

*"We exist to provide outstanding opportunities through recreation for children and adults with disabilities."*

## The Inclusion Process

Family registers for park district program and notes "a reasonable modification may be needed" in the designated space.

The park district gathers necessary information from parents using the Initial Participant Intake form.

The park district sends the completed Request for Inclusion Assistance form to the Inclusion Coordinator at NWSRA.

An NWSRA staff conducts an observation of the program and will gather further information from parents, caregivers or teachers (as necessary).

## Observation Outcomes

### **No Additional Support**

The resident's needs do not affect his/her ability to successfully participate in the program. Should the resident have medical care needs, NWSRA will assist the park district in providing guidance for park district staff.

### **Enhanced Park District Training & Support**

An NWSRA Inclusion Coordinator will train the park district staff to meet the needs of the resident to successfully participate in the program.

### **Inclusion Aide Support**

An NWSRA Inclusion Coordinator will train and secure a staff to assist with the program. Residents will be supported in order to perform at their highest level of ability in the least restrictive environment.

\*This is a general guideline for the inclusion process. Every inclusion situation and setting will look different. The support level of each resident will be looked at on a case by case basis and may differ from program to program. Should you have questions at any point in the process please contact your Inclusion Coordinator.
