NWSRA  
3000 Central Road – Suite 205  
Rolling Meadows, IL 60008

Re: Improvements Proposed to be Financed Using Special Recreation Levy

Dear Ms. Crawford,

We request approval from the NWSRA Board of Directors for the proposed expenditure of funds from the River Trails Park District's Special Recreation Levy to pay for the cost of the following ADA improvement:

**Installation of an Accessible Emergency Exit Door, 100 square foot concrete area immediately outside the new door, and reconfiguring the existing office to accommodate the emergency door. The total cost is \$16,728.**

The benefit to NWSRA is as follows:

NWSRA's Young Adults Movin' On (YAMO) will now be situated in our building at 550 Business Center Drive in Mt. Prospect. The classrooms being used for this program do not presently have an easily reached emergency exit. Due to the physical challenges of some YAMO participants, a quickly accessed and easily accessible exit is necessary if an emergency arises.

We respectfully request that you review this proposal and present it for recommendation to the NWSRA Board of Directors.

Thank you very much for your consideration,

Sincerely,

Debbie Carlson Kudla  
Director, River Trails Park District

Re: Americans With Disabilities Act Project Reimbursements

Dear Ms. Crawford:

The Buffalo Grove Park District hereby requests approval from the NWSRA Board of Directors for the following expenditures to be paid from the Park District's Special Recreation Levy. The proposed improvements will provide direct benefits to the partnership that the Park District has with NWSRA and the participants that are served through our Joint Agreement.

Alcott Tot Playground - A new tot playground was installed adjacent to the larger playground at the Alcott Center. The playground features activity stations easily accessible by individuals with disabilities. In addition, we have standardized the installation of "pour in play" rubber surfacing at all playgrounds to insure access to playground components. This project was completed in June 2011.

Description	Project Cost	% to ADA	Reimbursement
Pour n Play Surface	\$19,565	100%	\$19,565
Equipment	\$33,940	25%	\$8,485
		Total	\$28,050

Westchester Park - This project consisted of the replacement of an existing playground with accessible equipment and necessary ramps and transitions to make various levels of the playground accessible. This project was completed in July 2011.

Description	Project Cost	% to ADA	Reimbursement
Pour n Play Surface	\$47,492	100%	\$47,492
Equipment	\$43,951	25%	10,988
		Total	\$58,480

\* Amended @ 5/23/12  
 Bal Mtg. to 100% as ADA accessible

Mini Bus with Accessible Lift – This was the purchase of a 14 passenger bus with wheelchair lift. We currently use this bus for preschool and senior program support but expect to use it in the summer to support our day camp ADA transportation needs. The purchase was completed in January 2012.

Description	Purchase Cost	% to ADA	Reimbursement
Bus Purchase	\$53,351	33%	\$17,606
Total			\$17,606

Fitness Equipment – The purpose of equipment designed specifically for use by individuals with disabilities or for individuals severely “de-conditioned.”

Description	Project Cost	% to ADA	Reimbursement
NuStep T5XR	\$7,108	100%	\$7,108
SciFit Pro 2	\$3,418	100%	\$3,418
Total			\$10,526

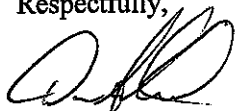

Willow Stream Pool Improvements – You may recall that last year we sought reimbursement for the renovation of the bathhouse at Willow Stream. At the time, the other improvements to the pool deck, filtration system and handicapped accessible ramp had not been completed. As a result, we of course held off on requesting reimbursement. By June 2011, new decks, a ramp, and new mechanical equipment installed to address ADA needs highlighted in our ADA Audit and listed in our transition plan.

Deck improvements were needed for a variety of reasons. Though the decks had certainly many years of wear, the primary reason for replacing the decks was to address pitch and slope issues itemized in our ADA Audit completed by the National Center on Accessibility in 2008. In addition, we installed a ramp into our pool to allow for access. Finally, the new filters, pumps and chemical feeders were “sized” to address the increased filtration and sanitation needs of the ramp. Finally, a handicapped accessible fountain is included in the reimbursement request.

Description	Project Cost	% to ADA	Reimbursement
Ramp Costs	\$180,000	100%	\$180,000
Filtration/Pumps	\$200,000	20%	\$40,000
Handicapped Fountain	\$4,738	100%	\$4,738
			\$224,738

At this time we request approval by the NWSRA Board of Directors for the proposed expenditure of funds from the District’s Special Recreation Levy to pay for the above improvements. The total amount requested for reimbursements is ~~\$339,400~~. Thank you for your consideration.

Respectfully,

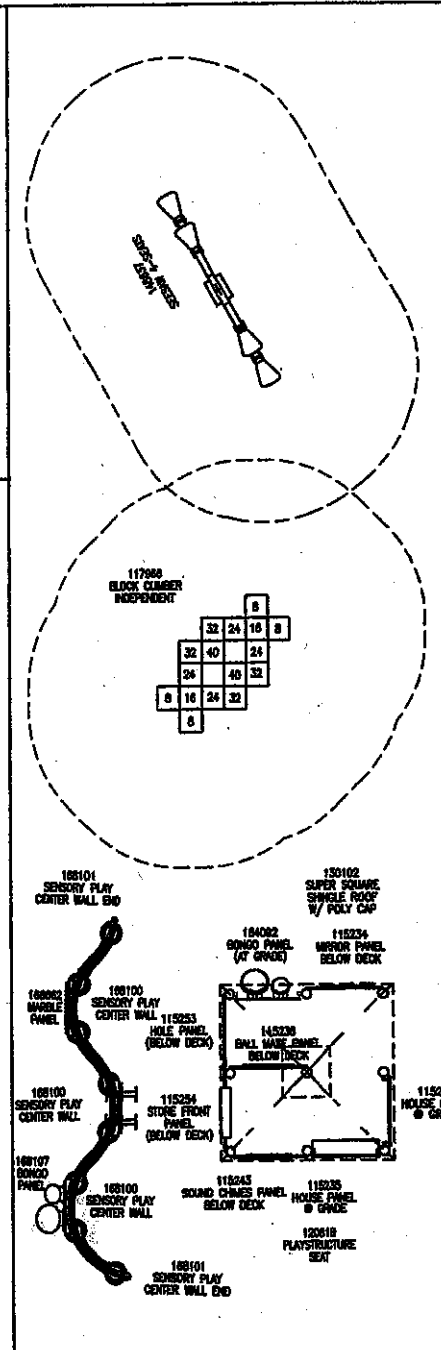

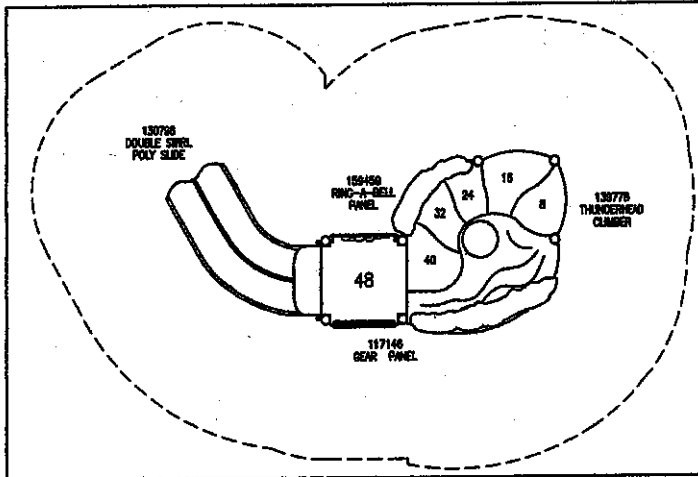

Dan Schimmel  
 Executive Director

[Product Overview](#)[Value Story](#)[Key Features](#)[T5XR Adaptive Accessories](#)[Product Details](#)[Spec Sheets](#)[NuStep Model Comparison](#)[Testimonials](#)[Supportive Research](#)[Video Gallery](#)**You Designed It. We Built It.**

After a four-year collaborative effort that drew on the expertise of exercise physiologists, ergonomic specialists and especially our customers, NuStep, Inc. is proud to introduce the T5XR Recumbent Cross Trainer.

The all new T5XR represents the full power of NuStep innovation with an extended range of features, adjustments, and versatility, all designed to offer the benefits of life transforming exercise to more users.

Whatever your level of function, from deconditioned or disabled users to workout warriors and elite athletes, the T5XR offers safe, effective, and adaptive exercise. No other exercise machine is as accessible, supportive, and versatile.

**You Asked. We Listened.**

The NuStep T5XR includes more than 40 new features and design improvements, all developed through extensive field research and testing. We have included many of the top requested features from our customers:

- Low step-through design
- Smoother stepping motion
- Larger ergonomic seat
- 360° seat swivel
- 18" of arm and seat adjustment for users 4'6" (137 cm) to 6'7" (200 cm)
- 15 workload levels
- Resistance range of 5 to 1400 watts
- Color display console with vivid resolution
- Push button workload control
- Seat position and workload shown on the display
- Comprehensive workout data
- 13 workout programs
- Workout data tracking and export via USB
- Built-in heart rate monitoring

- Rotating hand grips
- Flex foot system for dorsi/plantar flexion
- Reclining seat
- 600 lb. (272 kg) weight capacity
- Option to add an oversized seat
- Target heart rate control program
- Constant speed (isokinetic) program
- Constant power program
- Two exercise testing protocol programs

Many more new features!

Subject Re: Willow Stream Estimates

Bob,  
Below are the initial costs from Steve. I broke them further below:

Bathroom ADA costs - \$200 / s.f.  
Changing rooms - 270 s.f. x \$200 = \$54,000  
Remaining space - 2,330 s.f., x \$200 x 50% = \$233,000

Ramp Costs - \$180,000  
20% of filtration, deck, etc. = \$200,000 x 20% = \$40,000

Total Costs Related to ADA = \$507,000 or about \$500,000

Let me know if you need additional information.

Go Bears - see attached.

Re: Improvements proposed to be financed using special recreation levy

Dear Ms. Crawford:

The Hanover Park Park District hereby notifies and requests approval of the NWSRA Board of Directors for the proposed expenditure of funds from the District's special recreation levy, to pay the cost of the following improvement(s).

Purchase of two (2) Ford 2008 E-350 Buses from United Bus Company, Inc., compliant with the Americans with Disabilities Act for wheelchair accessibility as identified below.

The total cost of both buses is \$72,826.00. Due to ADA compliance, the buses have ADA accommodations for 1/7 of the passengers which amount to \$10,404. Both buses have already been purchased. Anticipated benefits of the purchase to NWSRA are as follows:

The purchase of these accessible vehicles will allow our patrons with disabilities access to district facilities and to participate in district programs.

The District respectfully requests that you review this request and present it with your approving recommendation to the NWSRA Board of Directors. If you have any questions or require additional information, please do not hesitate to contact me.

Very truly yours,

Bob O'Brien

Dear Ms. Crawford:

The Hanover Park Park District hereby notifies and requests approval of the NWSRA Board of Directors for the proposed expenditure of funds from the District's special recreation levy, to pay the cost of the following improvement(s).

Purchase of fitness equipment from Professional Fitness Concepts, Inc. and Technogym, Inc., compliant with the Americans with Disabilities Act for wheelchair accessibility as identified below.

The estimated cost of the improvements is \$18,489.08. I have attached an equipment list for your review. The improvement is expected to be substantially complete by June 15, 2012. Anticipated benefits of the project to NWSRA are as follows:

The addition of this equipment will provide accessible equipment for utilization of NWSRA programs.

The District respectfully requests that you review this request and present it with your approving recommendation to the NWSRA Board of Directors. If you have any questions or require additional information, please do not hesitate to contact me.

Re: Improvements Proposed to be Financed Using Special Recreation Levy

Dear Ms. Crawford,

We request approval from the NWSRA Board of Directors for the proposed expenditure of funds from the River Trails Park District's Special Recreation Levy to pay for the cost of the following ADA improvement:

**Purchase of a set of portable accessible stairs for our outdoor pool, giving us a second and different ADA main pool access, as mandated by the 2012 deadline. – \$4127.00**

The benefit of this project to NWSRA is:

- In addition to our hydraulic chair lift in our main pool and zero depth entry in our wading pool, River Trails Park District will now be able to offer a second method of entry in the main pool, for a total of three entry options

We respectfully request that you review this proposal and present it for recommendation to the NWSRA Board of Directors.

Thank you very much for your consideration.

Sincerely,

Re: Improvements Proposed to be Financed Using the Special Recreation Levy.

Dear Tracey,

The Rolling Meadows Park District hereby notifies and requests approval of the NWSRA Board of Directors for the proposed expenditure of funds from the Districts Special Recreation levy to pay for the cost of the following improvements to facilities and purchase of equipment:

**1. Fitness Center**

As noted in the ADA audit of 2009 not only did the layout of the Nelson Sports Complex Fitness Center need to be changed but most of the equipment available to the public was not accessible. A list of the equipment and a room layout is attached for your review. Cost of accessible fitness center equipment, \$19,960 we are attributing 50% to the cost of ADA compliance \$9,980.

**2. Nelson Sports Complex General ADA Improvements**

The installation of automatic sliding doors to the main entrance of Nelson Sports Complex. Cost for the Automatic Doors was \$22,608. We attribute 50% of this project to accessibility, \$11,304. We are requesting 100% use of the fund for sidewalk elevation and detectable ramp improvements, \$7,500 (at the main entrance) as well as the purchase of ADA picnic tables \$4,850. for the facility and park.

**3. Bus Purchase**

Purchase of a 39 Passenger Handicap Accessible passenger bus. The purchase of this bus will greatly enhance the District opportunities to provide program transportation for individuals with varying abilities. Total cost of the bus is \$119,673.

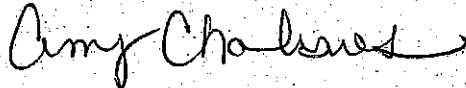

#### 4. Community Center Parking Lot Improvements – Phase A

As identified in the 2009 ADA Audit, the Community Center parking lot was non-compliant. Total cost of parking lot excavation and replacement was \$193,200; \$64,400 (1/3 of this project is attributed to creating accessibility to the Pre School entrance, Senior Center entrance, Community Center playground and Senior Park area. Detectable ramp and slope issues were corrected as well as improvements to handicapped parking spaces. A copy of the ADA Improvements achieved is attached for your review.

**All of these projects directly meet the strategic goal of providing accessibility to residents of all ages and abilities.**

The Rolling Meadows Park District respectfully requests that you review this request and present it with your approving recommendation to the NWSRA Board of Directors.

Sincerely,

Amy Charlesworth  
Executive Director

<b>ADA Project</b>	<b>Total Cost</b>	<b>Percentage</b>	<b>ADA Cost</b>

## PRODUCT BULLETIN

Date: 9 – April - 2012

To: **OUR VALUED CUSTOMERS**

From: Doug Durnford, Senior Product Manager

Re: **Precor IFI (Inclusive Fitness Initiative) Equipment qualifies for tax credits in the United States under the Americans with Disabilities Act (ADA)**

According to ADA guidelines, a credit against tax for expenditures to provide access to disabled individuals may be available for qualified customers.

The eligible access expenditures may include amounts paid for acquisition of equipment or devices that is reasonable and necessary to provide access to disabled individuals. Since Inclusive Fitness Initiative (IFI) standards are designed specifically to provide access and use to individuals with disabilities, and certain Precor equipment complies with IFI standards, it follows that amounts paid for Precor IFI certified equipment may qualify for tax credit.

According to ADA guidelines, to be eligible, the customer must be an eligible small business with 30 or less full-time employees, and gross receipts of less than \$1M for the taxable year.

For more detailed information, refer to <http://www.ada.gov/taxincent.htm>, and if eligible, you may use Tax Form 8826 to claim your ADA Tax Credit ( <http://www.irs.gov/pub/irs-pdf/f8826.pdf> ).

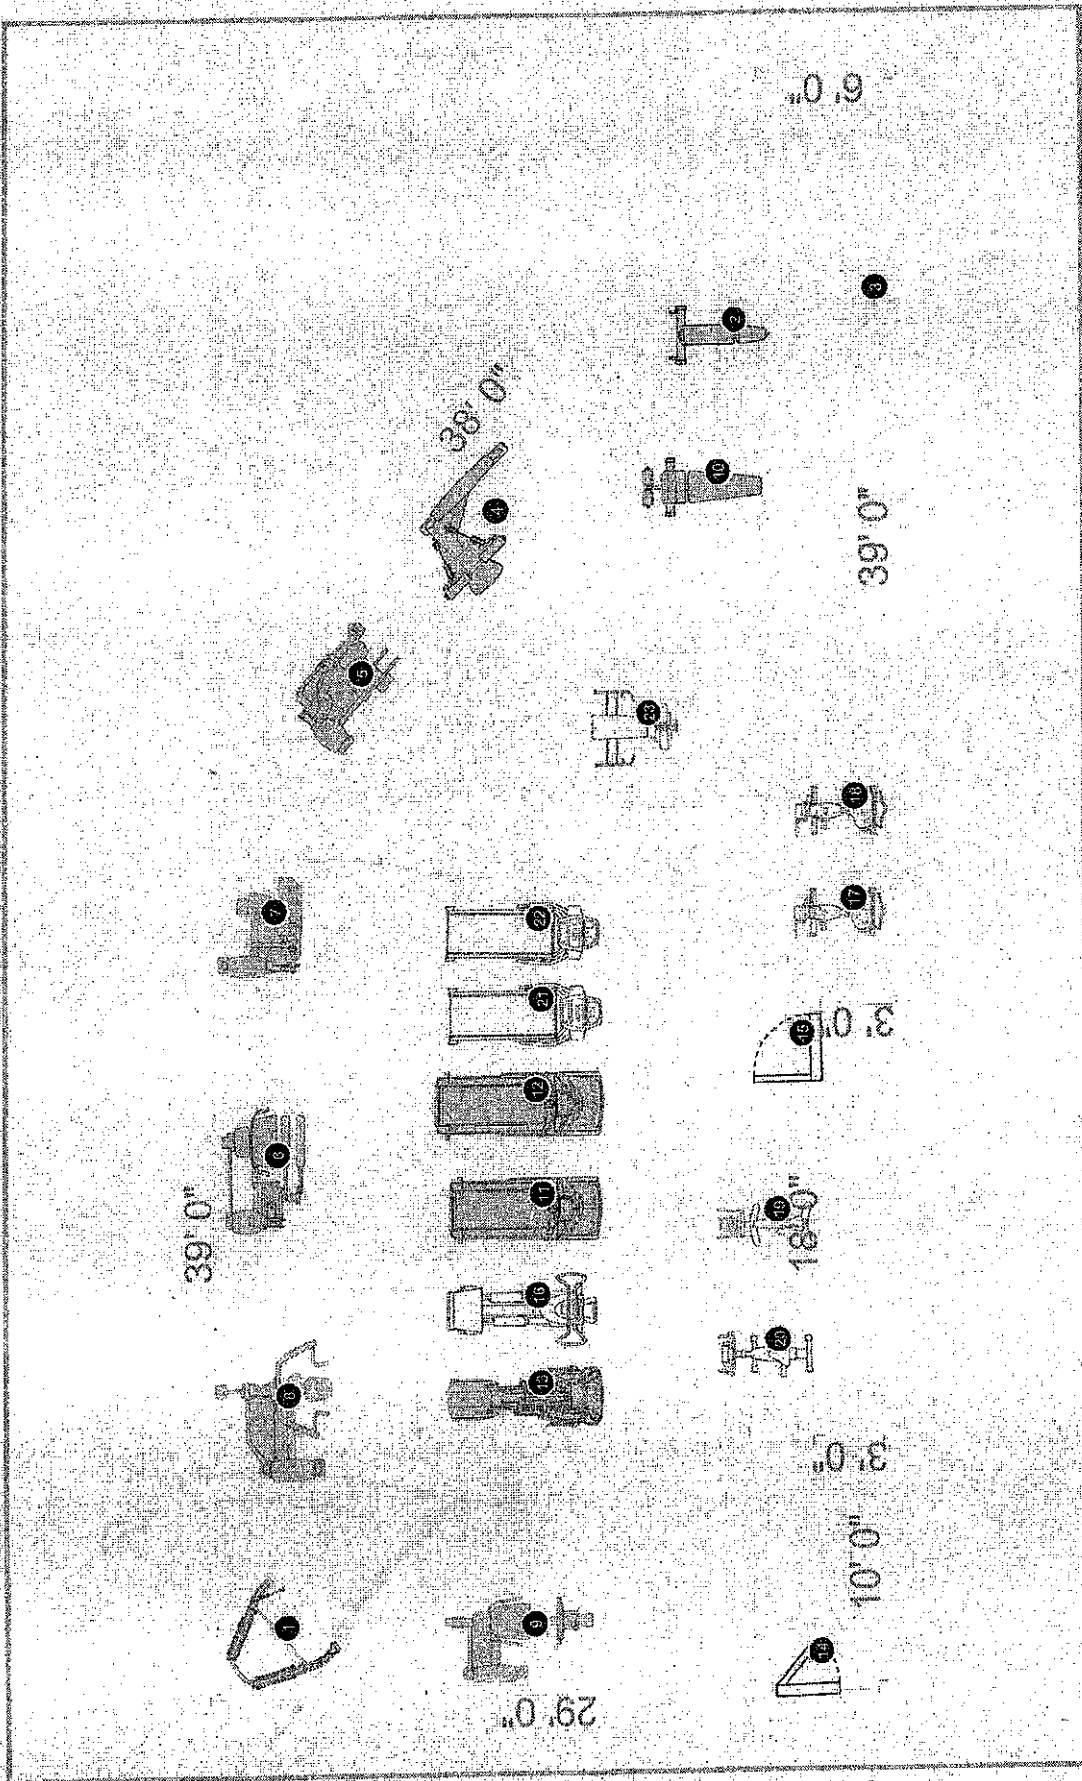

*Precor does not give tax advice and Precor cannot and does not guarantee that the purchase of Precor IFI equipment will entitle the customer to the tax credit under IRS Code Section 44. The customer should consult a tax professional for advice regarding the ADA tax credit and eligibility.*

Thank you for considering Precor for your fitness equipment needs.

