Benefits of the Project

A walking trail for fitness with benches to rest, fitness equipment on safety surfacing and accessible games court for multi-generational play provide plenty of choices for residents of any age or ability to play or exercise. The music and chess areas provide additional family fun and are shaded. The new area includes an accessible drinking fountain with bottle filler. There are new plantings and a pollinator garden as well as turf mounds for imaginative play. Located on the east side of the Center near the existing bocce courts this area gives older residents a space away from the preschool and traditional playground that can be used any time the park is open. The Adult Center specifically requested most of the items so they could expand their programs and activities outside. Time outside has additional benefits of socialization and increased mental and physical health,.

Items that will become ADA Compliant

A walking trail with themed insets supporting the Focus on Flight theme, seating areas, STEM stations and access to the family games court (ping pong table, baggo, ladder toss), chess area with ADA game tables, music and fitness. Accessible furniture, shaded areas, accessible drinking fountain with bottle filler, and multi-seasonal plantings to provide sensory stimulation are also included.

The project is designed or constructed, or applies human resources, to comply with:

**The 2010 Standards for Accessible Design
The Illinois Accessibility Code
ASTM Standard for Accessible Exercise Equipment
Agency's ADA Transition Plan**
