, 100% of the younger kids play structure and 100% of all independent play equipment.
- Provides accessible paths from the adjacent residential neighborhood.

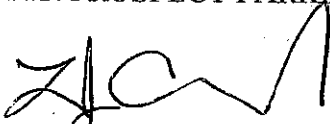

Included in this request are the proportionate costs for professional consulting services. The benefits to NWSRA are as follows:

- Provides for preparation of contract drawings, details and specifications to establish ADA compliant horizontal and vertical control for all pedestrian paths and ADA compliant layout of play equipment (i.e. safety zones).
- Provides for construction field staking to transfer horizontal and vertical controls indicated on drawings and details to the site.
- Provides for construction observation to ensure final construction is compliant with ADA requirements as shown on the drawings, details and specifications.

The Mt. Prospect Park District respectfully requests that you review this proposal and present it with your approving recommendation to the NWSRA Board of Directors. If you have any questions or require additional information, please do not hesitate to contact me at (847) 255-5380.

Very truly yours,

Re: Malibu Park Improvements Proposed to be Financed Using Special Recreation Levy

Dear Ms. Julison:

The Wheeling Park District hereby notifies and requests approval of the NWSRA Board of Directors for the expenditure of funds from the District's special recreation levy to pay the cost of the following improvements at Malibu Park:

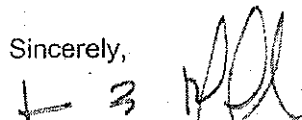

- Replacement of outdated play equipment with a new play structure and installation of new accessible playground safety surface.
- Installation of a new accessible drinking fountain
- New walkways to provide accessibility to the play equipment
- Installation of accessible benches
- Replacement of an inaccessible concrete walk (grade too steep) entry into the park.

Park District staff has determined that the ADA portion of these improvements should be 64% of playground cost (\$90,240), 50% of the ADA accessible drinking fountain (\$4,300), 50% of the new concrete walkways (\$2,200) and, 50% of permitting and A/E fees (\$5,220). The total cost for the improvements was \$232,500. Of that total, \$101,960.00 was determined to be the cost for the accessible portion of the park. These improvements were completed in May, 2008. The benefits of this project to NWSRA are as follows:

- Provides a play structure that exceeds ADA guidelines for accessibility
- Provides an accessible playground surface to the play elements
- Provides accessibility throughout the park
- Provides accessible site amenities

The Wheeling Park District respectfully asks that you review this request and present it with your approving recommendation to the NWSRA Board of Directors. If you have any questions or require additional information, please do not hesitate to contact me at (847) 465-7772.

Sincerely,

Buffalo Grove Park District

February 26, 2009

Ms. Susie Julison
Executive Director
Northwest Special Recreation Association
3000 W. Central Road #205
Rolling Meadows, IL 60008

Dear Ms. Julison:

The Buffalo Grove Park District hereby requests approval of the NWSRA Board of Directors for the proposed expenditure of funds from the District's Special Recreation Levy to pay for two pieces of fitness equipment at the Buffalo Grove Fitness Center.

(1) Freemotion Dual Cable Cross

The Dual Cable Cross Machine from Freemotion Fitness is one of the most universal and diverse pieces of fitness equipment on the market. The versatility provides strength training options for individuals from the most elite athletes to the deconditioned or physically challenged. The arms move independently of each other allowing for the increased diversity. Each arm moves almost 180 degrees vertically and 90 degrees horizontally. The independent weight stacks allow each arm to have different amounts of resistance to accommodate 2 different people at one time or assist individuals with strength imbalances from one side to another.

The one Dual Cable Cross Machine currently at the Buffalo Grove Fitness Center has been widely used and utilized by both members and Personal Training staff.

(2) NuStep Recumbent Cross Trainer

The NuStep is an adaptable piece of equipment from able bodied individuals to others with more complex physical limitations. The machine has a larger seat to ensure stability of the user. The seat also swivels 90 degrees to the left or right allowing for ease of access when transferring from a standing position or from a wheelchair. There are several adjustments to accommodate individuals from 5 ft tall to well over 6 ft tall in addition to multiple resistance settings for all fitness levels. The machine also features upper body and lower body movement. This is a great option for individuals who have suffered from a stroke or other forms of paralysis since it allows both stability and an opportunity to move all 4 limbs.

Currently, Buffalo Grove Fitness Center has 2 NuStep machines. They are widely used from members of all ages and fitness levels and at times even have people waiting. The addition of a third NuStep would be appreciated by the members and add another machine for those members with physical limitations or disabilities.

The total cost for the two pieces of fitness equipment with delivery is \$9,162.

Buffalo Grove Park District respectfully requests that you review this proposal and present it with your recommendation to the NWSRA Board of Directors.