---

Precor IFI accredited equipment that may qualify under IRS Code Section 44 are as follows:

Recumbent Bike	RBK 835 IFI
Upright Bike	UBK 835 IFI
Treadmill	TRM 833 IFI
C-Line Leg Extension	C605EC IFI
C-Line Seated Leg Curl	C619EC IFI
S-Line Leg Extension	C005ES IFI
S-Line Seated Leg Curl	C007ES
Icarian FTS Glide	FTS Glide IFI

#2 AOA Nelson  
Sports Complex.

## Background

RAC staff conducted an access audit at the Nelson Sports Complex. Our findings are below.

- 1.1 **Parking** – [CHECKLIST] spaces share access aisle NSC260, NSC261; sign mounted too low at 46" NSC263, NSC264;

### **Recommendations:**

- 1.1.1 **Create two** 8' wide accessible parking stalls, with one 8' wide access aisle adjacent to each stall, with proper signage and striping, in recommended location (NSC260, NSC261)
- 1.1.2 **Raise** existing accessible parking signs so that lowest end of sign is not lower than 60" aff (NSC263, NSC264)

- 1.2 **Exterior Accessible Route (AR)** – [CHECKLIST-EXTERIOR] [CHECKLIST-RAMPS]

Exterior AR: no signage; gaps greater than .5" NSC265, NSC266, NSC276, NSC277; cross slope too great NSC278, NSC279; ramp side flares too great at 17% NSC268, NSC269 and 18% NSC281, NSC282; running slope of curb ramp too great NSC284, NSC285; no detectable warnings NSC267, NSC271, NSC280, NSC283; no access aisle in passenger loading zone NSC270, NSC271;

Ramps: too steep at 9.1% NSC286, NSC286a; top landing not level at 5.1% NSC288, NSC288a; bottom landing not level at 2.4% NSC287, NSC287a; handrails do not extend 12" beyond the top and bottom of the ramp onto landing surface NSC287;

### **Recommendations:**

- 1.2.1 **Acquire and install** compliant directional signage along the AR from parking to the accessible entrance (checklist)
- 1.2.2 **Correct or fill** gaps along AR (NSC265, NSC266, NSC276, NSC277)
- 1.2.3 **Correct or repair** cross slope along AR so that it does not exceed 2% (NSC278, NSC279)
- 1.2.4 **Create a compliant** curb ramp to be of a compliant slope not greater than 8.33%, a cross slope not greater than 2.08%, having a top landing as wide as the ramp and 36" deep and side flares with a slope not greater than 10% (NSC268, NSC269, NSC281, NSC282, NSC284, NSC285)
- 1.2.5 **Install compliant detectable warnings** at curb ramps and all transitions from walkways to vehicular ways (NSC267, NSC271, NSC280, NSC283)
- 1.2.6 **Create and mark** compliant passenger loading zone access aisle 60" wide, at the same level as the vehicle pull-up area and not overlapping vehicular way (NSC270, NSC271)
- 1.2.7 **Correct or repair** ramp slope to not more than 8.33% (NSC286, NSC286a)
- 1.2.8 **Correct or repair** slope at top and bottom landings to be level (NSC288, NSC288a, NSC287, NSC287a)
- 1.2.9 **Replace or extend** handrail extensions on ramp (NSC287)

ROLLING MEADOWS  
PARK DISTRICT

## Memo

**From:** Amy Charlesworth  
**To:** Tracey Crawford  
**Date:** April 10, 2012  
**Re:** Purchase of ADA Bus

---

The Rolling Meadows Park District purchased an ADA Accessible bus in fiscal year 2011-2012 and requests 100% of the cost be taken from the Handicapped Fund of the District. The primary reason for the purchase of the bus was to insure the District has accessible transportation for any resident or non-resident that may need an accommodation on one of our trips or for our programs that require transportation.

As specifications were prepared for the purchase, staff took in to consideration data relating to our programs, past and current participants as well as looking to the future of our programs. Our current senior center membership is 600 and growing (many of these participants have ambulatory issues). The Teen Camp of the District as well as the days off school trips has had an ongoing requested accommodation since 2009.

The base bid ADA featured: (specific components were named to establish a high level of quality).

- Braun Millennium rear lift with side click securement system
- High idle lift interlock (*adjusts for heavier participant*)
- Three chair position with three double flip seats
- Storage pouches for wheelchair restraints

Options to enhance ADA compliance

- Additional leg room from standard of 6" inches to 11"
- Aisle side seat back rest assist rails
- Aisle side flip arm rests
- Retractable Seat Belts
- ADA lighting on lift and door
- Hand rail right side (adding one to the left as well per user comments)

**Invitation to Bid**  
**Rolling Meadows Park District**

Sealed bids for one **2011 38+3 Passenger Bus with rear wheelchair lift and 3 chair positions with 3 double flip seats** and one **2011 26+2 Passenger Bus with rear wheelchair lift and 2 chair positions with 2 double flip seats** will be accepted at the Rolling Meadows Park District Administration Building, 3000 Central Road, Rolling Meadows, Illinois 60008, until **10:00 AM on Monday, June 27, 2011**, at which time bids will be opened publicly and read. The contract may be considered for award at the Park Board Meeting on **June 28, 2011** at 7:30 p.m. at the Administration Office, 3000 Central Road, Rolling Meadows, Illinois 60008.

Each Proposal shall be made on the form furnished by the Park. Proposals are to be enclosed in a sealed envelope addressed to: Rolling Meadows Park District, 3000 Central Road, Rolling Meadows, Illinois 60008, ATTENTION: Brian McKenna and marked on the outside **"Passenger Bus Bids"**.

The Specifications, Proposal and Contract Documents may be obtained at the Park District Administration office, 3000 Central, Rolling Meadows, IL 60008 on weekdays from 9:00 a.m. until 4:00 p.m.

Contractor shall not pay less than the prevailing rates of wages to all laborers, workman, and mechanics performing work under this contract, and shall comply with the requirements of the Illinois Wages of Employees on Public Works Act (820 ILCS 130/0.01 et seq.1-12 Sec. 4(a), NEW: Sec. 4(a-2) effective January 1, 2010).

The Park District reserves the right to reject any or all proposals and to waive technicalities and irregularities.

**SPECIFICATION FOR:**

**2011 Glaval 34' Concorde II (WB260") (GVWR-26,000)  
26 Passengers/2 Wheelchair Positions/2 Double Passenger Flip-Seats  
2011 Ford F650 Chassis 6/7L Cummins ISB Diesel Engine**

---

**Scope**

It is the intention of this specification to describe a vehicle of substantial and durable construction in all respects.

**General**

This specification is written around specific needs of this agency. With the intent to standardize certain components, we have named specific brands of components. This has been done to establish a certain standard of quality. Other brands will be considered providing the vendor provides documentation clearly describing any variations to the bid specifications. Such request must meet or exceed the specifications called for in this bid document. The determination of Rolling Meadows Park District regarding any such request as far as accepting or denying said request, will be final.

**Materials**

All materials used in conversion of the bus shall conform in all respects to American Society of Testing Materials, Society of Automotive Engineers or similar association standards.

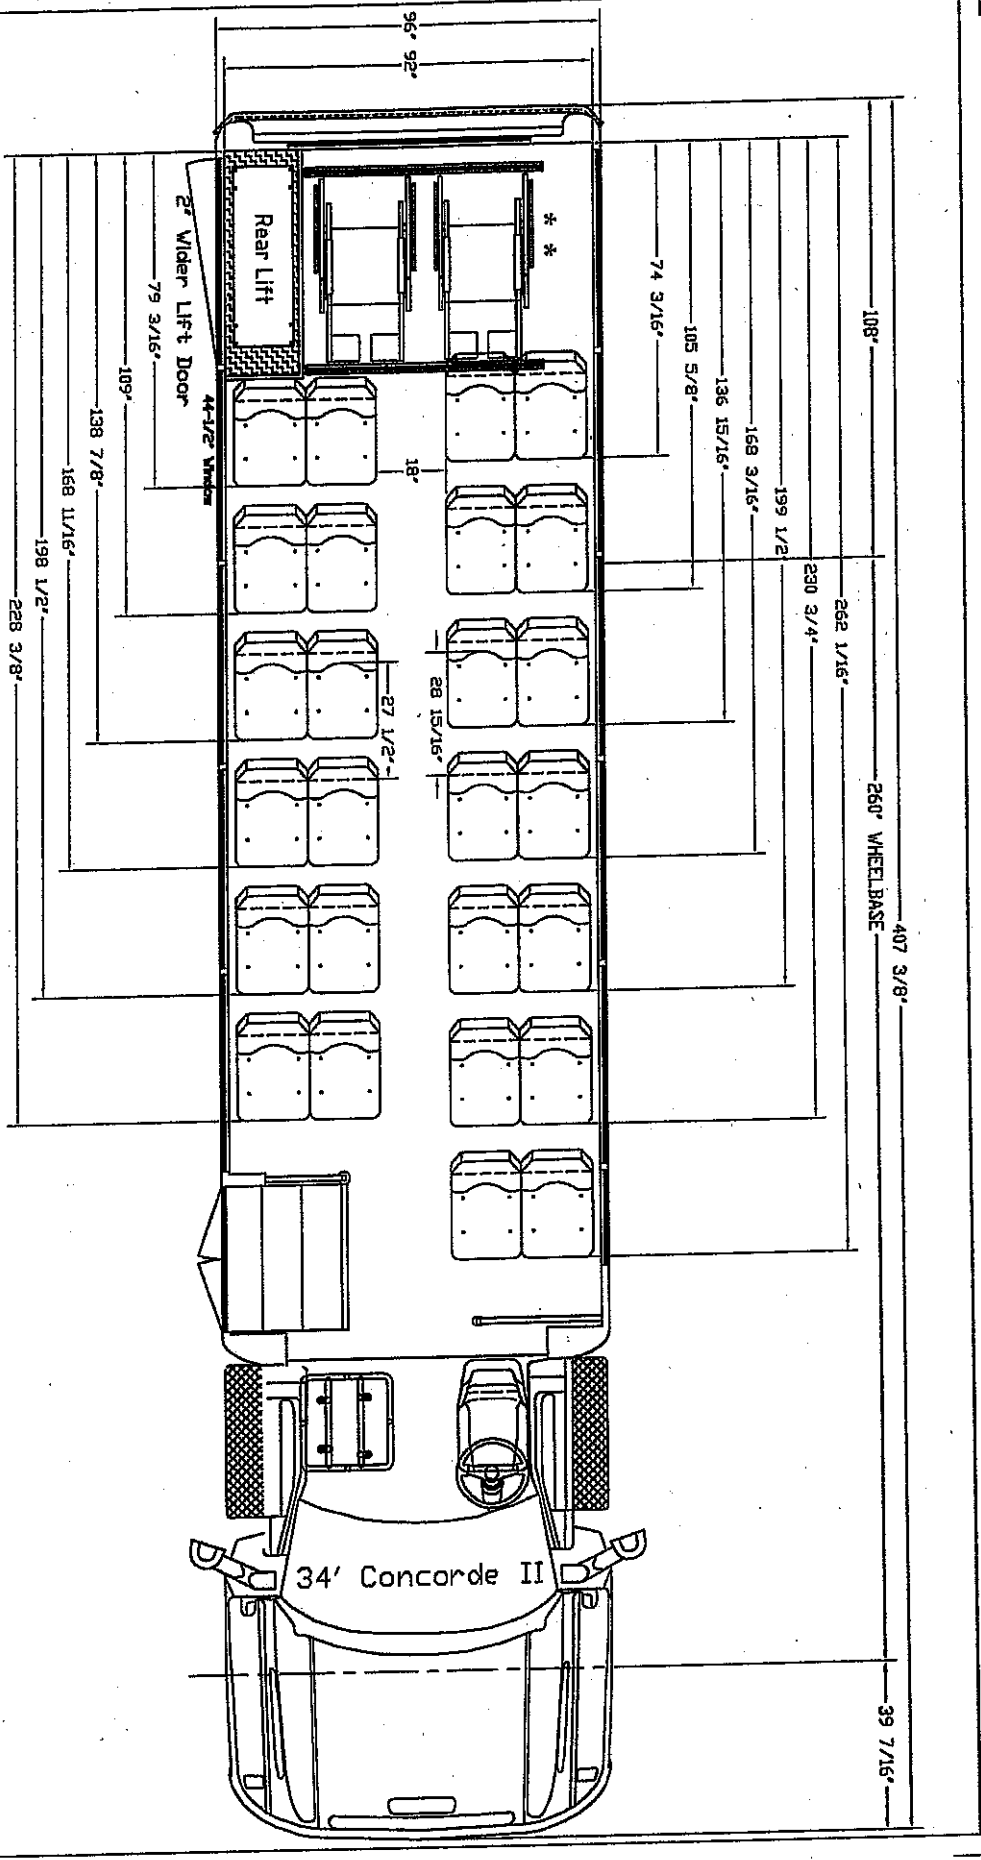

**Capacity**

Vehicle must be able to accommodate the following loads.

1. With no wheelchairs on board, 30 seated passengers plus driver.
2. Up to 2 wheelchairs and 26 seated passengers.

It is the intent of the Rolling Meadows Park District to purchase one unit that meets the following specifications and requirements.

Deviations from specifications must contain a detailed description addressing variances and documentation to support reason why alternate should be considered as equal.

\*\*add two double flip seats in wheelchair lift area

## Community Center North Parking Lot - ADA Improvements

1.1.1	<b>Move accessible parking sign</b> to within 5' of accessible parking stall in the east lot
1.1.1	<b>Create 8' wide access aisles</b> adjacent to all existing accessible parking stalls in the north lot
1.1.1	<b>Create 8' wide access aisles</b> adjacent to all existing accessible parking stalls in the south lot
1.1.2	<b>Create one more 8' wide accessible parking stalls</b> , with one 8' wide access aisle adjacent to new stall, with proper signage and striping, in recommended location in the west lot
1.1.2	<b>Move accessible parking sign</b> to within 5' of accessible parking stall in the north lot
1.1.2	<b>Raise</b> existing accessible parking signs so that lowest end of sign is not lower than 60" aff in the south lot
1.1.3	<b>Repair or correct slope</b> of parking space and access aisle one so that it is not steeper than 2% in any direction in the west lot
1.1.3	<b>Add one van parking sign</b> to one accessible stall in the north lot
1.1.4	<b>Raise</b> existing accessible parking signs so that lowest end of sign is not lower than 60" aff in the west lot
1.2.1	<b>Repair, bevel, or ramp</b> CIL along accessible route from the east lot
1.2.1	<b>Repair, bevel, or ramp</b> CIL along AR from the west lot
1.2.1	<b>Repair, bevel, or ramp</b> CIL along AR from the north lot
Cite	Phase 1
1.2.2	<b>Correct or repair</b> sidewalk cross slope along the accessible route (AR) so that it does not exceed 2% from the east lot
1.2.2	<b>Correct or repair</b> sidewalk cross slope along AR so it does not exceed 2% from the north lot
1.2.3	<b>Re-cut or re-pour</b> curb ramp to be of a compliant slope not greater than 8.33%, a cross slope not greater than 2.08%, having a top landing as wide as the ramp and 36" deep and side flares with a slope not greater than 10% from the east lot
1.2.3	<b>Re-cut or re-pour</b> curb ramp to be of a compliant slope not greater than 8.33%, a cross slope not greater than 2.08%, having a top landing as wide as the ramp and 36" deep and side flares with a slope not greater than 10% from the north lot
1.2.4	<b>Install compliant detectable warning</b> at curb ramps and all transitions from walkways to vehicular ways from the east lot
1.2.4	<b>Post</b> no parking signs to prevent patrons from blocking access to the curb ramp in the north lot
1.2.5	<b>Install compliant detectable warning</b> at curb ramps and all transitions from walkways to vehicular ways from the north lot
1.2.6	<b>Create</b> a lined access aisle at the passenger loading area that is 60" wide and 20' long adjacent to the pull up area from the north lot
1.4.1	<b>Repour and extend</b> exterior pad outside of saw room and preschool exit to be 36" wide and extend to AR or the property line
1.4.2	<b>Relocate storage, furniture, and other obstacles</b> to create adequate 60" maneuvering space around storage door
1.4.3	<b>Widen doors to 32"</b> for any doors along the general circulation path
1.4.4	<b>Replace door</b> with a door that provides 80" of overhead clearance where indicated
1.4.5	<b>Repair, bevel, or ramp CIL</b> at 5 door entries to be not greater than .25"
1.4.6	<b>Replace noncompliant threshold</b> at exterior doors with compliant thresholds
1.4.7	<b>Fill and maintain gaps at doorways</b> so that they are not greater than .5"
1.4.8	<b>Inspect, adjust, and maintain</b> pounds of force to open all exterior doors so that exterior lbf does not exceed 8.5
1.4.9	<b>Inspect, adjust, and maintain</b> closing speed on door closers so that doors do not close to 3" faster than 3 seconds when started at 70 degrees

**General Notes:**

- This Engineer's Opinion of Probable Cost is based on Preliminary Sketch Plans, dated March 16, 2011 prepared by Mackie Consultants, LLC. This Preliminary Engineer's Opinion of Probable Cost does not include landscaping, street site lighting, irrigation, utility relocations, offsite highway improvements, demolition, offsite export of excavated material, testing, or disposal of material to CCDD or landfill locations, dewatering, review fees, or permit fees or any other item not included.
- Undercuts are assumed to be completed as part of the pavement improvements and are not included. Soil borings are recommended to evaluate the preexisting material and potential recommendations by a geotechnical engineer. All areas to be tested by a geotechnical engineer prior to any placement of HMA or concrete surfaces.
- Erosion control quantities are based off of a single phase plan and do not include items necessary due to temporary conditions or phasing. Additional erosion control devices may become necessary as construction progresses onsite. The above Engineer's Opinion of Probable Cost does not include monies for ongoing maintenance of the erosion control devices.
- The improvements to the offsite streets, offsite areas, etc. were not included as part of the attached estimates. However, improvements should be coordinated with the City Engineer to minimize the potential of affecting the new improvements.
- The unit price is based on best available data. Mackie Consultants cannot guarantee the pricing will not increase.

