Vision Difficulty

3,901

Independent Living Difficulty

2,909

Hearing Difficulty

4,500

Cognitive Difficulty

5,072

Ambulatory Difficulty

Keep in Mind

The questions introduced in 2008 pertaining to disabilities remain the same questions found in the current ACS questionnaires. They cover six disability types:

- Hearing difficulty deaf or having serious difficulty hearing
- Vision difficulty blind or having serious difficulty seeing, even when wearing glasses
- Cognitive difficulty Because of a physical, mental, or emotional problem, having difficulty remembering, concentrating, or making decisions
- Ambulatory difficulty Having serious difficulty walking or climbing stairs
- Self-care difficulty Having difficulty bathing or dressing
- Independent living difficulty Because of a physical, mental, or emotional problem, having difficulty doing errands alone such as visiting a doctor's office or shopping

Respondents who report anyone of the six disability types are considered to have a disability in the eyes of ACS data

Total vs. Disability Population by Sex

Total Population: 131,142

64,425
Male

66,717
Female

Disability Population: 10,625

4,832
Male

5,813
Female

Keep in Mind

The American Community Survey includes a question that intends to capture current sex; there are no questions about gender, sexual orientation, or sex at birth. Respondents should respond either "male" or "female" based on how they currently identify their sex.