If you have any questions or require additional information, please do not hesitate to contact me at 847-850-2110. We appreciate our time and consideration.

Sincerely,

Michael Rylko
Executive Director

dual CABLE CROSS

specifications	GZFM6024	
effective resistance of both weight stacks: 1 arm - 75 lbs. (34 kg) configuration: 2.5 - 75 x 2.5 lbs. (1.125 - 34 x 1.125 kg)	US / METRIC L - 70" / 178 cm W - 132" / 330 cm H - 95" / 241 cm 1150 lbs. / 522 kg cable diameter: 3/16-inch rated to 2,000 lbs.	

Swivel pulley - Pulley design ensures fluid cable travel and provides nearly unlimited range of motion.

Independently rotating arms - Each arm rotates vertically and horizontally with 12 vertical and 9 horizontal settings to accommodate virtually any movement pattern. Arms are counterbalanced for easy positioning.

Independently moving handles - Handles can move independently for virtually unlimited exercises.

ADA Compliant - Compliant with Americans with Disabilities Act for wheelchair accessibility.

Extensive cable travel - Extensive cable travel allows for full exercise extension or flexion, single arm - 92 inches (234 cm), two arms - 92 inches (234 cm).

Enclosed weight stacks - Enclosed weight stacks limit access to moving parts for user safety. Dual independent stacks allow two members to work out simultaneously.

Industrial construction - Equipment is built with 14- and 7-gauge steel and is electrostatically powder coated.

Stainless steel kick plates - 16-gauge stainless steel kick plates protect the machine from wear and tear.

The NuStep T4 has been the most popular recumbent cross trainer in the healthcare and fitness industries, and it has become the leading product of its kind for home users. Its patented design combines a comfortable seated position with a smooth stepping motion. It provides simultaneous upper and lower body motion to work all the major muscle groups, helping all users to burn calories, build strength, and improve their overall cardiovascular fitness.

The T4 simulates a natural walking motion while eliminating undesirable joint stress and promoting functional fitness. Its ergonomic design accommodates nearly every body type and size, and it includes a swivel seat for easy transfer. The T4 also features a large, easy-to-read display. The display is battery powered to optimize your flexibility to place the product anywhere within your home or commercial environment, without concern for power cords or outlets.

Clinicians around the world have demonstrated that the T4 is the preferred piece of rehabilitation equipment to ensure safe and effective treatment of individuals within a wide range of ability levels. By enabling independent control of step length, resistance level, pace, and exercise duration, the T4 provides treatment flexibility for therapists and a greater feeling of control and independence for users.

The T4 is quiet during operation and is virtually maintenance free.

Re: Purchase of ASTM F1292/ASTM F1951 Compliant Playground Surfacing in 2009

Dear Ms. Julison:

The Mt. Prospect Park District hereby notifies and requests approval of the NWSRA Board of Directors for the proposed expenditure of funds from the District's special recreation levy, to pay the cost of the following improvements:

Purchase and placement of the referenced playground surfacing Park District-wide at a cumulative cost not to exceed \$12,000 for the year 2009. The surfacing will be used to refresh various existing playgrounds and access routes, thus insuring continued compliance with ADA requirements. The Mt. Prospect Park District will supply NWSRA with year-end documentation of the total amount spent and the location of the facilities.

The Mt. Prospect Park District respectfully requests that you review this proposal and present it with your approving recommendation to the NWSRA Board of Directors. If you have any questions or require additional information, please do not hesitate to contact me at (847) 255-5380.

Rolling Meadows, IL 60008

Re: Improvements Proposed to be Financed Using Special Recreation Levy

Dear Ms. Julison,

We request approval from the NWSRA Board of Directors for the proposed expenditure of funds from the River Trails Park District's Special Recreation Levy to pay for the cost of the following ADA improvements:

Woodland Trails Park Asphalt repairs and sealcoating of all parking lots and accessible paths:

Out of the total bill of \$29,997.80, we are requesting \$3438.11.

- 9 painted handicapped parking stalls @ \$175 each = **\$1575.00**
- 10% of the costs of sealcoating and repairs to the paths
 - Parking lots = 120,476 square feet
 - Accessible bike/walking paths = 78,967 square feet
 - $78,967 / 120,476 = 65.55\%$
 - $(\$29,997.80 - \$1575.00) \times 65.55\% \times 10\% =$ **\$1863.11**

\$3438.11

We respectfully request that you review this proposal and present it for recommendation to the NWSRA Board of Directors.

Thank you very much for your consideration.

Sincerely,

A handwritten signature in cursive script that reads "Debbie".

Debbie Carlson Kudla
Director, River Trails Park District