**Preliminary Comments:**

- Earthwork, Paving, and Concrete quantities are based on the preliminary sketch plans. The final limits of grading and details may be revised based on final engineering design, comments and input from the client.

**Phasing Comments**

- The above engineer's opinion of probable cost does not include all additional items which may be necessary due to project phasing.

**Phasing Comments**

- The above engineer's opinion of probable cost does not include all additional items which may be necessary due to project phasing.

Rolling Meadows, IL 60008

Re: Friendship Park Conservatory Fire Alarm Upgrades – Phase 2  
Proposed To Be Financed Using Special Recreation Levy

Dear Ms. Crawford:

The Mt. Prospect Park District hereby requests approval from the NWSRA Board of Directors for expenditures to be paid from the Park District's Special Recreation levy. The result of this action will provide direct benefits to the partnership that the Park District has with NWSRA and the participants that are served through our joint agreement.

This project includes the costs of voluntary life safety audio and visual notification device upgrades to the fire alarm system for the referenced facility. This is the 2<sup>nd</sup> phase of a two phase project; Phase 1, which included the upgrade of the main panel to accept ADA devices, was approved by NWSRA in November, 2011 and completed during the winter of 2011/2012. The total estimated cost for phase 2 is \$15,370.00. Of that total, \$15,370.00 (100%) is estimated to be ADA related. It is anticipated that project implementation will be complete by October 2012.

The benefits of this project to NWSRA are as follows:

- Replaces the existing fire alarm devices with new ADA compliant audio and visual devices in areas where they were not required at the time of the original facility construction, but are now recommended. (See attached letter from Simplex Grinnell).

The Mt. Prospect Park District respectfully requests that you review this proposal and present it with your approving recommendation to the NWSRA Board of Directors. If you have any questions or require additional information, please do not hesitate to contact me at (847) 255-5380.

Very truly yours,

MT. PROSPECT PARK DISTRICT

**SimplexGrinnell**

**Friendship Conservatory**

**SimplexGrinnell Proposal**

April 18, 2012

Mount Prospect Park District  
Mr. Lou Ennesser  
RE: Friendship Park Conservatory ADA Upgrade

Mr. Ennesser,

Based on the current state of the life safety system, the following needs to be addressed:

Phase one has been completed and the new fire alarm control panel is now capable of providing ADA approved synchronized strobe outputs. My proposal for Phase 2 is to replace all existing devices with new ADA approved devices as well as add devices in areas where coverage is inadequate. Once complete, your building will be fully covered by ADA approved, synchronized devices and the ADA upgrade project will be complete.

I have provided you with a total cost of \$15,370.00 for this work on a separate quotation. I believe that 100% of this cost is directly attributable to the ADA upgrade process.

Please feel free to contact me with any questions.

Regards,

Mike Bang

Ms. Tracey Crawford  
Executive Director  
NWSRA  
3000 Central Road – Suite 205  
Rolling Meadows, IL 60008

Re: Improvements Proposed to be Financed Using Special Recreation Levy

Dear Ms. Crawford,

We request approval from the NWSRA Board of Directors for the proposed expenditure of funds from the River Trails Park District's Special Recreation Levy to pay for the cost of the following ADA improvement:

**Installation of an Accessible Emergency Exit Door, 100 square foot concrete area immediately outside the new door, and reconfiguring the existing office to accommodate the emergency door. The total cost is \$16,728.**

The benefit to NWSRA is as follows:

NWSRA's Young Adults Movin' On (YAMO) will now be situated in our building at 550 Business Center Drive in Mt. Prospect. The classrooms being used for this program do not presently have an easily reached emergency exit. Due to the physical challenges of some YAMO participants, a quickly accessed and easily accessible exit is necessary if an emergency arises.

We respectfully request that you review this proposal and present it for recommendation to the NWSRA Board of Directors.

Thank you very much for your consideration.

Sincerely,

Debbie Carlson Kudla  
Director, River Trails Park District

Rolling Meadows, IL 60008

Re: Improvements Proposed to be Financed Using Special Recreation Levy

Dear Ms. Crawford,

We request approval from the NWSRA Board of Directors for the proposed expenditure of funds from the River Trails Park District's Special Recreation Levy to pay for the cost of the following ADA improvement:

**Reconfiguring an existing kitchen to allow for the purchase and installation of a handicap accessible stove. The total cost is \$2569.00.**

The benefit to NWSRA is as follows:

- Making this change in a large existing kitchen at 550 Business Center Drive in Mt. Prospect, will give room for any cooking programs NWSRA wished to have, in addition to the stove/range accessibility needed for universal design.

We respectfully request that you review this proposal and present it for recommendation to the NWSRA Board of Directors.

Thank you very much for your consideration.

Sincerely,

Debbie Carlson Kudla  
Director, River Trails Park District

Ms. Tracey Crawford  
Executive Director  
Northwest Special Recreation Association  
3000 W. Central Road, Suite 205  
Rolling Meadows, IL 60008

Dear Ms. Crawford:

Re: Expenditure proposed to be financed with funds from the Special Populations levy

Wheeling Park District hereby requests approval from the Northwest Special Recreation Association Board of Trustees to finance through the Special Populations Fund an expenditure paid by the Park District. The table below details the amount requested.

Project	Park District Total Cost	Special Populations Apportionment	Amount Requested
Wheeling High School Synthetic Turf	\$500,000.00	33%	\$165,000.00

This project was part of an undertaking by Township High School District 214 to renovate Wheeling High School's stadium complex. In May 2011, Wheeling Park District entered into an Intergovernmental Cooperative Agreement with the School District to share the cost to install a synthetic turf surface on the field. As a provision of the agreement, when the stadium is not being utilized by the School District, it may be used during certain hours for community recreation activities sponsored by the Park District, such as flag football, and adult and youth soccer programs.

Among other items, the project's scope of work included civil engineering services, protection of track surfaces, excavation and base preparation, synthetic turf, concrete curb and nailer, goal posts, and site utilities. These improvements were completed in 2011. The benefits of this project to NWSRA participants are as follows: 1) a universally accessible athletic field, 2) smooth and even surface condition for easier use, 3) a playing surface for those with or without disabilities, and 4) a safe and resilient, year-round playing surface. Wheeling Park District contributed approximately 39.5% of the project's \$1,266,930.00 total cost, and is requesting 33% of the Park District's contribution to the project. Please see the attached site plan for additional information.

Wheeling Park District respectfully requests that you review this information and present it with your approving recommendation to the NWSRA Board of Trustees. If you have any questions or require additional information, please do not hesitate to contact me.

Ms. Tracey Crawford

Re: Pool Facility Accessibility Improvements  
Proposed To Be Financed Using Special Recreation Levy

Dear Ms. Crawford:

The Mt. Prospect Park District hereby requests approval from the NWSRA Board of Directors for expenditures to be paid from the Park District's Special Recreation levy. The result of this action will provide direct benefits to the partnership that the Park District has with NWSRA and the participants that are served through our joint agreement.

This project included the cost of accessibility improvements for the District's four pools to ensure compliance to the mandated requirements for Title II and Title III of the Americans With Disability Act. Title II and Title III regulate, among other things, access to public swimming pools and prohibits discrimination by all public entities.

The estimated cost for these improvements including Consultant fees is \$102,130.00. Of that total, \$102,130.00 (100%) is estimated to be the cost of accessible improvements. See Attachments 'A' and 'B'. These improvements are scheduled to be completed in 2012. The benefits of this project to NWSRA are as follows:

- Ensures that at least one accessible means of entry either by left, transfer wall or transfer system will be provided for each of the District's pools.
- Ensures that at least one accessible means of entry will be provided to each of the pool facilities from adjacent entrance walks and parking lots.
- Allows for optimal use of Park District Aquatic and other programs by NWSRA.

Included in this request are the proportionate costs for professional consulting services. The benefits to NWSRA are as follows:

- Provides for preparation of contract drawings, details and specifications to establish ADA compliant horizontal and vertical control for all proposed improvements.
- Provides for construction field staking to transfer horizontal and vertical controls indicated on drawing and details to the site.
- Provides for construction observation to ensure final construction is compliant with ADA requirements as shown on the drawings, details and specifications.

The Mt. Prospect Park District respectfully requests that you review this proposal and present it with your approving recommendation to the NWSRA Board of Directors. If you have any questions or require additional information, please do not hesitate to contact me at (847) 255-5380.

Re: Veterans Memorial Bandshell Outdoor Expansion  
Proposed To Be Financed Using Special Recreation Levy

Dear Ms. Crawford:

The Mt. Prospect Park District hereby requests approval from the NWSRA Board of Directors for expenditures to be paid from the Park District's Special Recreation levy. The result of this action will provide direct benefits to the partnership that the Park District has with NWSRA and the participants that are served through our joint agreement.

This project includes building and sitework demolition of the existing Maintenance Facility, and construction of an outdoor expansion to the existing Veterans Memorial. The expansion is 100% accessible.

**See Attachment "A" Note:** Where the cost of accessible paths are used to calculate their worth, only five feet (5") of width is used for the calculation, regardless of proposed path width. This width is considered the minimum for the anticipated abundant two-way wheelchair traffic, as the majority of visitors to the site will be senior citizens.

The estimated cost for improvements, not including demolition but including Consultants is \$533,380.00. Of that total, \$29,980.00 (5.6%) is estimated to be the cost of accessible improvements. These improvements are scheduled to be completed in the summer of 2012. The benefits of this project to NWSRA are as follows:

- Provides accessible paths from existing Lions Recreation Center and existing Bandshell to the new Outdoor Expansion.
- Provides accessible paths within the new Outdoor Expansion.
- Provides accessible paths from the adjacent residential neighborhood.

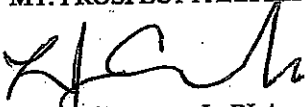

Included in this request are the proportionate costs for professional consulting services. The benefits to NWSRA are as follows:

- Provides for preparation of contract drawings, details and specifications to establish ADA compliant horizontal and vertical control for all pedestrian paths.
- Provides for construction filed staking to transfer horizontal and vertical controls indicated on drawing and details to the site.
- Provides for construction observation to ensure final construction is compliant with ADA requirements as shown on the drawings, details and specifications.

The Mt. Prospect Park District respectfully requests that you review this proposal and present it with your approving recommendation to the NWSRA Board of Directors. If you have any questions or require additional information, please do not hesitate to contact me at (847) 255-5380.

Re: Veterans Memorial Bandshell Outdoor Expansion at Lions Memorial Park

Dear Lou,

The Park District expansion of the Bandshell at Lions Memorial Park will remove barriers to accessibility and provide two way barrier free access to the Park from the street and the neighborhood. Patrons will more easily access the Bandshell, Playfields and Community Center with these new improvements.

The improvements will be a combination of poured in place concrete and concrete paver walks. These walks are designed to meet or exceed the "ADA 2010 Standards for Accessible Design".

These walks will include 300 lineal feet of concrete walk (5' wide) and 400 lineal feet of concrete paver walk (7'-4" wide). We recommend the Park District be reimbursed for two way accessible improvements to 5' in width. The estimated installed cost for concrete walk is \$6 a square foot and 1500 square feet for an estimated cost of \$9,000. The estimated installed cost for concrete paver walk is \$9 a square foot for 2000 square feet for an estimated cost of \$18,000.

The Mount Prospect Park District is making improvements that will remove barriers to accessibility and will meet or exceed the "ADA 2010 Standards for Accessible Design". We recommend the Mount Prospect Park District be reimbursed \$27,000 for these improvements.

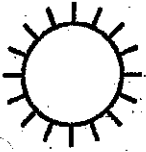

Sincerely

Ben Kutscheid, ASLA

RE: Improvements proposed to be financed using special recreation levy

Dear Ms. Crawford:

The Hoffman Estates Park District hereby notifies and requests approval of the NWSRA Board of Directors for the proposed expenditure of funds from the District's special recreation levy to pay the cost of the following improvements:

- Bo's Run Dog Park. Installation of 5-foot wide concrete walkway from park entrance to dog drinking fountains within All Dog's and Small Dog's areas.  
**\$13,882.00**
- Valley Park. Installation of 5-foot wide concrete walks to connect the Village sidewalk with bleacher areas, player benches and portalet restrooms.  
**\$ 7,128.00**
- Canterbury Park Place. Installation of 5-foot wide concrete walkways within All Dog's and Small Dog's areas, installation of handicap accessible drinking fountain, surfacing of existing 8-foot wide multi-use path that leads from parking lot to proposed dog park - current slope exceeds 5%.  
**\$13,296.00**
- Charlemagne Park. Replace approximately 1,030 sq. ft. of concrete walk with gaps of greater than ½" and horizontal difference of ¼".  
**\$ 8,713.00**
- Cottonwood Park. Installation of 5-foot wide concrete walkways to provide access from the parking lot to the 2 soccer field spectator and player's areas and portalet restrooms.  
**\$26,416.00**
- Pebble Park. Installation of 5-foot wide concrete walkways to connect the Village sidewalk to the spectator and player's areas, soccer field and portalet restroom.  
**\$ 7,203.00**

- Vogelej Park. Installation of 5-foot wide concrete walkways to connect existing safety town area to Northern Illinois Raptors Bird Mews. 2000 sq. ft.  
**\$15,160.00**
- Cannon Crossings. Add playground equipment that is 100% accessible to existing playground area that was renovated in 2011.  
**\$74,872.00**
- Tropicana Park. Installation of 5-foot wide concrete walkways to connect Village sidewalk to proposed amenities within park, provide ADA accessible rubber fall surfacing under proposed playground equipment, provide handicapped accessible drinking fountain.  
**\$33,506.00**
- Olmstead Park Playground. Remove existing ADA loose fill fiber no longer in compliance and install new 2-12 year old ramp accessible playground equipment, reinstall new drainage and ADA compliant loose fill fiber mulch, install concrete accessible pad for 1 bench.  
**\$32,658.00**
- Sundance Park. Remove existing ADA loose fill fiber no longer in compliance and install new 2-5 and 5-12 year playground equipment, reinstall new drainage and ADA compliant loose fill fiber mulch, replace existing concrete which has failed and has vertical differences greater than 1/4".  
**\$30,959.00**
- PSSWC/Prairie Stone Business Park. Engineer multi-use pathway from Shoe Factory Road under I90 to PSSWC.  
**\$25,000.00**
- Parkway curb aprons. Replace existing curb with depressed curbs and provide concrete aprons to allow access from Village streets into Westbury and South Ridge Parks at 5 locations.  
**\$10,500.00**

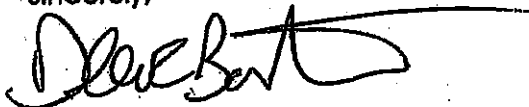

The total estimated cost of the improvements is **\$299,293**. The improvements are expected to be substantially complete by November 2012.

Anticipated benefits of the projects to NWSRA are as follows:

- Installation of ADA accessible playground equipment, fall surface and correction of existing slopes in playgrounds and parks.
- Access to athletic fields, dog park amenities, multi-use paths and ADA accessible portalets.

The District respectfully requests that you review this request and present it with your approving recommendation to the NWSRA Board of Directors. If you have any questions or require additional information, please do not hesitate to contact me.

Sincerely,

Dean R. Bostrom  
Executive Director

**PARK DISTRICT**

January 16, 2012

Ms. Tracey Crawford, Executive Director  
Northwest Special Recreation Association  
3000 W. Central Road #205  
Rolling Meadows IL 60008

Dear Ms. Crawford:

Re: Improvements Proposed to be Financed Using Special Recreation Levy

Schaumburg Park District hereby notifies and requests approval of the NWSRA Board of Directors for the proposed expenditures of funds from the District's Special Recreation Levy to pay for the cost of the ADA improvements at playgrounds located at Apollo, Campanelli and Kessel Parks, along with paving improvements at Olympic and Volkening Lake Parks. I have enclosed an attachment that itemizes the ADA improvements for these projects. The total cost is \$146,437. These improvements have been completed as of December 1, 2011. The benefits of these projects to NWSRA are as follows:

- Provide accessibility to the playgrounds, making them available to NWSRA program participants
- Provide accessibility to individual play events
- Provide accessibility to open park areas

Schaumburg Park District respectfully requests that you review this proposal and present it with your approving recommendations to the NWSRA Board of Directors. If you have any questions or need any additional information, please do not hesitate to contact me.

Sincerely,

SCHAUMBURG PARK DISTRICT

Daniel Otto, CPRP  
Deputy Director

Pc: Ms. Jean Schlinkmann

Re: Arlington Heights Park District Improvements to be Financed using Special Recreation Levy

Dear Ms. Crawford,

The Arlington Heights Park District notifies and requests approval of the NWSRA Board of Directors for the expenditure of funds from the District's special recreation levy, for the following park improvements with ADA accessible features within each project:

PROJECT	TTL COST	ADA COST	% REQUESTED
Centennial Park- Parking Lot Improvements	\$123,912.00	\$20,544.55	17%
Evergreen Park- Playground Renovation	\$129,598.75	\$66,539.42	51%
Evergreen Park- Pathway Improvements	\$52,212.50	\$25,960.44	50%
Recreation Park- Playground Renovation	\$143,131.25	\$102,329.89	71%
Melas Park- Playground Renovation	\$126,188.50	\$66,147.83	52%
Happiness Park- ADA Picnic Table	\$1,676.00	\$1,676.00	100%
Patriots Park- Access to Ball Field, ADA Player & Bleacher Pads	\$24,327.50	\$13,430.08	47%
John Hersey School- Synthetic Turf Cooperative	\$500,000.00	\$165,000.00	33%
<b>TOTAL</b>	<b>\$1,101,046.50</b>	<b>\$461,628.21</b>	<b>42%</b>

#### Centennial Park- Parking Lot Improvements

The project consisted of the excavation, furnishing, and installation of the required materials and equipment for the parking lot and site improvements. These improvements were completed in the summer of 2011. The benefits to NWSRA are as follows: (1) provides a safe and accessible means from the parking lot into the park, (2) provides a 6' walk into the park, and (3) provides accessible parking spaces. The site was not previously accessible, and the primary purpose of installation of 5' of the width of the concrete walk can be attributed to accessibility with secondary purposes including equipment accommodation and extracurricular activities (i.e. biking) via additional width not included in the amount requested. We are requesting 17%. This includes a percentage of the cost of the concrete walk, the cost of the detectable warning plates, depressed curb, pavement markings for the ADA stalls and symbols, and a percentage of the demolition, excavation, and installation of the parking lot base that was required to complete the accessible portion of the work. Please see appendix A for additional information.

#### Evergreen Park- Playground Renovation

The project consisted of the removal and replacement of the existing playground with new accessible equipment, surfacing and entry walk. These improvements were completed in the summer of 2011. The benefits to NWSRA are as follows: (1) provides access up to and into the playground; (2) provides access to the picnic area (3) provides accessible play activities, (4) enables children to interact and play, and (5) enables children to learn social skills. The site was not previously accessible, and the primary purpose of installation of the equipment, materials, and costs associated with the accessible features utilized can be attributed to accessibility. We are requesting 51%. This includes a percentage of the equipment cost, demolition, excavation, installation, and restoration of the playground that was required to complete the accessible portion of the work, cost for the accessible safety surfacing, and cost of the concrete work for the playground. This project was completed in coordination with Evergreen Park- Pathway Improvements as presented below. Please see Appendix B for additional information.

#### Evergreen Park- Pathway Improvements

The project consisted of the removal and replacement of the existing pathway with a 9' path, as well as the removal and replacement of four bench pads and installation of an accessible picnic area. These improvements were completed in the summer of 2011. The benefits of this project to NWSRA are as follows: (1) provides an accessible path around the park, (2) provides smooth surface condition for easier use, (3) provides an accessible path to the playground, (4) provides an accessible path to the basketball court, and (5) provides accessible benches throughout the park. This site was not previously accessible, and the primary purpose of installation of 5' of the width of the path can be attributed to accessibility with secondary purposes including equipment accommodation and extracurricular activities (i.e. biking) via additional width not included in the amount requested. We are requesting 50%. This includes a percentage of the material cost and installation of the pathways and bench pads, as well as a percentage of the cost for demolition, excavation, and restoration that was required to complete the accessible portion of the work. Please see Appendix B for additional information.

#### Recreation Park- Playground Renovation

The project consisted of the removal and replacement of the existing playground with new accessible equipment, surfacing and entry walk. These improvements were completed in the summer of 2011. The benefits to NWSRA are as follows: (1) provides a 5' wide accessible path up to and into the playground, (2) provides accessible benches and picnic area, (3) provides accessible play activities, (4) enables children to interact and play, and (5) enables children to learn social skills. The site was not previously accessible, and the primary purpose of installation of the equipment, materials, and costs associated with the accessible features utilized can be attributed to accessibility. We are requesting 71%. This includes a percentage of the equipment cost, demolition, excavation, installation, and restoration of the playground that was required to complete the accessible portion of the work, cost for the accessible safety surfacing, and cost of the concrete work for the playground. Please see Appendix C for additional information.

#### Melas Park- Playground Renovation

The project consisted of the removal and replacement of the existing playground with new accessible equipment, surfacing and entry walk. These improvements were completed in the summer of 2011. The benefits to NWSRA are as follows: (1) provides a 5' wide accessible path up to and into the playground, (2) provides accessible benches and picnic area, (3) provides accessible play activities, (4) enables children to interact and play, and (5) enables children to learn social skills. The site was not previously accessible, and the primary purpose of installation of the equipment, materials, and costs associated with the accessible features utilized can be attributed to accessibility. We are requesting 52%. This includes a percentage of the equipment cost, demolition, excavation, installation, and restoration of the playground that was required to complete the accessible portion of the work, cost for the accessible safety surfacing, and cost of the concrete work for the playground. Please see Appendix D for additional information.

#### Happiness Park- ADA Picnic Table

The project consisted of the purchase and installation of an ADA picnic table for accessible use. This improvement was completed in the summer of 2011. The benefits the NWSRA are as follows: (1) provides accessible picnic area near the playground and (2) completes recommendation regarding the Arlington Heights Park District ADA transition plan identified by the Arlington Heights Park District ADA Committee in 2009. We are requesting 100% cost of the materials. This does not include the cost of installation. Please see Appendix E for additional information.

#### Patriots Park- Access to Ball Field, ADA Player & Bleacher Pads

This project consisted of the removal and replacement of the 7' wide concrete pathway and access from the parking lot, 6' wide ball field walks, and 5' wide connector walks to all of the ball fields, in addition to concrete pads for the player benches and bleacher pads. These improvements were completed in the fall of 2011. The benefits of this project to NWSRA are as follows: (1) provides an accessible path into and around the park, (2) provides smooth surface condition for easier use, (3) provides an accessible path to the ball fields, and (4) provides accessible bleachers and benches. The site was not previously accessible, and the primary purpose of installation of 5' of the width can be attributed to accessibility with secondary purposes including equipment accommodation and extracurricular activities (i.e. biking) via additional width not included in the amount requested. We are requesting 47%. This includes a percentage of the material cost and installation of the pathway, player bench pads, and bleacher pads, as well as a percentage of the cost for demolition, excavation, and restoration that was required to complete the accessible portion of the work. Please see Appendix F for additional information.

John Hersey School- Synthetic Turf Cooperative

This project consisted of the installation of a synthetic turf athletic field on John Hersey High School grounds. The Arlington Heights Park District worked in coordination with Township High School District 214 on this project in anticipation of benefits for the Park District including but not limited to increased programming and accessible usage. The breakdown of the scope of work included: protection of the track surfaces, excavation and base preparation, furnish and installation of site utilities, concrete curb and nailer, goal posts, field turf, and restoration of adjacent surfaces. These improvements were completed in the summer of 2011. The benefits of this project to NWSRA are as follows: (1) provides a universally accessible athletic field, (2) provides smooth and even surface condition for easier use, (3) provides a playing surface for those with or without disabilities, (4) offers high impact attenuation, and (5) provides a safe and resilient playing surface year-round. This athletic field was not previously accessible. The Park District contributed to approximately 25% of the project via contract, with 8% of the total being attributed to the Park District's accessibility funds. We are requesting 33% of the Park District's contribution to the project, also denoted as 8% of the project total. Please see Appendix G for additional information.

The Arlington Heights Park District respectfully asks that you review this request and present it with your approving recommendation to the NWSRA Board of Directors. If you have any questions or require additional information, please do not hesitate to contact me at (847) 506-7145.

Sincerely,

Brian Huckstadt  
Director of Parks & Planning  
Arlington Heights Park District

Total Elevated Components Accessible By Transfer	14	14	Required	6
Total Accessible Ground Level Components Shown	11	11	Required	4
Total Different Types Of Ground Level Components			Required	4

It is the manufacturer's opinion that the structures shown herein comply with current ADA standards concerning accessibility if used with proposed accessible surfacing and together with other necessary ground level play equipment.

Minimum Area Required:  
 NTS  
 Scale: 3/16" = 1'-0"  
 This drawing can be scaled only when in an 11" x 17" format.

This play equipment is recommended for children ages 2-5 & 5-12

**IMPORTANT: Never install play equipment over sand, unresilient surfaces such as asphalt, concrete, or compacted earth. It is the owner's responsibility to ensure the "minimum area required" contains an appropriate amount of resilient material to cushion accidental falls.**

Re: Recreation Park  
Arlington Heights Park District

Dear Stephanie:

Thank you for your email about the accessibility of the play equipment at Recreation Park.

Our analysis of compliance to current guidelines of accessible elements and percentage of the total equipment by cost is 97%.

Please call me if there are any questions

Sincerely,

Charles Jackson  
Manager of Design Services

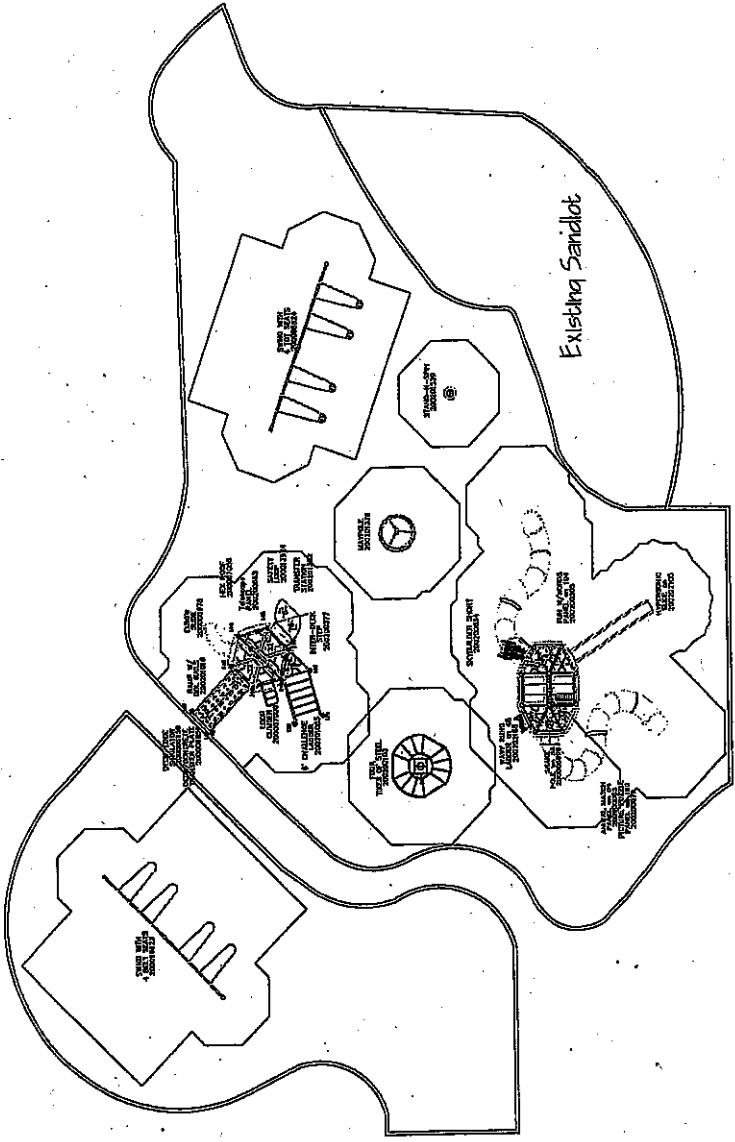

# Recreation Park- Playground Renovation

## Equipr Detail

Playgrounds. Fun & Easy!

- General Notes:**
- Age Group**  
 2-5 years  5-12 years  12-17 years
- The Americans with Disabilities Act (ADA) may require that you make your site and/or playground accessible to children with disabilities. For more information, please contact your local ADA office.
  - For playground equipment to be considered accessible, the proposed Access Board Regulations in regard to the playground may be in compliance when considering:
  - Adding play components from top of ground cover, ground or play equipment. All zones around the entire playground are in use. This zone is to be free of all tripping or catchion hazards (i.e. roots, rocks, border).
  - All post lengths are identified by best showing the post height. i.e. 36 represents a 36 inch post. An appropriate sign is required.
  - Supervision is required.

**Happiness Park ADA Recommendations  
Reviewed by ADA Committee 4/28/09**

Happiness is a mini-park in the north central section of town. Located adjacent to a fenced village retention lake, Happiness also includes a small two lot parcel on the other side of the retention lake. The playground at Happiness was renovated in 2003. The playground equipment meets all ADA standards, with the only issue being that of accessibility to the sand play structure. The following are the recommendations for Happiness Park:

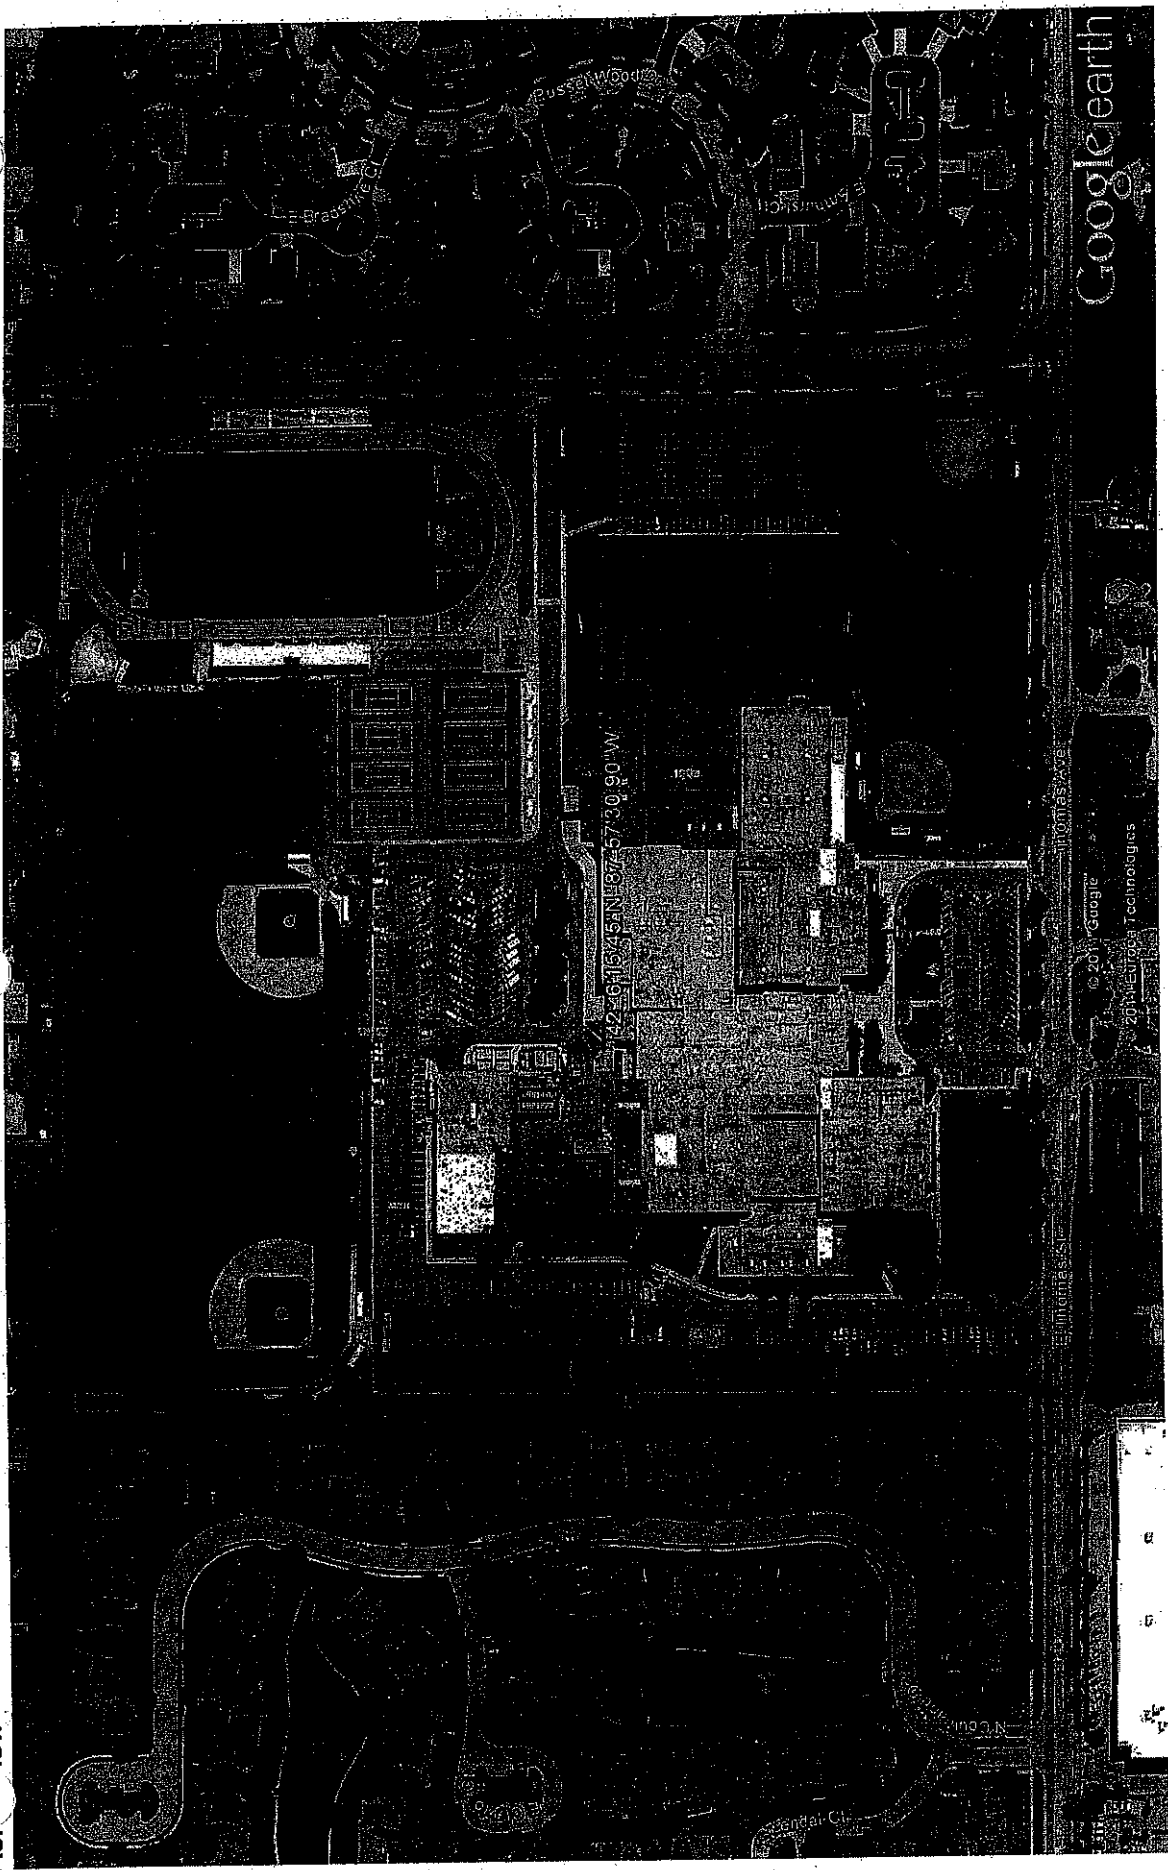

1. Sand play structure access can be solved by adding playground tiles from the concrete path up to the structure and by removing some of the sand beneath to bring up the level of the play structure to the proper height.
2. A fixed picnic table was left when the playground was renovated. This table is not an accessible model and is not on an accessible route. Concrete work is needed on the curb surrounding the playground (vandalism damage in 2008.) The existing table can be removed and modified to meet standards. It can then be moved closer to the path by the existing walkway. The cost will be less because concrete workers will already be in the park removing and replacing the curb.
3. Access from the street is identified as a barrier. The current curb is marked for repair. Staff will work with the Village to assure that accessibility issues are addressed.

Re: Improvements to be Financed Using Special Recreation Levy

Dear Ms. Crawford,

The Bartlett Park District hereby notifies and requests approval of the NWSRA Board of Directors for the proposed expenditure of funds from the District's special recreation levy to pay the cost of the following improvements:

**The following projects have been completed and are described below.**

**Phase I ADA Transition Plan.** Two items from Phase I of the ADA Transition Plan were completed in 2011. The asphalt path at Humbracht Park was removed and replaced with an asphalt path that meets current ADA guidelines for accessible routes to the playground, the wetland overlook deck, and interpretive signage. At Riley's Run dog park, additional asphalt was installed within the fenced areas of the dog park to meet accessibility recommendations in the Transition Plan.

**Playground Surfacing.** Certified engineered wood fiber was added to several of the District's existing playgrounds in order to bring safety surface levels up to acceptable levels for accessibility to ramps and play equipment along with providing impact attenuation in the play area.

**Centennial Playground.** Centennial Park/school playground project was the replacement of an existing play structure at a park/school site. The project created a concrete accessible ramp that leads to an accessible play surface with a new play structure that has multiple accessible play events at ground level and on the structure. A transition platform allows access onto the play structure. Site plan attached.

**Kjar Park Playground.** Kjar Park project was the replacement of an existing wooden play structure that was not accessible and had no accessible route from the residential sidewalk to the play area. The project created a concrete accessible walk and ramp that leads to an accessible picnic table and to the play surface where there is a new play structure with multiple accessible play events at ground level and on the structure via a transition platform. Site plan attached.

**Community Center Elevator Maintenance.** The elevator at the Bartlett Community Center accesses all four levels of the facility, including program rooms, summer camp rooms, the health club, racquetball courts, indoor aquatics and indoor track. The submitted costs are for the contracted regular maintenance and inspection of this elevator.

**Apple Orchard West Basketball Court Renovation.** The AO West basketball court has four half courts and one full court and was renovated with new asphalt, color coating and lines. The court has accessible routes and is lighted for evening use.

<u>Project</u>	<u>TOTAL COST</u>	<u>SRA PORTION</u>	<u>\$ SUBMITTED</u>
Humbracht Park ADA Transition Phase I	\$5,748.00	100.00%	\$5,748.00

Community Center Elevator Maintenance	\$1,151.00	75.00%	\$863.00
AO West Basketball Court	\$18,110.00	33.00%	\$5,976.00
<b>Completed Project Request</b>			<b>\$73,757.00</b>

The following are two projects that are under construction and will be completed within six months.

**Beaver Pond Park Development.** Beaver Pond Park is used by many residents for fishing throughout the year, and the Park District holds a youth fishing derby here every August with over three hundred participants. Unfortunately, this park was not accessible to all of our residents. To get to the pond or an existing shady picnic table, park users had to cross large, uneven turf areas. In accordance with the District's Comprehensive Master Plan and the ADA Transition Plan, this park was to be made accessible with an ADA accessible path and was to connect to the community-wide path system. The attached plan was reviewed by the public and Board of Commissioners, and an OSLAD Grant was applied for and approved by the IDNR.

The accessible elements of the plan include the following:

1. An eight-foot wide multi-use accessible pathway encircling the pond, connecting with the community bike path to the south and providing access to handicap parking east and west of the park.
2. Fishing stations provide paved handicap access to the pond shore.

3. Creating an accessible fishing area in the District was emphasized throughout the many stages of approval needed for this project; therefore, half of the asphalt and associated site work is being requested for reimbursement.
4. A handicap accessible floating fishing pier with railings, shade and seating. There is an accessible picnic shelter with picnic tables, several seating areas along the path, and several shaded accessible picnic spots.
5. Horseshoe pits are accessible via a concrete walk with benches.
6. Nature stations with interpretive signage.

<u>TASK</u>	<u>TASK COST</u>	<u>SRA PORTION</u>	<u>\$ SUBMITTED</u>
Strip & Stockpile Existing Topsoil	\$6,390	50.0%	\$3,195
Perform All Cuts & Fills	\$88,262	50.0%	\$44,131
Re-spread Existing Topsoil	\$10,650	50.0%	\$6,656

Parking Lot Improvements	\$21,548	22.2%	\$4,784
Design and Engineering	\$138,330	20.0%	\$27,666
<b>TOTAL BEAVER POND REQUEST</b>			<b>\$260,029</b>

This unique park will have our only accessible fishing pond that helps to meet the recreational needs of those with accessibility issues. We anticipate the completion of this project in May of 2012.

**Blue Heron Park Development.** This six acre park has an existing 16 car parking lot and was acquired by developer donation in 2008. A design plan was produced and an OSLAD Grant was acquired for this park development that has the following accessible features:

1. An asphalt pathway encircles the park with several seating areas positioned along the path. A crosswalk connects this path entrance to the community wide bike path system. Three feet of the eight foot wide path has been calculated as the accessible portion.

2. An accessible picnic area with a shelter and handicap accessible picnic tables. On the one side of this is an accessible splash playground that and on the other side is an accessible playground with multiple features designed for 2-12 year olds.
3. To the north is an accessible bags court for this popular game that is played by various age groups.
4. Adults and children can practice their golf skills on an accessible artificial turf putting green.
5. There is also an accessible overlook with seating areas and interpretive signage dealing with the adjacent pond and heron rookery.

<u>TASK</u>	<u>TASK COST</u>	<u>SRA PORTION</u>	<u>\$ SUBMITTED</u>
Asphalt Path	\$43,563	37.5%	\$16,336

Design and Engineering	\$75,000	25.0%	\$18,750
<b>TOTAL BLUE HERON PARK REQUEST</b>			<b>\$142,992</b>

This new park has a variety of amenities designed for use by those with accessibility issues and we anticipate the completion of this park by the beginning of June.

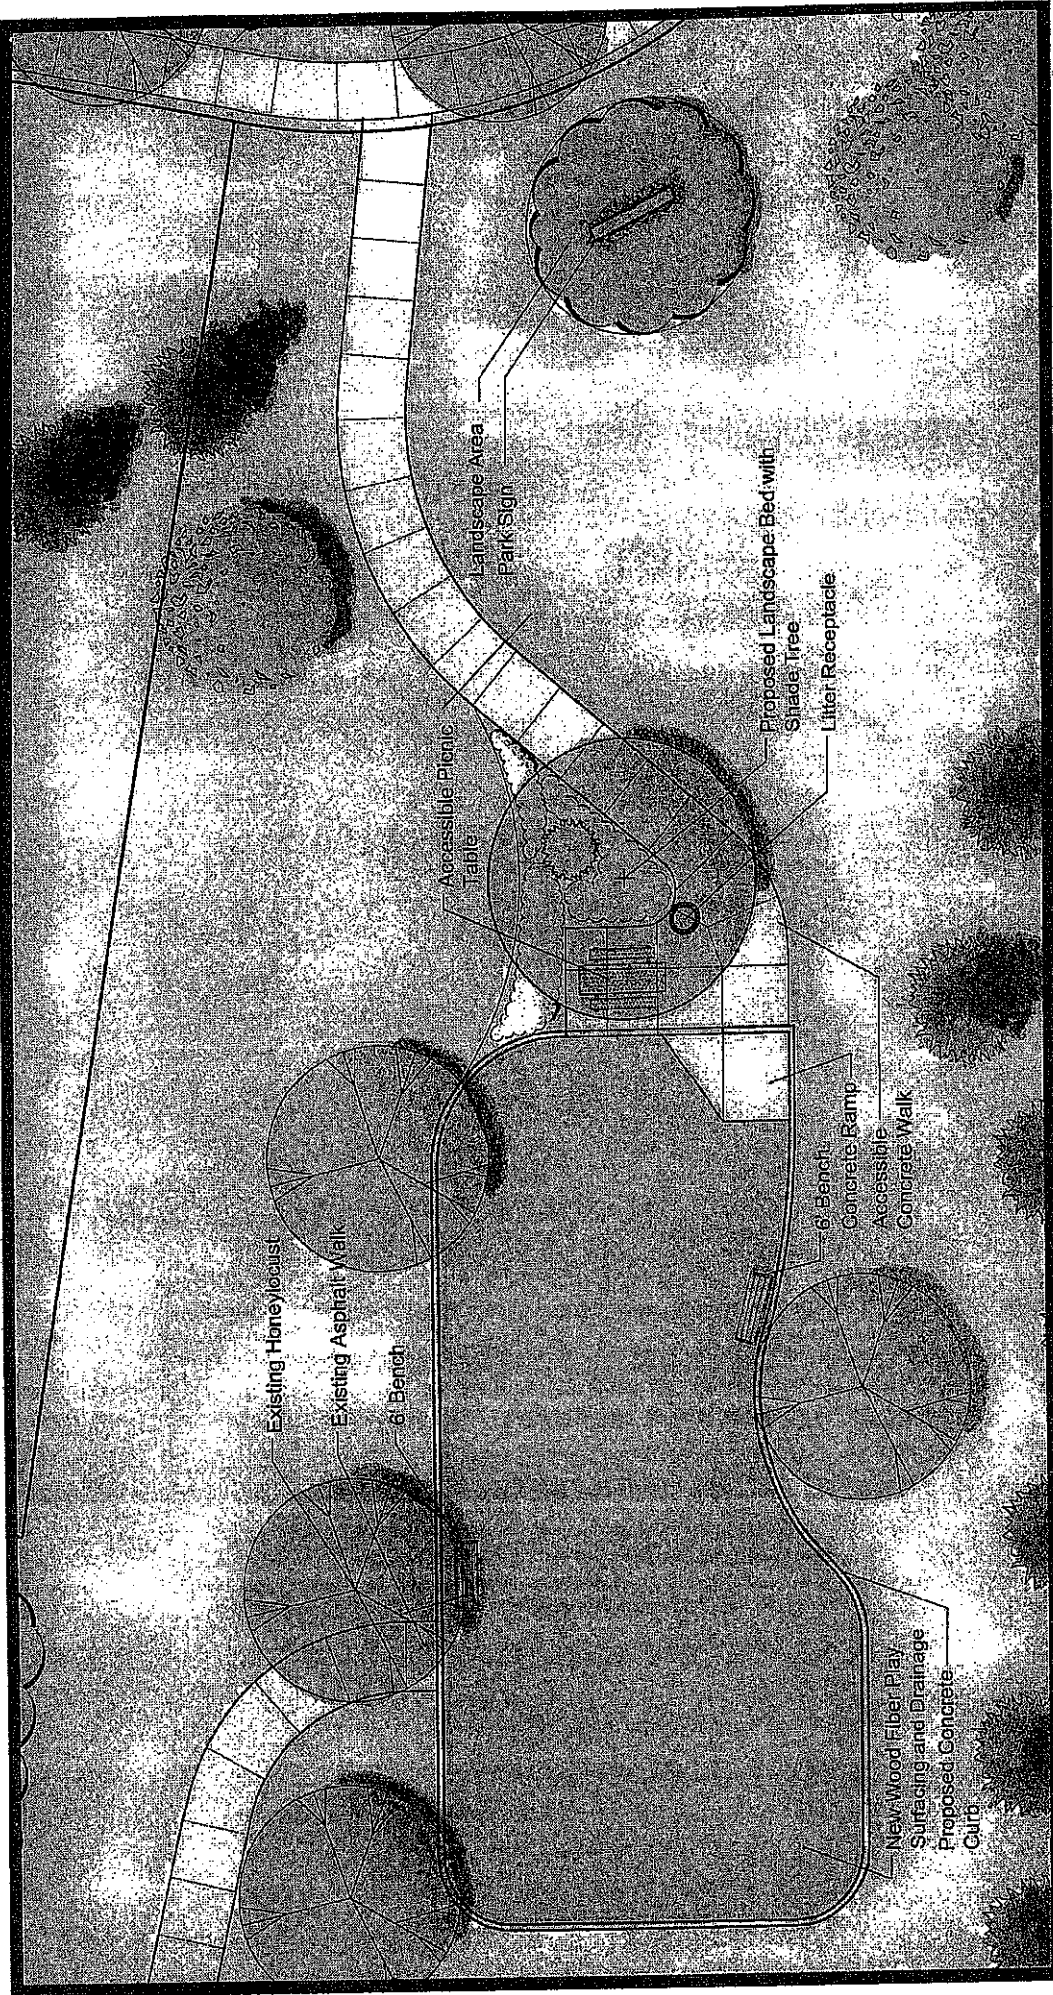

The District respectfully requests that you review these requests and recommend approval to the NWSRA Board of Directors. If you have any questions or require additional information, please do not hesitate to contact me.

Very truly yours,

Rita K. Fletcher

Re: Pool Facility Accessibility Audit Updates  
Proposed To Be Financed Using Special Recreation Levy

Dear Ms. Crawford:

The Mt. Prospect Park District hereby requests approval from the NWSRA Board of Directors for expenditures to be paid from the Park District's Special Recreation levy. The result of this action will provide direct benefits to the partnership that the Park District has with NWSRA and the participants that are served through our joint agreement.

This project includes the cost of evaluating the District's four pools for compliance to the mandated requirements for Title II and Title III of the Americans With Disabilities Act. Title II and Title III regulate, among other things, access to public swimming pools and prohibits discrimination by all public entities. All pools operated by a public entity must be in compliance with this law by March 15, 2012. The total estimated cost for this evaluation is \$4,900.00. Of that total, \$4,900.00 (100%) is estimated to be ADA related. Please see attached proposal.

The benefits of this project to NWSRA are as follows:

- This evaluation and any subsequent required modifications will ensure that at least one accessible means of entry either by lift, transfer wall or transfer system will be provided for each of the District's pools.

The Mt. Prospect Park District respectfully requests that you review this proposal and present it with your approving recommendation to the NWSRA Board of Directors. If you have any questions or require additional information, please do not hesitate to contact me at (847) 255-5380.

Very truly yours,

Re: Pool Facility Accessibility Audit Updates  
Various Park District Facilities  
Mt. Prospect Park District  
GW #R118

Dear Mr. Ennesser:

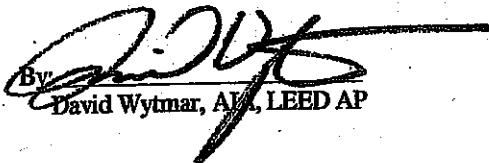

This Addendum is attached to and forms part of the original Letter of Agreement dated June 28, 2010 for the above referenced project and outlines modifications to the general services to be provided and the fees to be charged by Groundwork, Ltd., Architects/Planners /Engineers ("Groundwork") as follows:

1. Pool Facility Update \$4,900.00
  - a. Field observations of existing physical aspects of various Park District pool facilities to assess accessibility elements in regards to enforceable standards and guidelines that will take effect on March 15, 2012.
  - b. Photo documentation of various individual elements of existing facilities.
  - c. Preparation of a general report identifying existing conditions for the Park District, and impact of new regulations for the pool facilities.
2. All other provisions of the original Agreement, dated 6/28/10, shall apply.

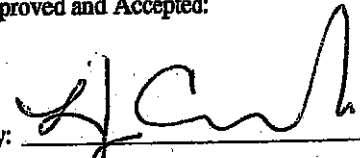

Please sign and return the original of this Addendum to our office to show your acceptance and inclusion of these services as part of the 6/28/10 Agreement and retain the duplicate copy for your records. Should the Addendum not be executed and returned to Groundwork's offices within 30 days from the date of this Addendum, this proposal shall be null and void. We thank you for the opportunity to be of service to you.

Very truly yours,

Re: Deck replacement proposed to be financed using Special Recreation Levy.

The Salt Creek Park District hereby notifies and requests approval of the NWSRA Board of Directors for the proposed expenditure of funds from the District's special recreation levy to pay the cost of the following deck replacement:

- Complete replacement of outdated deck structure with new accessible structure.

<u>Item</u>	<u>ADA Expenditures</u>
Concrete Walk Way	\$42,380
Hand Rails	\$11,800
Detectable Warning Surfaces	\$9,500
Labor and Materials for Ramp	\$14,300
	<hr/>
	Total \$77,980

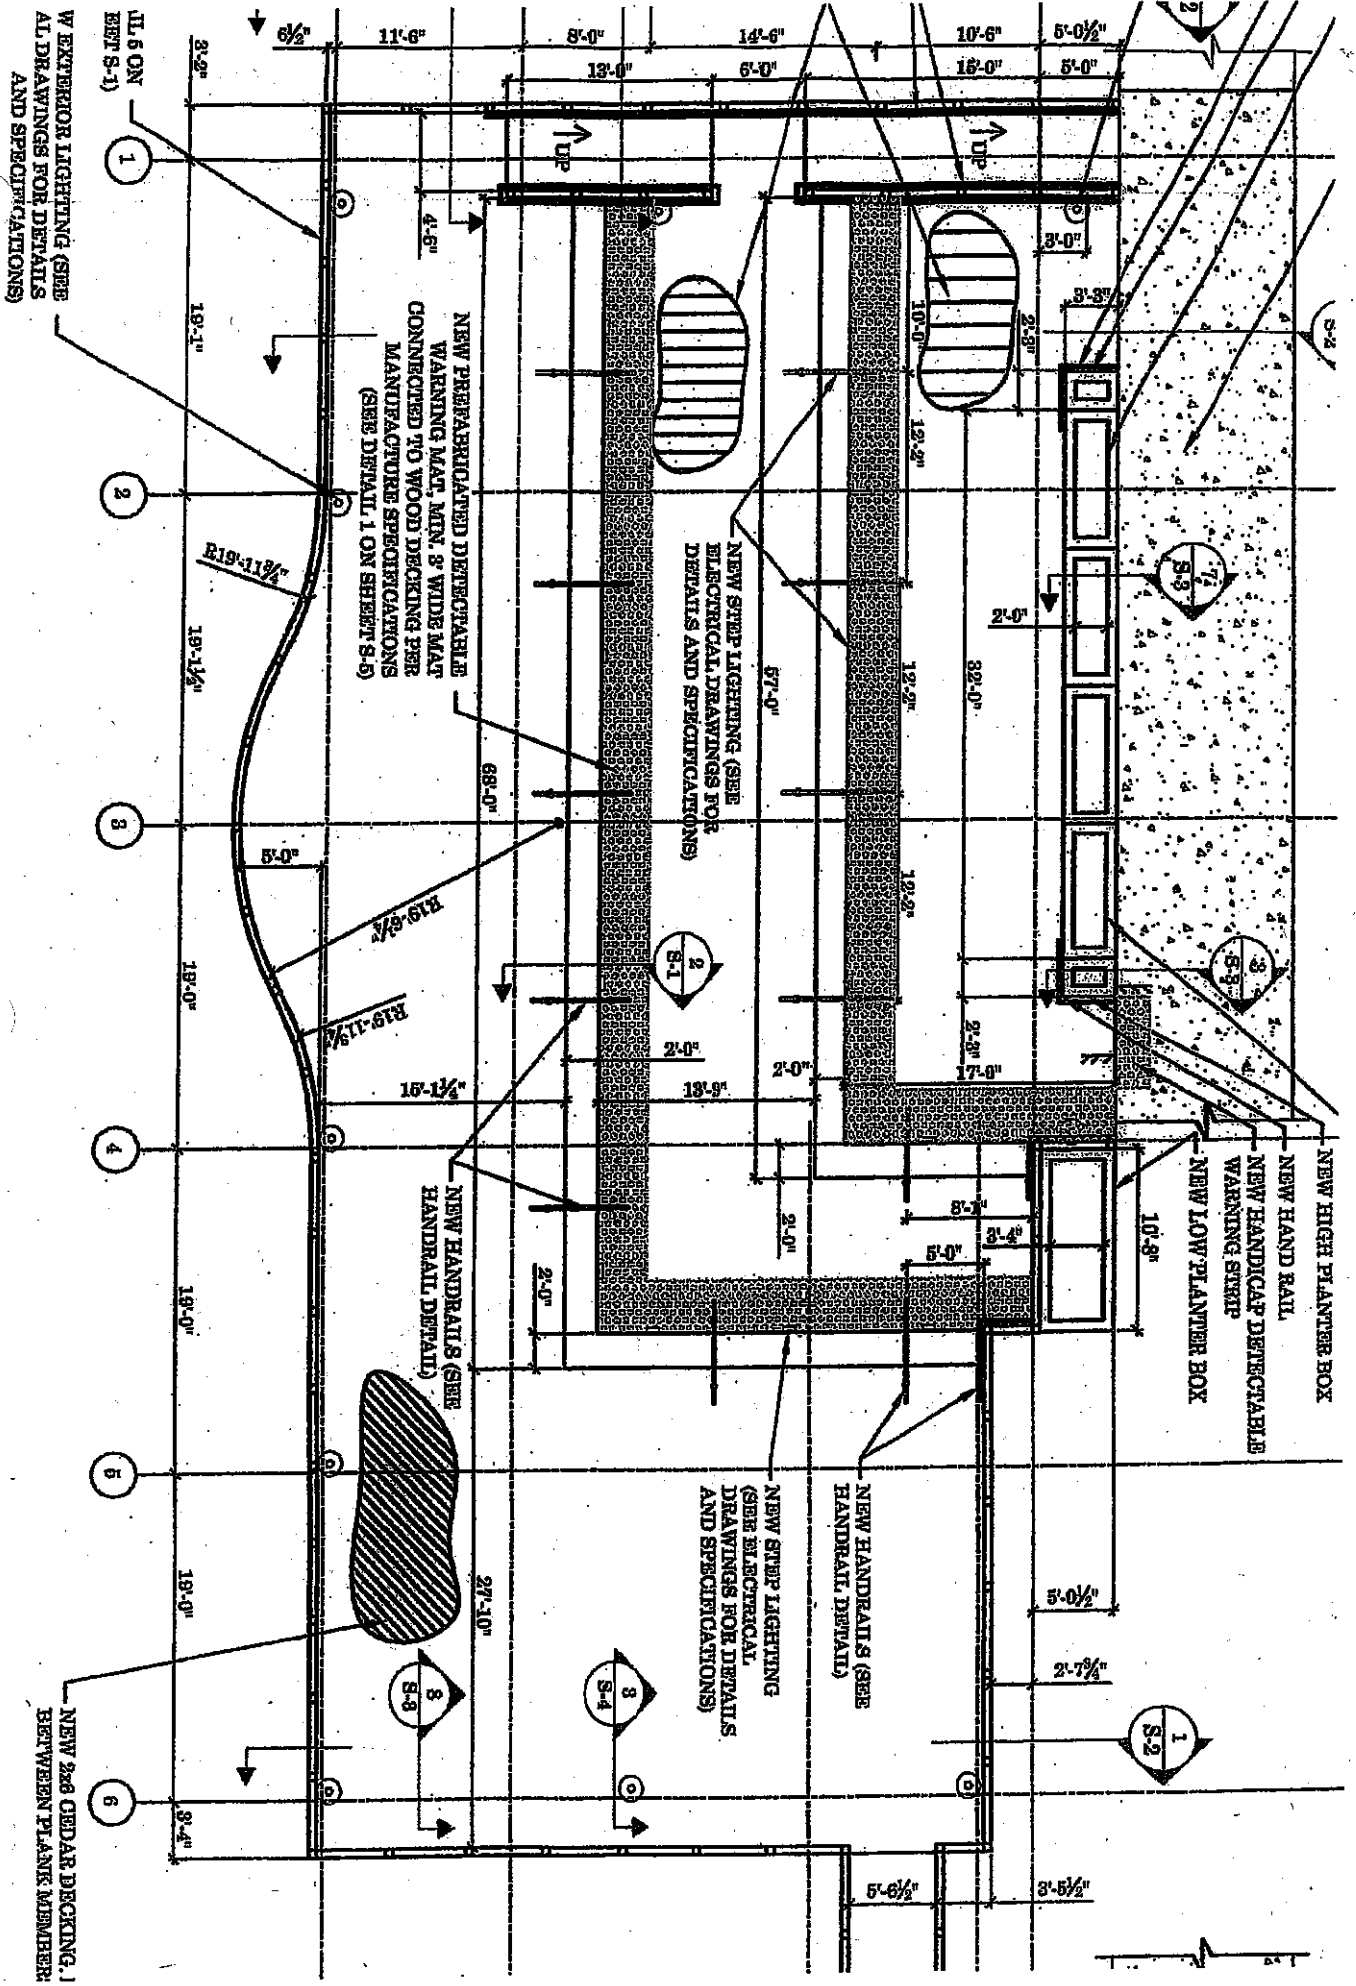

The new deck structure including surrounding concrete walkway cost \$280,900. Staff has determined that the ADA portion of the deck should be \$77,980. This includes an 8' x 125' concrete walkway, handrails, detectable warning surfaces, and the construction of accessible ramp. See attached drawing. The deck structure was completed in November of 2011. The benefits to NWSRA are that the deck and its surrounding walkways are now up to the latest ADA accessibility standards. The deck is available to NWSRA for its programs and services. It meets all ADA requirements outlined by ADA guidelines.

The Salt Creek Park District requests that you review this request and present it with your approving recommendation to the NWSRA Board of Directors. If you have any questions, please contact me at 847-259-6890.

Respectfully Submitted,

*Diane Hilgers*

Rolling Meadows, Illinois 60008

Dear Ms. Crawford,

The Prospect Heights Park District hereby requests approval from the NWSRA Board of Directors for expenditures to be paid from the district's Special Recreation levy. This is based on a recently completed renovation project at our Claire Lane Park which benefits the partnership and joint agreement with NWSRA.

The project included the replacement of a playground, picnic shelter and related park amenities. Specifically, a concrete walkway was constructed providing access from the street to the playground, the entire area shrouded by the picnic shelter, and an existing tennis court. The entire walkway construction was completed according to proper accessibility specifications and standards. The total cost of the accessible concrete walkway is \$10,450.00.

The benefits of this project to NWSRA are as follows:

- Provide accessibility to 2 separate playgrounds for 2-5 and 5-12 year old age groups
- Enable access to picnic shelter with accessible picnic tables
- Access to the tennis court
- All park amenities and experiences are accessible

The Prospect Heights Park District respectfully requests that you review this proposal and present it for approval to the NWSRA Board of Directors. If you have any questions or require additional information please contact me at (847) 666-4862.

Sincerely,

*David J. Figgins*

Rolling Meadows, Illinois 60008

Dear Ms. Crawford,

The Prospect Heights Park District hereby requests approval from the NWSRA Board of Directors for expenditures to be paid from the district's Special Recreation levy. This is based on our planned front entrance renovation at the Gary Morava Recreation Center which will greatly benefit the partnership and joint agreement with NWSRA.

The project is being initiated as a response to our recent ADA Audit and included in the transition plan. A concrete walkway is to be installed that will include access from all drop off points leading up to the front doors of the facility. Additional depressed curbing will also be added to adequately allow for bus drop off. The entire walkway construction will be completed according to proper accessibility specifications and standards. The cost of the accessible concrete walkway has been quoted to be \$16,800.00.

The benefit of this project to NWSRA is as follows:

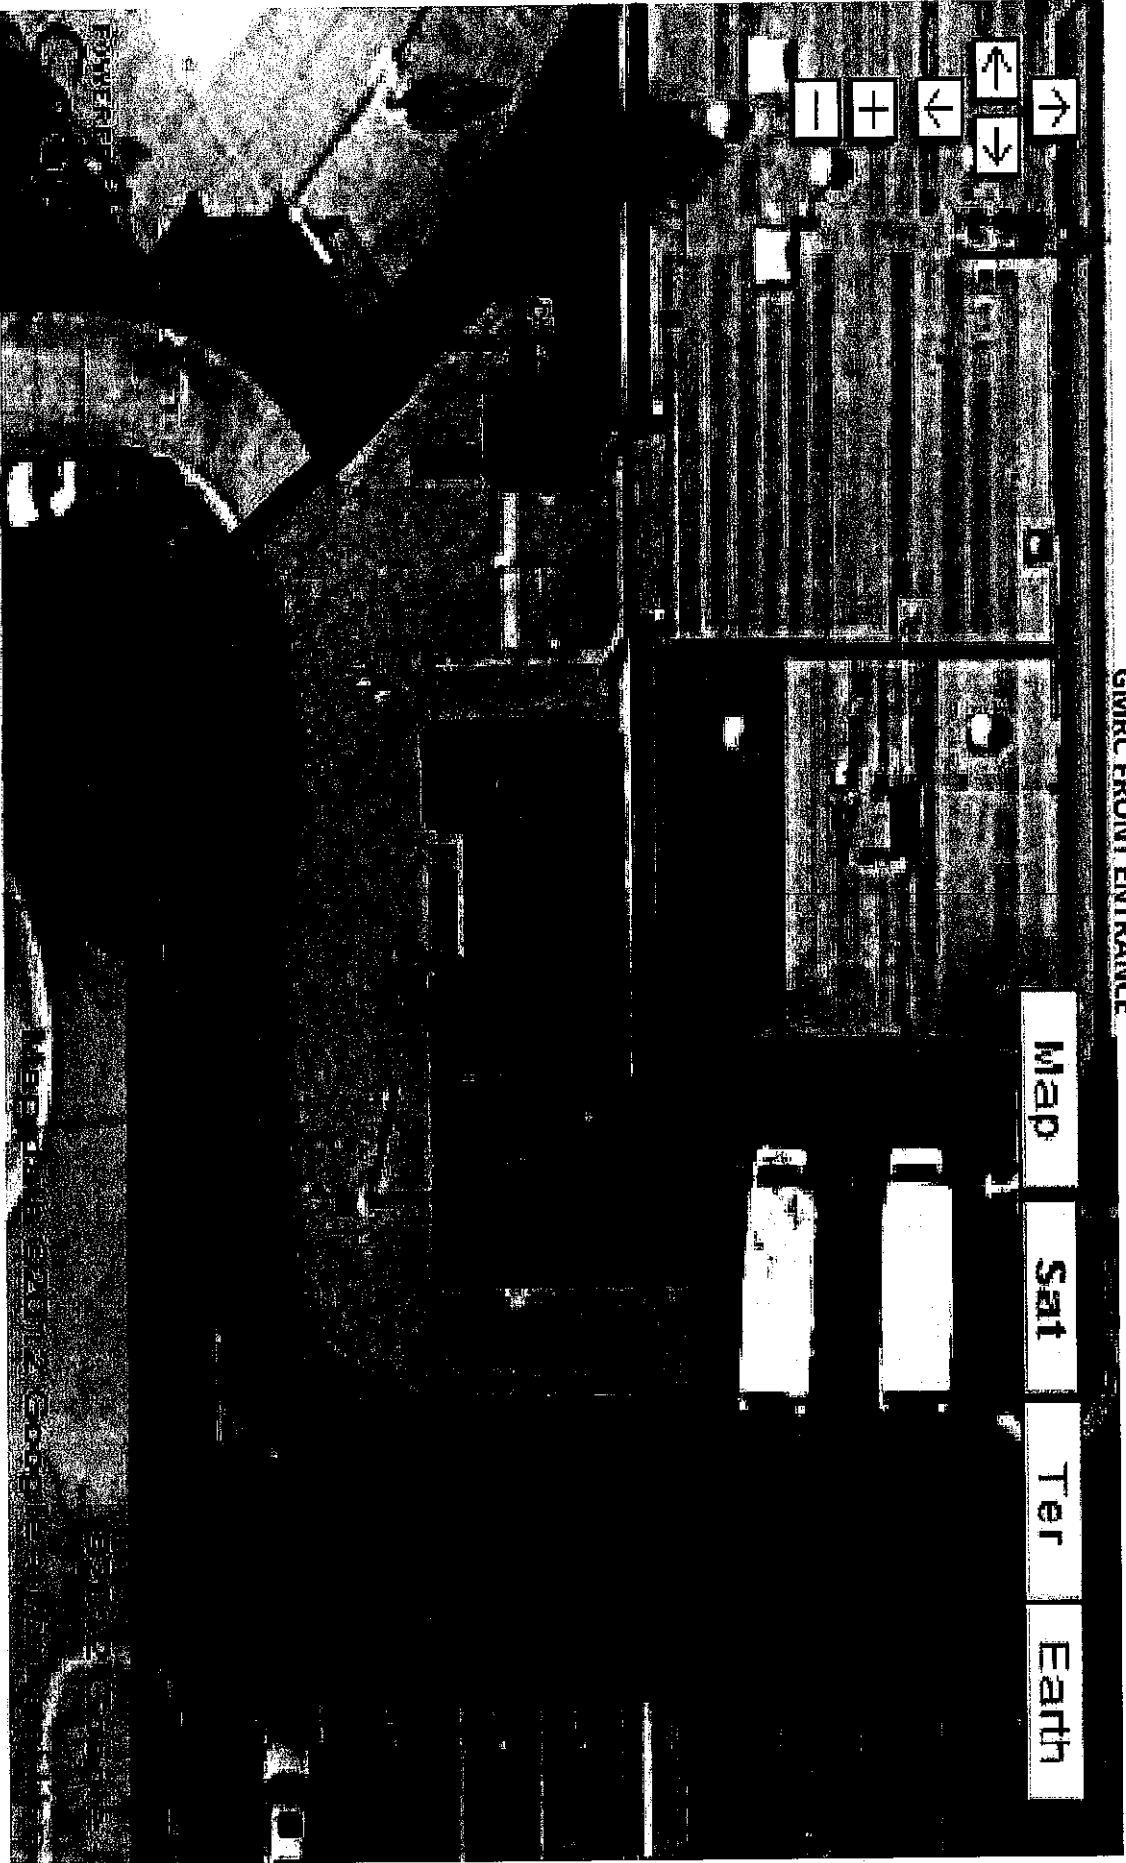

- Provide accessibility to a facility and swimming pool that provides continuous programming to NWSRA participants.

The Prospect Heights Park District respectfully requests that you review this proposal and present it for approval to the NWSRA Board of Directors. If you have any questions or require additional information please contact me at (847) 666-4862.

Sincerely,

David J. Figgins, CPRE  
Superintendent of Recreation and Parks

Rolling Meadows, Illinois 60008

Dear Ms. Crawford,

The Prospect Heights Park District hereby requests approval from the NWSRA Board of Directors for expenditures to be paid from the district's Special Recreation levy. This is based on the following:

- Recent purchase of a portable pool lift
- Purchase of a hand rail at our pool to allow for additional access
- Step box and rail to allow access to our spa

This project was completed to comply with current ADA standards relating to swimming facilities and spas. Our ADA consultant advised to the method of compliance and this project adhered to those recommendations. The cost of this entire project is \$7,004.05.

The benefit of this project to NWSRA is as follows:

- Provide accessibility to a swimming pool that provides programming to NWSRA participants.
- Provide accessibility to a spa within our community center

The Prospect Heights Park District respectfully requests that you review this proposal and present it for approval to the NWSRA Board of Directors. If you have any questions or require additional information please contact me at (847) 666-4862.

Sincerely,

David J. Figgins, CPRE

Re: ADA Accessible Picnic Tables

Dear Ms. Crawford:

The Mt. Prospect Park District hereby notifies and requests approval of the NWSRA Board of Directors for the proposed expenditures of funds from the Park District's Special Recreation levy to pay for the cost of (8) eight ADA accessible picnic tables to be installed in various parks throughout the Mt. Prospect Park District. These tables will be replacing older non-compliant tables that are currently in use. I have enclosed three competitive quotes for your review. The total cost for these tables from NuToys Leisure Products will be \$6,387.00.

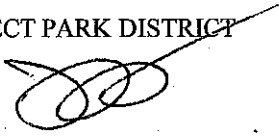

The benefits of this project to NWSRA are as follows:

- These new tables will provide accessible seating around playground and open park areas.

The Mt. Prospect Park District respectfully requests that you review this proposal and present it with your approving recommendation to the NWSRA Board of Directors. If you have any questions or require additional information, please do not hesitate to contact me at (847) 255-5380 Ext. 253.

Very truly yours,

MT. PROSPECT PARK DISTRICT

Re: Improvements Proposed to be Financed Using Special Recreation Levy

Dear Ms. Crawford,

We request approval from the NWSRA Board of Directors for the proposed expenditure of funds from the River Trails Park District's Special Recreation Levy to pay for the cost of the following ADA improvement:

**Purchase of an accessible range/stove for \$1,149 and the preparation work for installation - \$1,420 for a total of \$2,569 Please see attached for details.**

The benefit of this project to NWSRA is:

- This addition will allow all participants access to cooking classes and rental use. Especially pleased with this range/stove is the Young Adults Moving On program.

We respectfully request that you review this proposal and present it for recommendation to the NWSRA Board of Directors.

Thank you very much for your consideration.

Sincerely,

A handwritten signature in cursive script that reads "Debbie Carlson Kudla".

Re: Improvements Proposed to be Financed Using Special Recreation Levy

Dear Ms. Crawford,

We request approval from the NWSRA Board of Directors for the proposed expenditure of funds from the River Trails Park District's Special Recreation Levy to pay for the cost of the following ADA improvement:

**Installation of ADA warning red mats at Woodland Trails Park - \$4,400 + \$3,866.56 = \$8,266.66**  
**Repair of concrete to allow access from handicapped parking spaces - \$16,500**  
**Handicap striping for 5 spaces and concrete repair near stalls - \$2,470**  
**Additional work per inspector - \$6,556.97**  
**Total request - \$33,793.53 Please see attached for details**

The benefit of this project to NWSRA is:

- To allow better access to the pool and Weiss Community center as stated in our ADA compliance study

We respectfully request that you review this proposal and present it for recommendation to the NWSRA Board of Directors.

Thank you very much for your consideration.

Sincerely,

A handwritten signature in cursive script that reads "Debbie Carlson Kudla".

Re: Purchase of ASTNIF 2075-10A / ASTM F1292-09 Compliant Playground Surfacing

Dear Ms. Crawford:

The Mt. Prospect Park District hereby notifies and requests approval of the NWSRA Board of Directors for the proposed expenditures of funds from the Park District's Special Recreation levy to pay for the following improvements:

Purchase and placement of the referenced playground surfacing, Park District wide at a cost not to exceed \$5,280.00. The surfacing will be used to refresh various existing playgrounds and access routes, thus insuring continued compliance to ADA requirements.

The benefits of this project to NWSRA are as follows:

- The compliant safety surface exceeds ADA guidelines for accessibility and will provide access to playgrounds and play structures for children of all abilities throughout the parks.

The Mt. Prospect Park District respectfully requests that you review this proposal and present it with your approving recommendation to the NWSRA Board of Directors. If you have any questions or require additional information, please do not hesitate to contact me at (847) 255-5380 Ext. 253.

Very truly yours,

MT. PROSPECT PARK DISTRICT

Northwest Special Recreation Association  
3000 W. Central Road, Suite 205  
Rolling Meadows, IL 60008

Dear Ms. Crawford:

The Schaumburg Park District hereby requests approval from the NWSRA Board of Directors for expenditures to be paid from the District's Special Recreation Levy. This is based on a recently purchased 44-passenger accessible school bus. The total cost of the school bus was \$93,111. I have enclosed backup information regarding this purchase for your review. The Schaumburg Park District is asking for a \$46,555.50 reimbursement from the District's Special Recreation Levy.

The benefit of this purchase to NWSRA is the ability to provide handicapped individuals with accessible transportation to and from any leisure services that we provide.

The Schaumburg Park District respectfully requests that you review this proposal and present it to the NWSRA Board of Directors for approval. If you have any questions or require additional information, please contact me at 847-985-2115.

Sincerely,

SCHAUMBURG PARK DISTRICT

Schaumburg, IL 60193

Mr. King,  
Thank you for contacting Midwest Transit Equipment, Inc. for  
your bus needs.

We are furnishing this quote for an IC (International) CE  
conventional type bus per the State of IL contact #4016113. We  
will change the State of Illinois bus into a commercial bus;  
includes all Federal and State of Illinois requirements.

State Bid Pricing

Bus to have the MaxxForce 7 engine: \$72,008.00.  
(page 10 of the contract).

Seat belt option- 3 lap belts per seat: \$ 1,420.00.  
(page 12, line 00026 of the contract).

Wheelchair lift per attached floor plan "A". \$ 5,700.00.  
Lift location to be front after entrance door.  
One (1) Q'Straint "Slide N Click" position  
with retractable belts and shoulder harness.  
Lift door lights and all required items.  
(page 13, line 00032).

Delivery to Schaumburg: \$ 250.00.  
(page 13, line 00035).

Total quote from the State of IL contract \$79,378.00.

Price includes lettering and IL safety inspection sticker.

Options Added or Required Per Park District's Request

State bid contract was for a yellow school bus. We will convert bus to a commercial bus.

State bid contract included four (4) emergency push-out safety windows. Commercial buses this size require six (6) emergency windows.

Two (2) additional windows. \$ 185.00.

Tinted glass for the side and rear windows. (required with air conditioning) \$ 550.00.

Wheelchair lift and air conditioning require a larger alternator- 320 amp. \$ 595.00.

Paint the bus blue with white rub rails and bumpers. \$3,750.00.

Air Conditioning: Choose one system from this list.

I sent an email with these options and pictures to you.

Basic Unit

80,000 BTU total. 30,000 BTU front dash AC in the stepwell area and a 50,000BTU rear header in-wall unit. \$5,950.00.

Average Unit

110,000 BTU total. 30,000 BTU front dash AC in the stepwell area and an 80,000 BTU rear header in-wall unit. \$6,650.00.

Best Unit

120,000 BTU total. 60,000 BTU front header in-wall unit and a 60,000 BTU rear header in-wall unit. \$7,520.00.

\*I would recommend the 110,000BTU unit to keep the bus somewhat cool in the summer.

\*I would recommend the 120,000 BTU unit to keep the bus cool when it's very warm/hot outside.

License and title fee- Midwest will file and order Municipal plate \$ 155.00.

Additional Options to Consider

State bid price included hydraulic brakes.  
Option to change to air brakes. Price includes Bendix AD-9 air dryer and DV-2 automatic drain valve.

\$ 689.00. ✓

If air brakes are added, the option to include air ride suspension in lieu of spring suspension.

~~\$ 535.00.~~

Bus includes one (1) emergency roof hatch located in the center. Add additional roof hatch

~~\$ 350.00.~~

Bus price includes a black rubber floor covering. Change floor color to gray.

~~\$ 210.00.~~

Driver's storage unit located over the side driver's window, locking. Great for purse and valuables. Includes large dome light. Picture is included with this quote.

\$ 289.00. ✓

Trade-in Allowance

We will allow \$1,100.00 for your 22 year old 1991 International 44 passenger bus, serial number 1HVBBNEN2MH429871. Unit must be able to be driven safely to Kankakee, IL. Any breakdown during the return will be the responsibility of the Park District.

What Is Included with Purchasing an IC Bus from Midwest Transit

Midwest Transit is a full service dealer. We offer on-site warranty repair and maintenance. Attached please find a letter on service and warranty.

The bus is an IC bus by Navistar. The entire chassis, body, engine, and transmission can be serviced at any IC/Navistar dealer or Midwest Transit. The Braun wheelchair lift and air conditioning would be serviced by Midwest.

\$ 93,111

Midwest Transit is including Navistar's "On Command" internet system for the District's mechanics to access service manuals, wiring diagrams, diagnostics information, part items lists, service intervals, warranty information, and recall notices to the District at no charge.

RE: Improvements proposed to be financed using special recreation levy

Dear Ms. Crawford:

The Hoffman Estates Park District hereby requests approval of the NWSRA Board of Directors for the proposed expenditure of funds from the District's special recreation levy to pay for the cost of following improvement(s):

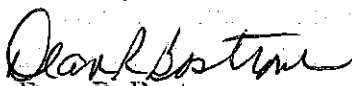

The district would like to use special recreation funding in 2013 for the purchase of 4 aquatic chair lifts to be located at the Prairie Stone Sports & Wellness Center (3 chairs) and Seascape Family Aquatic Center (1 chair). Plus the installation of 1 new handrail on the steps at Seascape Family Aquatic Center.

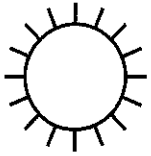

The estimated cost of the improvement is \$25,000. The improvements are expected to be complete by June of 2013. The anticipated benefits of the project to NWSRA are as follows:

- Increased ease of access for the use of the pools
- District's compliance with the new federal ADA standards
- Independent participation in services and activities

The District respectfully requests that you review this request and present it with your approving recommendation to the NWSRA Board of Directors. If you have any questions or require additional information, please do not hesitate to contact me.

Sincerely,

  
Dean R. Bostrom  
Executive Director

RE: Improvements proposed to be financed using special recreation levy

Dear Ms. Crawford:

The Hoffman Estates Park District hereby requests approval of the NWSRA Board of Directors for the proposed expenditure of funds from the District's special recreation levy to pay for the cost of following improvement(s):

The district would like to use special recreation funding for the partial purchase of 3 treadmills to be located at the Triphahn Community Center and Ice Arena. The senior center is located within this facility and there are a number of seniors with physical challenges who will benefit immensely from this equipment.

The estimated cost of the improvement for the total project is \$15,000; the cost impact on the special recreation funding is \$3,750. The improvements are expected to be substantially complete by December 31, 2012. The anticipated benefits of the project to NWSRA are as follows:

- Increased ease of access for the use of the fitness equipment
- Longer and wider deck for better balance and stability
- Larger and easier to read control console
- Longer side handles for increased safety

The District respectfully requests that you review this request and present it with your approving recommendation to the NWSRA Board of Directors. If you have any questions or require additional information, please do not hesitate to contact me.

Sincerely,

  
Dean R. Bostrom

Re: Purchase of ASTNIF 2075-10A / ASTM F1292-09 Compliant Playground Surfacing

Dear Ms. Crawford:

The Mt. Prospect Park District hereby requests approval of the NWSRA Board of Directors for the proposed expenditures of funds from the Park District's Special Recreation levy to pay for the following improvements:

The additional purchase and placement of the referenced playground surfacing to be used Park District wide at a cost not to exceed \$2,320.00. I have included copies of the invoices #73984 and #73987 to be considered for reimbursement in the amount of \$2,320.00. This additional surfacing will be used to refresh remaining existing playgrounds and access routes, thus insuring continued compliance to ADA requirements. This request is in addition to the previously approved amount of \$5,280 that has already been purchased and installed. I have provided documentation for the purchase of the previously approved amount of \$5,280. In the future I will incorporate these purchases for compliant playground surfacing into one approval letter for the year.

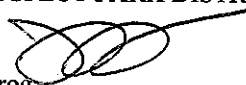

The benefits of this project to NWSRA are as follows:

- The compliant safety surface exceeds ADA guidelines for accessibility and will provide access to playgrounds and play structures for children of all abilities throughout the parks.

The Mt. Prospect Park District respectfully requests that you review this proposal and present it with your approving recommendation to the NWSRA Board of Directors. If you have any questions or require additional information, please do not hesitate to contact me at (847) 255-5380 Ext. 253.

Executive Director  
NWSRA  
3000 Central Road – Suite 205  
Rolling Meadows, IL 60008

Re: Improvements Proposed to be Financed Using Special Recreation Levy

Dear Ms. Crawford,

We request approval from the NWSRA Board of Directors for the proposed expenditure of funds from the River Trails Park District's Special Recreation Levy to pay for the cost of the following ADA improvement:

**Paint for the ADA sign post -  $\$34.91 + 11.54 = \$46.45$**   
**Purchase of door pressure gauge -  $\$61.53$**   
**Sealcoating repair of parking lot at Woodland Trails Park -  $\$7,220.00$**   
**Sealcoating at Sycamore Trails Park -  $\$468.24 + 59.37 = \$527.61$**   
**Rob Roy Clubhouse pipe insulation -  $\$718.77$**   
**Total request -  $\$8,574.36$  Please see attached for details**

The benefit of this project to NWSRA is:

- To allow better access to the pool and Weiss Community center and to our accessible playgrounds as stated in our ADA compliance study

We respectfully request that you review this proposal and present it for recommendation to the NWSRA Board of Directors.

Thank you very much for your consideration.

Sincerely,

A handwritten signature in cursive script that reads "Debbie Carlson Kudla".

**PARK DISTRICT**

October 12, 2012

Ms. Tracey Crawford  
Executive Director  
Northwest Special Recreation Association  
3000 W. Central Road, Suite 205  
Rolling Meadows, IL 60008

Dear Ms. Crawford:

The Schaumburg Park District hereby requests approval from the NWSRA Board of Directors for expenditures to be paid from the District's Special Recreation Levy. This is based on a recently purchased 20-passenger accessible school bus. The total cost of the school bus was \$52,949. I have enclosed backup information regarding this purchase for your review. The Schaumburg Park District is asking for a \$26,474.50 reimbursement from the District's Special Recreation Levy.

The benefit of this purchase to NWSRA is the ability to provide handicapped individuals with accessible transportation to and from any leisure services that we provide.

The Schaumburg Park District respectfully requests that you review this proposal and present it to the NWSRA Board of Directors for approval. If you have any questions or require additional information, please contact me at 847-985-2115.

Sincerely,

SCHAUMBURG PARK DISTRICT

Daniel D. Otto, CPRP  
Deputy Director

**MEMORANDUM**

**TO:** Dan Otto, Interim Director  
**FROM:** Todd King, Superintendent of Parks & Planning  
**DATE:** May 30, 2012  
**SUBJECT:** Bid Tabulation for 20 Passenger Shuttle Bus

---

One new 20 passenger shuttle bus went out for bid. Four sets of specifications were picked up and three bids were received.

**20 PASSENGER SHUTTLE BUS**

<b>Bidder</b>	<b>Base Bid</b>	<b>Alternate Bid</b>
Midwest Transit Equipment	\$56,211.00	\$55,246.00
Central States Bus Sales	\$52,949.00	N/A
Illinois Bus Sales	\$57,860.00	N/A

The staff would recommend that the Schaumburg Park District Board of Commissioners award the bid to Central States Bus Sales, Inc. not to exceed \$52,949.00. The budget for this project is \$75,000.

## BID NOTICE

Notice is hereby given that the Schaumburg Park District will be receiving sealed bids for **One (1) New 20 Passenger Shuttle Bus.**

Specifications may be obtained at the Administration Office of the Schaumburg Park District, located at 235 E. Beech Drive, Schaumburg, Illinois, 60193.

The Board of Park Commissioners reserves the right to waive all technicalities. The Board reserves the right to accept or reject any or all bids and; also, reserves the right to accept only portions of a proposal and reject the remainder.

Sealed bids will be received until 11:00 a.m. on Tuesday, May 22, 2012 at the Administration Office.

Todd King  
Superintendent of Parks and Planning  
Schaumburg Park District

## BID NOTICE

Notice is hereby given that the Schaumburg Park District will be receiving sealed bids for **One (1) New 20 Passenger Shuttle Bus.**

Specifications may be obtained at the Administration Office of the Schaumburg Park District, located at 235 E. Beech Drive, Schaumburg, Illinois, 60193.

The Board of Park Commissioners reserves the right to waive all technicalities. The Board reserves the right to accept or reject any or all bids and; also, reserves the right to accept only portions of a proposal and reject the remainder.

Sealed bids will be received until 11:00 a.m. on Tuesday May 22, 2012 at the Administration Office.

Todd King

Superintendent of Parks and Planning

Schaumburg Park District

SCHAUMBURG PARK FOUNDATION  
235 E. Beech Drive  
Schaumburg, Illinois 60193  
(847) 985-2115

PROJECT NAME: **ONE (1) NEW 20 PASSENGER SHUTTLE BUS**

DATE: May 1, 2012

INVITATION TO BID

The Schaumburg Park District will receive sealed bids until 11:00 a.m. on Tuesday May 22, 2012 at the Administration Office, 235 East Beech Drive, Schaumburg, Illinois 60193 for One (1) New 20 Passenger Shuttle Bus.

Bidders shall use the attached proposal form which shall be filled out completely and submitted in a sealed envelope, labeled "SEALED BID", the project name, the name of the bidder, date and time of opening, and addressed to the Schaumburg Park District, 235 East Beech Drive, Schaumburg, Illinois 60193, Attention: Todd King, Superintendent of Parks and Planning. Bids shall be received on or before 11:00 a.m. on Tuesday May 22, 2012.

Specifications and proposal forms may be obtained from the Administration Office at 235 East Beech Drive, Schaumburg, Illinois 60193.

All questions regarding these specifications may be directed to Todd King, Superintendent of Parks and Planning at (847) 985-2115. All bids are to be in accordance with specifications attached hereto.

The Schaumburg Park District reserves the right to waive all technicalities. The Schaumburg Park District reserves the right to accept or reject any or all bids and also reserves the right to accept only portions of a proposal and reject the remainder.

The Schaumburg Park District reserves the right to not accept the vehicle upon delivery, if it does not meet specifications.

## **SPECIFIC CONDITIONS**

1. The equipment listed on the proposal forms is to be used as a general description, size and style of the particular equipment to be purchased.
2. When the specific manufacturer's product is listed on the proposal forms, it is implied that an equal product in description, size and style that is manufactured or can be manufactured by other companies can be substituted.

All materials specified are to be new, clean and free from defects. Where the product, material or equipment of a particular manufacturer is specified, it is intended that the proposal submitted by the Contractor include that particular product material or equipment. Where two or more manufacturers are specified, the choice of these is with the Contractor.

3. If a substitute is quoted, the supplier shall note on his proposal form the name of the manufacturer.
4. A copy of the manufacturer's specifications and drawing(s) must be included with the proposal forms for either listed or substituted equipment.
5. The Board of Park Commissioners of the Schaumburg Park District will accept or reject bids within sixty (60) days after receipt and reserve the right to combine, add, select, delete or separate any bids on the equipment if it be in the best interest of the public.
6. Contract awards will be made on the basis of price, manufacturer's specifications and past performance.
7. Bus is to be used for the transportation of children and adults for Park District programs.

## **SPECIAL PROVISIONS**

1. **Hardware:** Price quotations on listed or substituted equipment must include all necessary hardware for a complete, functional unit.
2. **Delivery:** All prices shall be FOB Schaumburg, Illinois.
3. **Manuals:** After the contract(s) have been awarded, the firm(s) shall provide the Schaumburg Park District with one (1) set of shop repair manuals, operational manuals and parts manuals.
4. **Payment:** Payment shall be made within sixty (60) days after delivery and acceptance of all equipment.
5. **Guarantee:** The equipment shall be guaranteed for a period of 3 years or 36,000 miles from date of delivery and acceptance against defects in workmanship and materials.

## DETAILED SPECIFICATIONS

### ONE (1) NEW 20 PASSENGER SHUTTLE BUS

These specifications apply to One (1) New 20 Passenger Shuttle Bus to be purchased. Only vehicle meeting these specifications and/or equivalent will be accepted.

#### Purpose

The purpose of these specifications is to describe a mid-size shuttle bus, which will be used to transport park district patrons and wheelchair passengers for park district programs. The bus will be constructed as a unibody matrix of steel and fiberglass reinforced plastics and resin hardened composite that offers a light weight and non-corrosive body panels. The bus body is to be mounted on a Ford RV Cutaway chassis, E-450 series with the "Shuttle Bus Prep Package (Ford Option 47B)" included. All vehicle suppliers must conform to this technical specification. Metal exterior skinned buses will not be accepted.

#### General

This specification is written around specific needs of this agency. With the intent to standardize certain components, therefore in numerous places we have named specific brands of components. This has been done to establish a certain standard of quality. Other brands will be considered providing the vendor provides documentation clearly describing any variation to these bid specifications. Such requests must meet or exceed the specification called for in this bid document. The determination of the Schaumburg Park District regarding any such request as far as accepting or denying said request will be final.

#### Materials

All materials used in conversion of the bus shall be new and conform in all respects to American Society of Testing Materials, society of Automotive Engineers or similar association standards.

#### Capacity

Vehicle must be able to accommodate 20 seated passengers plus driver with no wheelchairs on board, or 16 passengers plus driver and 2 wheelchairs.

#### Dimensions

Overall exterior length	300" max.
Overall exterior width (ex. mirrors)	96" max.
Overall height	115" max
Interior head room	80" Min.
Interior width (seat level)	92" min.
Aisle width	15" min.
Ground to first step	11.5" max

#### Chassis Equipment as Follows

Model year/make	2012 or newer Ford E450 Super Duty cutaway
Wheelbase	176" min.
G.V.W.R.	14,500# min.
Engine	6.8L V10 gasoline engine
Transmission	5 speed automatic w/overdrive
Axle rating	Front 5,000# min Rear 9,500# min.
	<b>Mor/Ryde rear suspension</b>
Steering	Power
Brakes	Power Disc, antilock

## DETAILED SPECIFICATIONS – PAGE 2

Shocks	Heavy duty front and rear
Batteries	Dual
Alternator	225 amp OEM chassis supplied
Bumper front	chrome front
Bumper rear	Heavy duty steel powder coated
Horn	Dual note
Tires	6-LT225/75R 16E radials
Fuel capacity	55 gallons min.
Radiator	Heavy duty largest capacity available
Gages	Oil pressure, fuel, Amp meter, temperature, tachometer
Drive shaft guards	2 (two)
Wipers	Intermittent
Steering features	Tilt wheel/cruise control

## VEHICLE BODY

### Body, General Construction

The body structure shall be built as an integral unit. All joints and corners where stress concentration may occur shall be adequately reinforced to carry required loads and withstand road shock. The bus body shall be certified by an independent testing agency to meet the requirements of Federal Motor Vehicle Safety Standard Number 220 (school bus rollover protection) and FMVSS 221. Certification of compliance with these tests shall be provided with the submission of this bid.

### Body Frame Structure

Multi point rubber isolators shall be used to mount body to the cab chassis. All structural fabrication shall use 1010/1020 low carbon hot rolled steel. All exposed steel shall be treated with an anti-corrosive protective material.

The substructure shall be made of combination of at least five (5) 2"x3", 14 gauge tubular steel outriggers, 1¼" x 4¼", 11 gauge C-channel, 12 gauge "seat track" and 1½" x 1½" x 2", 14 gauge Z channel welded into ladder type structure and bolted to the OEM chassis frame on rubber isolators.

### Body Panels

Roof and front and rear caps shall be fiberglass properly attached to side walls forming a unibody design without exposed fasteners or protruding fasteners.

Body panels (side walls) shall consist of a matrix of fiberglass reinforced plastic. Exterior surfaces shall be a minimum of .020" thickness of high gloss gelcoat to prevent moisture penetration and corrosion. The center layer shall consist of ¾" (2 lb. density) polyurethane foam. Steel sections shall be integrated into the roof and sidewalls to provide additional structural integrity and to provide sound attachment surfaces for various features or options and provide a fully integrated steel roll cage. Front and rear caps and roof shall be FRP material.

### Interior

Wall and head liner are to be of ABS or FRP bright white material. All interior trim pads are to be gray vinyl.

### Mirrors

Mirrors shall consist of two (2) exterior mirrors with non-corrosive heads each incorporating a flat 7"x9" mirror and a 7"x5" convex spot mirror located in the bottom portion of mirror head. **Mirrors shall be power and heated.** Interior shall have a 6" x 9" mirror for viewing passenger area.

### Passenger Entrance Door

- A. The entry door shall be fully encompassed by an integrally welded steel door surround and stepwell. The complete door surround will incorporate the step well, and shall be installed in the body as a single unit. Door frame structure shall be made of high quality steel and shall be finished with high gloss powder coat paint. The door shall have a full clear opening width of at least 32" and a full height of at least eighty inches (80").
- B. The entry door shall be a two-leaf, outward opening type, electric operated and controlled from the driver's seat.
- C. Door panels shall incorporate full view one piece tinted safety glass with anodized aluminum framing.
- D. At the meeting edges of each door leaf, a rubber seal shall be installed so that the edges form a tight overlapping seal when closed.
- E. A 1¼" stainless steel grab bar (stanchion) shall be securely fastened to both sides of the interior of the doorway parallel to the steps to assist passengers in entering or exiting the vehicle. Full view plexi glass style door panels are not acceptable.
- F. All fasteners shall be stainless steel or non-corrosive type.
- G. Door shall have an exterior mounted entrance door key switch that is hot all the time.

The floor covering shall be R.C.A. Transit Rubber. The floor shall be covered with 3/16" ribbed flooring on the step risers and center aisle. Rest of the flooring shall be 1/8" smooth flooring. Steps shall have a 2" white safety nosing on each step edge. Step tread shall be of one-piece rubber flooring. The floor covering shall be butt jointed and securely cemented to the plywood floor with a waterproof adhesive. The floor sub-structure shall be covered with a minimum of ¾" thick solid piece plywood FRP encased floor pattern cut to the floor plan desired. Entire underside (where permitted by chassis manufacturer) shall be covered with commercial grade undercoating in bus. This is extremely important due to the highly corrosive climate in which the bus will be operated. Floor covering shall be grey in color.

### Windows

- A. The windshield is to be a one-piece design. Windshield shall be laminated tinted safety glass.
- B. The driver's window shall be capable of opening. This window shall be tempered or laminated safety glass.
- C. The side passenger windows shall be transit type, as opposed to the school bus type. It is desired to maintain a transit type appearance, and school bus type windows will not be accepted. The passenger windows shall be certified by an independent testing agency to be in compliance with FMVSS 217 (Bus window Retention and Release). Certification of compliance with FMVSS 217 shall be provided with submission of this bid. Passenger windows must be capable of opening to ensure ventilation. Windows shall be an upper T-Sliding design in situations where smaller filler windows are required.
- D. Side and rear hinged emergency escape windows must be provided per FMVSS requirements. Emergency windows must be clearly labeled and operating instructions must be clearly visible.
- E. All egress windows shall be so identified and include operating instructions. All passenger windows must be safety glass with an AS-3 marking. Windows are to be dark tinted to a maximum of 23% light transmission. All passenger windows shall be installed in black powder coated anodized aluminum frames. All passenger windows shall have a minimum viewing area of 34" tall by 24" wide, except where the floor plan desired requires the use of one smaller (filler) window on each side. Any filler windows used must be same height as standard window.

### **Lighting**

Interior: Shall consist of one (1) step well light to illuminate entrance area adequately when door is opened and one(1) drivers courtesy light that activates when drivers door is opened or with headlight switch. Passenger cabin shall be illuminated by lights (min of 3 each side) that are mounted above the windows in the wall to roof transition panel or above the center aisle. These lights shall active when the entrance door is open or with a separate interior switch located by the driver. An exterior light, that meets ADA requirements, shall be mounted in the body skirt by the front entrance door. This too shall activate when the door is opened.

Exterior: Shall consist of OEM chassis standard front cab light configuration. In addition, body shall have five (5) amber clearance lamps on the front and five (5) red on the rear in ICC configuration. On the upper rear left and right side corners of the body, there shall be one (1) red light that matches the clearance lamps.

Rear of bus shall have a license plate lamp, two (2) 4" round tail/stop lamps, two (2) 4" round white back up lamps and two (2) 4" round amber turn signals. Lamps shall be installed in a manner that is aesthetically pleasing and in combination form. School bus type lamps are not acceptable.

Vehicle shall have high mount center stop lamp.

### **Drive Console**

A separate drivers console shall be included for the purpose of accommodating all switches that are installed by body manufacture. The shall include but not limited to electric door switch, heater switch, air conditioning controls, interior passenger lights switch and power lift switch.

All switches installed by the body manufacture shall be push or heavy duty rocker style that are back lit for night operation and labeled as to use. Only exception is regarding rear air conditioning switches which shall be those supplied by the air conditioning manufacturer.

### **Wiring**

All wiring shall follow a uniform code color, and be numbered and/or function coded to allow with ease the identity of individual wires throughout the vehicle.

There shall be two (2) fuse/relay boxes. One shall be chassis OEM installed and shall not be altered in any way. The other shall be for body and components as installed by the body manufacturer. This junction box shall be installed on the interior of the vehicle.

An electrical wiring diagram shall be supplied with the vehicle for all body components.

### **Air Conditioning**

Shall consist of chassis OEM dash air conditioning and body manufacturer installed rear air conditioning. Capacity of unit shall be a minimum of 60,000 BTU's with. System shall incorporate a 3 fan skirt mounted condenser and dual compressors Evaporator shall be installed in the rear of the vehicle above the rear window. Bidder shall submit information on make and type of air conditioning proposed along with wiring/plumbing diagrams with bid.

### **Heating**

Shall consist of chassis OEM dash heater/defrost and one rear floor mounted heater with minimum of 65,000 BTUs. An exterior mounted shut off valve shall be supplied for the rear heater.

### **Stanchions, Hand Rails and Modesty Panels**

Bus shall have a vertical and horizontal stanchion and modesty panels mounted behind the entrance door and driver seat. There shall also be a right and left entrance rail at step area. These hand rails shall be mounted in a manner that allows passengers to grasp throughout the ascent or descent of the vehicle. The hand rails shall follow the incline of the steps. Hand rails and stanchions shall be stainless steel.

All modesty panels/stanchions shall allow for a minimum of 1½", knuckle space for passenger grasp.

### **Seats**

**Driver:** Shall be high back reclining bucket seat with right arm rest. The seat shall be covered with gray cloth insert and vinyl trim level 2 material.

**Passengers:** Bus shall be able to accommodate 16 passengers plus 2 wheelchairs on board. Seating shall consist of the following: Passenger seat shall consist of eight (8) double mid high back style seats with 4 sets on each side of aisle. All seats shall be featherweight Freedman seating type or approved equal.

Two (2) 34" MID HIGH Notch back fold away seats shall be installed in the left rear corner (street side).

All passenger seats shall be covered with commercial grade seat material. Color to be selected upon award. Seat material shall be level 3.

All seat positions shall have retractable seat belts that meet all FMVSS requirements. Fixed seats are to have fixed (not traveling type) retractors. Flip seats may have lap traveling type retractors.

Seats shall have aisle side hard rubber flip armrest and vandal resistant seat back assist rails. See attached floor plan for desired seat/wheelchair layout.

### **Reverse Alarm**

Vehicle is to be equipped with a reverse alarm that activates when the transmission is put in reverse.

### **Paratransit Equipment**

**Lift:** Bus shall have a Braun NCL919 lift that meets all ADA and FMVSS403 requirements. Lift shall be mounted on the right side behind the rear axle.

Lift shall be equipped with a transmission/park brake interlock system that prohibits vehicle from moving if lift doors are open. System shall incorporate lights that indicate proper driver operation to allow lift to function. An integrated fast idle system is also required.

**Lift Doors:** Shall be of double panel construction. Each panel shall have a door handle with at least one of these handle to have a key lock cylinder for the purpose of locking and securing the bus. Each door panel shall have a window installed at or approximately the same height as the side passenger windows. Door panels shall be constructed of corrosive resistant material and have proper sealing to eliminate water/air leaks. Frames shall be secured with stainless steel fasteners or corrosion resistant fasteners.

Each door panel shall have heavy duty gas filled shocks or over center props to hold door open and full length piano style stainless steel hinges.

Lift door shall meet the minimum requirements of ADA regarding clear opening height and width as it applies to buses in excess of 22 feet.

**Lift Lights:** An interior light shall be mounted above the lift door as well as an exterior flush mounted lift light which shall be mounted in the skirt of the bus and centered below the lift doors. Illumination requirements of these lights shall meet ADA requirements. These lights shall activate when the lift doors are opened and shall be independent of vehicle driving lamps

**Mobility Aid/Passenger Restraint Belt System:** Shall be manufactured by Q-Straint, model "Q-8100-A1-L" auto retracting type, and be the "L" style and consist of four (4) straps that secure wheelchairs in place and a combination retractable lap/shoulder harness for wheelchair passengers. These securement systems must meet all ADA requirements. Track in floor must be flush mounted. Bus shall be able to accommodate two (2) wheelchairs and have two (2) complete sets of belts as described above.

**Priority Decals:** Decals indicating that wheelchair positions are reserved for those with mobility aid devices as well as one set of forward facing seats that are reserved for passengers with disabilities shall be installed. These decals are to meet all ADA requirements.

**Belt Storage Compartment:** A storage compartment located in the nose cone of the bus above the front windshield shall be supplied. This compartment shall be of adequate space to store wheelchair belts when not in use and shall be a minimum of 40" wide by 12" high and 12" deep. Compartment shall be lined with carpet or vinyl type material and have a fiberglass door panel with thumb turn latches.

### Wheels

Shall be OEM white in color with stainless steel wheel inserts

### Fast Idle System

Bus shall have a fast idle system that monitors electrical output and draw. This system shall be automatic with a manual override. System shall work in conjunction with lift interlock system. Advanced Fast Idle System by Intermotive Products is representative of the type of system desired.

### Miscellaneous

Mud flaps at front and rear wheel and stainless steel wheel inserts.

Vehicle shall be delivered with the following safety equipment:

1. 5 # fire extinguisher
2. First aid kit
3. Reflector triangles

All equipment shall be mounted in vehicle.

AM/FM/CD radio w/4 speakers (2 front and 2 rear)

Driver's side running board.

Vehicle shall be delivered with current State of Illinois safety inspection sticker.

Vehicle color shall be bright white with "black out" windows with basic vinyl stripes and graphics as required by the Schaumburg Park District. Representative layout is included in the bid packets.

Vehicle shall meet or exceed all State and Federal regulations in effect at time of manufacturing including ADA (Americans with Disabilities Act) requirements as they pertain to the type of vehicle being requested.

Bidders/manufacture shall certify that the vehicle being bid does not exceed the maximum GVWR when loaded per the requirements of the chassis manufacturer.

## DETAILED SPECIFICATIONS – PAGE 7

Bidder shall submit proposed scaled floor plan with bid.

Bidder shall submit product catalogues on the vehicle being proposed as well as on the lift, air conditioning system and other pertinent equipment.

Each bus shall be delivered with a complete parts catalogue, service manual and operator's manual on the body and associated equipment. These are to be in digital form on disc.

Bidders shall certify that the vehicle being built within the guidelines of the chassis manufacturer and that bus manufacturer does have a certificate from Ford Motor Company stating that the bus manufacturer has a "Fully Meets" status pertaining to the minimum requirements of the "Transit Bus Quality Program". A copy of this certificate must be submitted with the bid.

### **Delivery and Payment**

Payment shall be made upon delivery and inspection to verify compliance with specification, free of damage and of acceptance of the vehicle.

### **Warranty**

A description of all applicable warranties as well as copies of said warranties shall be submitted with the bid. These shall include, but may not be limited to, chassis, lift, air conditioning systems, etc.

PROPOSAL TO THE  
BOARD OF PARK COMMISSIONERS  
SCHAUMBURG PARK DISTRICT

PROJECT: **ONE (1) NEW 20 PASSENGER SHUTTLE BUS**

The undersigned, as a Bidder, declares that he has carefully examined the specifications, all pertinent instructions and statements of requirements and all other conditions affecting price, and proposes to sell the Schaumburg Park District the following equipment for the amount(s) set forth as follows:

**BASE BID**

**TOTAL COST**

One (1) New 20 Passenger Shuttle Bus  
with Options per Specifications

\_\_\_\_\_

**Any and all exceptions or deviations from these bid specifications must be addressed in writing and submitted with the bid.**

PROPOSAL TO THE BOARD - PAGE 2

The Bidder further certifies that the official name or title and the business address of the Bidder to be considered as the maker of their proposal is as follows:

NAME OF BIDDER: \_\_\_\_\_

ADDRESS OF BIDDER: \_\_\_\_\_

CITY AND STATE: \_\_\_\_\_

PHONE NUMBER: \_\_\_\_\_ FAX NO. \_\_\_\_\_

TITLE & SIGNATURE: \_\_\_\_\_

DATED THIS \_\_\_\_\_ DAY OF \_\_\_\_\_, \_\_\_\_\_

**NOTE:** Please submit all backup information and specifications for the vehicles, which your company is proposing to sell to the Schaumburg Park District. Bids good for sixty days – Tax Exempt – F.O.B. Schaumburg, Illinois.

## PROPOSAL TO THE BOARD - PAGE 3

### Laws and Certification

The Contractor shall at all times observe and comply with all Federal, State and local laws, regulations and ordinances which in any manner affect the conduct of the work. Any complaint, claim or action brought against the Contractor for failing to observe or comply with any law, ordinance or regulations shall be the sole responsibility of the Contractor and shall in no way extend to or expose the Schaumburg Park District to liability and the Contractor shall indemnify and hold harmless the Schaumburg Park District from any and all such complaints, claims or actions.

### Wages and Rates

In all work performed under this Contract, the Contractor and all of its subcontractors shall comply with the provisions of AN ACT regulating wages of laborers, mechanics and other workers employed in any public works by the State, county, city or any public body or any political subdivision or by any one under contract for public works (ILL.REV.STAT. ch.48, Sections 39s-1 et seq.)

The Contractor shall not pay less than the rates of wages prevailing in the District as determined by the Illinois Department of Labor to all laborers, mechanics and workers performing any work under this Contract. The Contractor shall require all of its subcontractors to comply with the requirements of the preceding paragraph, which shall be incorporated in each and every subcontract for all or any portion of the work.

### Certification

The Contractor shall complete the Contractor's Certification form attached to the Proposal form. Failure to do so may result in disqualification of the Bidder.

### Illinois Worker

The Contractor shall comply with all requirements of section 2201 et seq., Chapter 48 of the Illinois Revised Statutes with reference to the Employment of Illinois Workers on Public Works Projects Act.

**CONTRACTOR'S CERTIFICATION**

Contractor certifies that no owner, shareholder, officer, director or employee of the Contractor is related by blood or marriage to any Park Commissioner, officer, or employee of the Schaumburg Park District, except as listed below:

Pursuant to 720 ILCS 5/33-11, effective January 1, 1989, the undersigned certifies that he is duly authorized agent or the contractor submitting the attached bid to the Schaumburg Park District, and that said contractor is not barred from bidding on this public contract as a result of a violation of either Section 33E-3 or 33E-4 of said Act.

Failure to (i) execute said certification, or (ii) to list all information requested above, or (iii) to make a truthful certification may result in disqualification of bidder or, if the Contractor has been awarded the contract, cancellation of said contract at any time and such other and additional remedies at law and/or in equity as the Park District may have against the Contractor caused by such unexecuted, incomplete or false certification.

RE: 2012 Elk Grove Park District Projects to be Financed Using Special Recreation Levy

Dear Ms. Crawford,

The Elk Grove Park District hereby notifies and requests approval of the NWSRA Board of Directors for the expenditure of funds from the District's special recreation levy, to pay the cost of the following improvements.

Project	Project Total	ADA Expenditures
Lindbergh Playground Renovation	280,000	\$ 30,000.00
Debra Playground Renovation	66,000	\$ 16,500.00
Audubon walk improvements	4,650	\$ 1,500.00
Hanson walk improvements	4,425	\$ 1,475.00
Jensen North Park walk improvements	36,000	9,000
Marshall walk improvements	2,400	600
Morton Park walk improvements	24,000	\$ 6,000
Pavilion bleacher pad	2,625	875
Pavilion restroom remodeling	50,000	\$6,000
		<b>\$71,950</b>

Elk Grove Park District  
499 Biesterfield Road  
Elk Grove Village, IL  
60007

Phone: 847-437-9494  
Fax: 847-228-3508  
www.elkgrovetparks.org

The estimated costs of improvements are **\$71,950.00**. The improvements will be completed by December 30, 2012. Anticipated benefits of the project to NWSRA are as follows:

**Lindbergh Park \$30,000** This park renovation included playground equipment that has both a transfer platform and ramp to access the play equipment. The play equipment includes color coded activities for sound, texture and accessibility. Signage for the compass and globe encourage interactive social and educational games. The super nova and tire swing encourage side by side play. The area includes accessible seating and picnic tables on an accessible path. The engineered wood fiber play surface and rubber tile surfaces provide access to the 2 adaptive swings and play equipment. The large picnic shelter was replaced and an accessible route to the shelter, soccer bleachers and tennis courts was installed. Accessible picnic tables and benches were also added. An accessible route to the playground and school from Biesterfield Road was installed to shorten the distance for access to the site.

**Debra Park \$16,500** Park renovation included playground equipment that has transfer platforms to access the new play equipment. The play equipment has textural and social play areas. The area includes accessible seating and picnic tables from an accessible path. The engineered wood fiber play surface provides access to the adaptive swing and play equipment.

**Audubon Park \$1,500.** New accessible route and accessible portable toilet added near the two ball diamonds.

**Hanson Park \$1475** New accessible route and accessible portable toilet added near the soccer field and Kenneth Young Center Basketball area.

**Jensen Park \$9,000** Replacement of cracked broken walk to connect public walk to new picnic shelter and accessible table and bench.

**Marshall Park \$600** Concrete walk and accessible portable toilet added near the soccer field and playground.

**Morton Park \$6,000** New concrete walks extending the access to Salt Creek and the park's practice soccer field and seating areas. This is the second of 3 phases to improve access to the park.

**Pavilion Concrete Bleacher Pad \$875** The accessible route previously installed did not include an accessible bleacher pad. This was installed to provide access to the soccer areas.

**Pavilion Restroom Remodeling \$ 6,000** the complete remodeling of the men and women restrooms in the main lobby. This corrected all of the non compliant items in both rooms as noted in the survey and prioritized in the transition plan.

The Elk Grove Park District respectfully requests that you review this request for one Seventy –one thousand nine hundred fifty dollars (\$71,950.00) and present it with your approving recommendation to the NWSRA Board of Directors. If you have any questions or require additional information, please do not hesitate to contact me.

Sincerely,

Valerie Gerdes Lemme

Ms. Tracey Crawford  
Executive Director  
Northwest Special Recreation Association  
3000 W. Central Road, Suite 205  
Rolling Meadows, IL 60008

Dear Ms. Crawford:

Re: Improvements Proposed to be Financed Using Special Recreation Levy

Schaumburg Park District hereby notifies and requests approval of the NWSRA Board of Directors for the proposed expenditures of funds from the District's Special Recreation Levy to pay for the cost of ADA improvements at playgrounds located at Belle, Olde Salem and Prairie Parks and pathway accessibility work located at Atcher Park. Enclosed is an itemization of the ADA improvements at each of these playgrounds and the pathway work located at Atcher Park. The total cost is \$150,667.

These improvements have been completed as of September 30, 2012. The benefits of these projects to NWSRA are as follows:

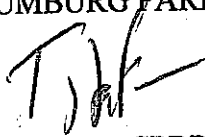

- 1) Provide accessibility to the playgrounds
- 2) Provide accessibility to individual play events
- 3) Provide accessibility to spectator areas within Atcher Park

Schaumburg Park District respectfully requests that you review this proposal and present it with your approving recommendations to the NWSRA Board of Directors.

If you have any questions or need additional information, please do not hesitate contact me.

Sincerely,

SCHAUMBURG PARK DISTRICT

  
Tony LaFrener, CPRP  
Executive Director

Executive Director  
NWSRA  
3000 Central Road – Suite 205  
Rolling Meadows, IL 60008

Re: Improvements Proposed to be Financed Using Special Recreation Levy

Dear Ms. Crawford,

We request approval from the NWSRA Board of Directors for the proposed expenditure of funds from the River Trails Park District's Special Recreation Levy to pay for the cost of the following ADA improvement:

**ADA Asphalt & Marking - \$800**  
**ADA Sign Sample - \$38.35**  
**Payroll hours for ADA Compliance Projects - \$2,471.60**

**Total request - \$3,309.95 Please see attached for details**

The benefit of this project to NWSRA is:

- To meet the requirements for ADA Compliance and create a more open and friendly access to all in our community.

We respectfully request that you review this proposal and present it for recommendation to the NWSRA Board of Directors.

Thank you very much for your consideration.

Sincerely,

A handwritten signature in cursive script that reads "Debbie Kudla".
